DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES

I. Narrative Description (\$ in Thousands)

The Program 2 General Purpose Forces request for FY 1987 is \$7,800,184 a net increase of \$170,854 over FY 1986. The FY 1987 supported force will consist of 18 active divisions, 6 separate brigades, 3 armored cavalry regiments, and one Ranger Regiment. Included in the Program 2 request are resources to support the continued phased activation of the 10th Mountain Division (formerly carried as the seventeenth Active Component division) configured as light infantry and conversion of the 25th Infantry Division to the same light infantry design. Resources are also provided for unit activations of the 6th Infantry Division. This division will focus on defense of Alaska and the Aleutians, and is initially formed through a restructuring of the 172d Infantry Brigade. These actions represent a continuation of the initiative begun in FY 1985 with the conversion of the 7th Infantry Division and initial unit activations in the 10th Mountain Division. Both the 10th Mountain Division and the 6th Infantry Division will be rounded out with Reserve Component brigades. The Army's light infantry initiative is aimed at modernizing our lighter forces to counter the changing nature of the threat within continued constraints on available resources (manpower, total obligational authority and strategic lift). Upon completion of the light infantry division activations and conversions, the Army will have enhanced its defensive posture in Alaska and the Aleutians and increased its overall deterrent posture as well as having significantly enhanced its capability to respond to the more likely contingencies at the lower end of the conflict spectrum. The heavy (armor and mechanized infantry) divisions continue conversion in FY 1987 to refined Division 86 unit designs; coincidentally, certain resources are shifted from Division to Corps to enhance flexibility of the Corps to influence tactical operations world wide. All these actions are programed with no increase in total active military end strength, and no increase in the troop end strength to be stationed in Europe.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES

I. Narrative Description (\$ in Thousands) (Continued)

The Program 2 (Mission) request includes resources to sustain the active combat forces, and related combat support and combat service support. The program provides for training support and initiatives to improve the material support in the field with the objective of enhancing the capability of the Army to deploy and conduct sustained combat operations. Resources also provide for combat development activities, Army costs associated with Joint Chiefs of Staff exercises and operations of the Unified Commands for which the Army is the administrative agent.

The Program 2 (Base Operations) request provides resources to support operations (less Real Property Maintenance Activities) at most installations in CONUS and all installations in Europe, Japan, Korea, and Hawaii funded by the Operation and Maintenance, Army Appropriation. Support provided includes: supply operations; maintenance of materiel; transportation services; laundry and dry cleaning operations; the Army Food Program; bachelor housing operations and furnishings; personnel, administration, and other resources essential to the Army's overall readiness posture. Funds to operate installations satisfy both fixed and recurring costs and directly support the Army's primary readiness objectives of manning, training, modernizing, and sustaining the force.

The Real Property Maintenance Activities (RPMA) provides support for General Purpose Forces and their supporting structure at 337 installations/locations in Europe, CONUS, and the Pacific. This includes increased combat service support of rapid deployment forces, support of force modernization, force structure changes and correction of security deficiencies.

B. Reconciliation of Increases and Decreases:

Program Transfers

(1) Currency Fluctuation.....\$	750,200
This transfer from the Foreign Currency Fluctuation Defense Fund provides funding for the difference in between the budget foreign currency exchange rates (example 3.73DM) to the actual disbursements which are expected to be approximately 2.46DM to the U.S. Dollar.	
(2) Foreign Currency Program Adjustment.....\$	111,000
Transfer from Foreign Currency Fluctuation account in accordance with Congressional Guidance. Transfer offsets a portion of congressional reduction for foreign currency.	
(3) Conventional Force Readiness\$	68,512
Support for improved conventional force readiness in such areas as, organizational clothing and equipment, repair parts, maintenance of equipment and facilities, logistical support, and physical security.	
(4) Standard Installation Organization.....\$	93
Transfer to align functions in accordance with the Standard Installation Organization concept.	
(5) USAIA/AMC Transfer.....\$	-1,685
Transfers mission funding to U.S. Army Intelligence Agency (USAIA) to support the Foreign Science in Technology Center, Signals Warfare Laboratory, and Electronics Material Readiness Activity which transferred from AMC to USAIA.

B. Reconciliation of Increases and Decreases (Continued):

Program Transfers

(6) Central Automated Engineer System.....\$	-3,020
Transfers funding to Chief of Engineers (OCE) to support automated supply systems that are centrally managed by OCE for the Corps of Engineers worldwide.	
(7) Bureau of Land Management.....\$	-7,200
Transfer to Bureau Land Management provides funding for property at Fort Wainwright, Alaska.	
(8) U.S. Treatment Facility.....\$	-7,250
Transfer provides funding for increasing workload in former Public Health Services Facilities in Program 8 Medical.	
(9) OSD Education.....\$	-8,800
Transfer provides funding for the continuation of quality education programs and for educational improvements.	

Total Transfers.....\$ 901,850

Program Increases

Inflation Decrease/Program Growth.....\$	0
Due to a 0.8% decrease in inflation, this program realized a \$19,576 increase in program growth. Redistribution of these funds within Program 20 supported the conduct of a Palletized Load Test designed to test a new Class 5 (Ammunition) distribution system to increase capability with reduced personnel requirements, additional supplies and equipment for Base Operations activities, and increased funding to Real Property Maintenance activities.

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: UNIFIED COMMANDS

I. Narrative Description

This activity group provides for the operation of two unified command headquarters, United States European Command (USEUCOM) and United States Southern Command (USSOUTHCOM), for which the Army has been designated administrative agent. In addition, this activity group displays the military authorizations for Army personnel assigned to other Unified Commands e.g., Pacific Command, Readiness Command, and Atlantic Command.

II. Description of Operations Financed

Provides for costs incurred in the area of Headquarters Operations for Headquarters, European Command (EUCOM) and Headquarters, Southern Command (SOUTHCOM). Operating costs include pay of civilian personnel, consumable supplies, purchased services, travel and transportation of personnel, as well as other normal expenses.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: ALASKA FORCES

I. Narrative Description

This activity group provides for the operation and maintenance of and continued restructuring of the 172d Infantry Brigade to light infantry division design and supporting forces located in Alaska. These forces focus on defense of Alaska and the Aleutians along the northern perimeter of the United States.

II. Description of Operations Financed

Resources provide for the cost of operations in the performance of assigned missions of the Theater Defense Ground Tactical Forces and supporting forces located in Alaska. These operating costs are in support of such major activities as: the operation of Army aircraft, the replacement of repair parts, the performance of organizational and field maintenance services, the conduct of sustainment training for operating force units, the conduct of the Army Training and Evaluation Program, and the direction of readiness alerts and tests. Resources are for restructuring of the 172d Infantry Brigade to light infantry design, recurring costs of new systems fielded, supporting the Northern Warfare Training Center, and providing battalion task force and operator training and overall maintenance of the environmental training capability.

V. Personnel Summary (Continued):

Narrative Explanation of Personnel End Strength Changes:

MILITARY

The net increase of 3,169 in FY 1987 is the result of the activation of units for the 6th Infantry Division (Light) (+3,284); deactivation of Active Component Engineer units (-56); reduction for the Decentralized Automated Service Support System (-8); net all other changes (-51).

CIVILIAN

The increase of one in FY 1987 is the result of Light Infantry Division restructuring for the 6ID.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: EUROPE FORCES

I. Narrative Description

This activity group provides for operation and maintenance of division forces, special mission forces and theater support forces located in Europe for the purpose of reinforcing the United States commitment to NATO.

II. Description of Operations Financed

Resources provided support the operation of Headquarters, United States Army, Europe (USAREUR); the 7th Army Training Command; 2 Armored Divisions; 2 Mechanized Infantry Divisions; 2 Armored Cavalry Regiments; Forward Deployed Brigades of 1st Infantry Division and the 2d Armored Division; and the nondivisional combat units, combat support and combat service support units located throughout Europe. The request for training resources will permit units to attain and maintain combat readiness at levels consistent with mission priorities. Resources provide for the operator training and the recurring costs for new systems fielded and the maintenance associated with the redistribution of replaced systems. Major activities funded in this aggregation include the operation of Army aircraft; organizational and field maintenance services, to include maintenance of the Prepositioned Material Configured to Unit Sets (POMCUS) program; conduct of the Army Training and Evaluation Program; and conduct of readiness alerts and tests. Major FY 1987 force structure initiatives include continued conversion of 4 2/3 heavy divisions to refined Division 86 unit designs, activation of two Patriot Battalions, one Corps Chaparral Battalion, one 8-inch Field Artillery Battalion, one General Support Aviation Battalion, one Armored Cavalry Support Squadron, five Non-Divisional Maintenance Companies, conversions of 8 Armor Battalions to ML/MLAL, and 7 Field Artillery Battalions to 3x8 structure. Force structure increases are offset by other strength changes required to maintain the total military end strength in Europe at a constant level.

Program Increases

- | | |
|--|-----------|
| (1) Unit Training and Operations (Base \$ 688,361).....\$ | 40,061 |
| <p>Base resources support garrison operations, unit training and flying hour programs in Europe. Unit training includes individual and collective training, non-JCS exercise costs and Army Training and Evaluation Program (ARTEP) evaluations. The FY 1987 adjustments include increases as a result of the sustainment of new equipment fielded in FY 1987 and prior (\$27,803), funding for an additional 34,618 flying hours (\$8,162), and continuation of initiatives designed to improve overall effectiveness of intelligence unit training, (\$4,096).</p> | |
|
(2) Civilian Substitution (Base \$ 11,285).....\$ |
9,166 |
| <p>The FY 1987 program supports increased workyears and funding to continue the civilian substitution program. The civilian substitution program converts appropriate military positions to civilian and assigns the released military manpower to other high priority force structure initiatives. The program increases readiness and improves force structure without increasing military end strength. Increase supports 371 civilian authorizations and 301 workyears.</p> | |

OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: EUROPE FORCES

III. Financial Summary (\$ in Thousands)

B. Reconciliation of Increases and Decreases (Continued):

Program Increases

(3) Maintenance/Logistical Support (Base \$ 88,806).....\$	9,150
Base program provides resources for initiatives which support sustainability of the combat force during continuous land combat operations. FY 1987 increase supports the activation of 19 additional German Reserve units and the sustainment of units previously activated under the Host Nation Support initiative (\$11,160), increased purchase of selected organizational clothing and equipment items (\$115), and continuation of initiatives designed to improve Ammunition Handling capabilities in Europe (\$1,056). Increases are offset by decrease associated with subtraction of FY 1986 one-time funding associated with the Combat ASL/PLL program (\$-3,181).	
(4) Major Training Area Maintenance and Repair (Base \$0)\$	4,066
Provides initial resources for contractual services for Heavy Engineering equipment and operators to perform recurring maintenance on maneuver areas, range berms, firing positions and tank trails at three major training areas.	
(5) NORTHAG Support (Base \$ 3,643).....\$	2,994
FY87 program supports peacetime operation of the in place force structure at the Reichel Facility (NORTHAG) for the planning and execution, when directed, of the reception, equipping, onward movement, and sustainment of US reinforcing units. Cost increases reflect expansion of workload related to the relocation and activation of additional units at Reichel in accordance with the program to increase the combat readiness of US force in NORTHAG and to provide the minimum essential forces required to support the NORTHAG mission. Funding is required to permit continuation of operations and to insure the US capability to execute critical wartime missions. Funding is independent of the purchase of the Reichel Facility and does not change if the leasing arrangement is extended.

ACTIVITY GROUP: EUROPE FORCES

III. Financial Summary (\$ in Thousands)

B. Reconciliation of Increases and Decreases (Continued):

Program Increases

(6) Other Force Structure (Base \$ 23,160)\$ 2,844

Base resources support Army force structure development through the appropriate allocation of resources for the phasing of troop unit change actions that will maximize force readiness. FY 1987 changes include:

- o Reduction of 5,557 military personnel authorizations associated with USAREUR's conversion to the Division 86 design (\$-1,869).
- o Reduction of 883 military personnel to maintain USAREUR's strength at 199 thousand (\$-971).
- o Reduction of 75 military personnel authorizations to USAREUR's combat service support structure (\$-652).
- o Increase of 231 military authorizations for unit level strength adjustments for Echelons Above Corps Military Intelligence Units (\$1,675).
- o Increase of 898 military authorizations that support two Corps Chaparral maintenance teams, increases to the Corps Chaparral Battalions and one Corps field artillery, Headquarters and Headquarters Battery (\$1,923).
- o Increase of 737 military authorizations for non-divisional artillery battalions (\$1,689).
- o Increase of 269 military authorizations for miscellaneous TOE/TDA changes (\$1,049).

- (7) Information Management - Automation (Base \$8,561).....\$ 2,112
FY 1987 program provides for contractor support to maintain and repair the Theater Army Command and Control System which will interface with other automated maneuver control and combat service support systems.

Total Program Increases.....\$ 70,393

JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: EUROPE FORCES

III. Financial Summary (\$ in Thousands)

B. Reconciliation of Increases and Decreases (Continued):

Program Decreases

(1) Travel Reduction (Base \$ 0).....\$	-6,581
Reduction is a part of overall Army efforts to reduce travel in lower priority areas.	

(2) Deobligation Performance (Base \$ 0).....\$	-8,073
Reduction is due to improved efficiency in management of unliquidated obligations. Intensified efforts by installations throughout the Army have resulted in more accurate estimates of amounts to be deobligated after the close of the fiscal year.	

(3) FY 1987 Force Modernization Program (Base \$ 50,451).....\$	-9,472
Provides mission operating funds to support the fielding of selected new or modernized equipment entering the active force inventory in FY 1987. Program decrease in this budget activity reflects Army decision to centrally fund through the Army Materiel Command (AMC) the initial provisioning of repair parts (Authorized Stockage List/Prescribed Load List - ASL/PLL) under the Total Package/Unit Materiel Fielding (TP/UMF) concept. Under this concept AMC supports selected Army Modernization Information Memorandum (AMIM) systems in FY 1986 and all AMIM systems in FY 1987. (For details on specific systems, see "Intensively Managed Systems" section.)

III. Financial Summary (\$ in Thousands)

B. Reconciliation of Increases and Decreases (Continued):

Program Decreases (continued)

(4) Rapid Reinforcement of NATO/POMCUS (Base \$ 125,291).....\$ -17,312

Base program provides resources for annual and one-time costs associated with Prepositioned Material Configured to Unit Sets (POMCUS). Annual costs include contractual operating costs; salaries; and costs for maintenance, storage, supply, and replenishment of stock funded POMCUS items. One-time costs include establishment of initial Authorized Stockage List/Prescribed Load List; Consolidated Table of Allowances items; Unit Defensive Material; Nuclear, Biological and Chemical items; TDA and TOE stock funded supplies and equipment; and initial stockage for support activities. FY 1987 change results from lower cost requirements for medical hospital sets and equipment (\$-13,095) and replacement of a heavy division with a light division in Division Set 3 (\$-8,296). These decreases are partially offset by an increase for the introduction of new equipment into Division Set 5, including the M2 Infantry Fighting Vehicle, the M3 Combat Fighting vehicle, and the Multiple Launch Rocket System (\$4,079).

(5) Tactical Medical Support (Base \$ 40,753).....\$ -20,482

Base program provides continuation of medical unit upgrade initiatives to provide a wartime medical structure capable of supporting at least a 15-day evacuation policy. FY 1987 decrease results from subtraction of FY 1986 one-time funding for tactical medical hospitals (\$-22,132) which is partially offset by an increase of \$1,650 for the modification of 27 German rail cars for use in wartime as four ambulance trains and the minor upgrade of four inactive mobilization base hospitals.

V. Personnel Summary (Continued):

Narrative Explanation of Personnel End Strength Changes:

MILITARY

The net increase of 1,222 in FY 1987 is the result of Force Modernization (+2,602); Heavy Division restructure (-3,073); standardization of unit organizational structure to doctrinal design (+134); Lance Battalion enhancements (+737); Corps support to Heavy Divisions (+898); Civilian Substitution (-371); Logistics force structure increases (+256); and NORTHAG support (+39).

CIVILIAN

The net increase of 643 in FY 1987 is due to Civilian Substitution (+371); POMCUS management in Europe (-326); ammunition handling (+32); Force Modernization (-260); and force structure adjustments (+826).

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: PACIFIC FORCES

I. Narrative Description

This activity group provides for the operation and maintenance of two combat divisions in the Pacific (2d Infantry Division, Korea and the 25th Infantry Division, Hawaii), non-divisional combat units and other non-divisional forces stationed in the Pacific Theater. Additionally, provides funding associated with Headquarters, Eighth United States Army; Headquarters, United States Army, Japan; and Headquarters, United States Army Western Command.

II. Description of Operations Financed (\$ in Thousands)

Provides resources to support two Infantry Divisions and non-divisional units, combat support, and combat service support units located in the Pacific Theater. The request for training resources will permit units to attain and maintain combat readiness at levels consistent with mission priorities. These resources also provide for the recurring costs for new systems fielded, the operator training costs associated with these systems, and for maintenance associated with the redistribution of replaced systems. Funding also defrays operating costs which are properly chargeable to unit operations in the performance of assigned missions. Operating costs include organizational and field maintenance services; sustainment training conducted by operating force units; conduct of the Army Training and Evaluation Program; conduct of directed readiness tests; and those one-time and recurring costs of supplies and equipment incurred solely as a result of reorganizations, conversions, activations, and inactivations of units. For FY 1987, new activations include one Attack Helicopter Battalion (AH-1) for the Eighth US Army, Korea; and Military Police and Maintenance Companies to support the 25th Infantry Division (Light) in Hawaii.

(5) Maintenance/Logistical Support (Base \$78,962).....\$ -13,110

Base program provides resources for initiatives which support sustainability of the combat force during continuous land combat operations. A major component of this support includes the purchase of improved and modernized clothing and individual equipment for the Active Army. These items provide the individual soldier with state-of-the-art, weather resistant, camouflage, and ballistic protection. Items purchased under this program include: Extended Cold Weather Clothing and Equipment (ECWCS), desert camouflage uniform, body armor for Explosive Ordnance Units, regimental accoutrements, Combat Vehicle Crewman (CVC) uniform system, and the Armor System Ground Troop (PASGT) helmets/vests. FY 1987 decrease results from subtraction of FY 1986 one-time funding associated with the purchase of organizational clothing and equipment items (\$-4,000) and repair parts to support alignment of unit level stockage of repair parts to anticipated wartime demands (\$-9,110).

V. Personnel Summary (Continued):

Narrative Explanation of Personnel End Strength Changes:

MILITARY

The net increase of 1,896 in FY 1987 results from I Corps increases (+402); activation of an Attack Helicopter Battalion (AH-1) (+276); activation of a Dual Purpose Chemical Company (+121); support for the conversion of the 25th ID to the Light Design (+695); adjustments to Military Intelligence Echelon Above Corps unit level strengths (+63); provision of staff personnel for WESTCOM Headquarters (+23); increase in spaces for the 2nd ID (+89); Eighth US Army Authorized Level of Organization increases (+167); restructure of Army aviation units (+32); transfer-in of Repair Parts Company whose mission was transferred from Forces Command (+241); changes in Force Modernization support (-130); civilian substitution (-24), and net all other changes (-59).

CIVILIAN

The net decrease of 15 in FY 1987 is for Civilian Substitution (+24); Force Modernization (-3); chemical enhancement (+4); management efficiency initiatives (-13); and other force structure adjustments (-27).

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: SOUTH FORCES

I. Narrative Description

This activity group provides for the operation and maintenance of a special mission Infantry Brigade (Separate) and theater support forces located in Panama. These forces are positioned to defend the Panama Canal and enhance the United States' capability to train for and support low intensity operations/exercises in Latin America and provide environmental training to U.S. forces at the Jungle Operations Training Center.

II. Description of Operations Financed

Provides resources to support a special mission Infantry Brigade (Separate) and theater support forces located in Panama. Resources defray operating costs chargeable to unit operations in the performance of assigned missions to include the ability to conduct operations in a high probability, low intensity scenario along the lower end of the conflict spectrum. Major activities funded in this aggregation include operational and readiness training exercises, assigned organizational and field maintenance services, and operation of the Jungle Operations Training Center. Additionally, funds provide for the operator training and recurring costs for new systems fielded.

FY 1987 Force Modernization Program (Base \$ 1,112).....\$ -190

Provides mission operating funds to support the fielding of selected new or modernized equipment entering the active force inventory in FY 1987. Program decrease in this budget activity reflects Army decision to centrally fund through the Army Materiel Command (AMC) the initial provisioning of repair parts (Authorized Stockage List/ Prescribed Load List - ASL/PLL) under the Total Package/Unit Materiel Fielding concept. (For Details on specific systems, see "Intensively Managed Systems" section.)

V. Personnel Summary (Continued):

Narrative Explanation of Personnel End Strength Changes:

MILITARY

The increase of 53 in FY 1987 results from adjustments to Military Intelligence Echelon Above Corps unit level strengths (+41); provision of spaces to man 60mm mortars and cooks to implement the Combat Field Feeding System in the 193d Infantry Brigade (+18); and changes in Force Modernization support (-6).

CIVILIAN

No end strength changes in FY 1987.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: CONUS FORCES - FORSCOM

I. Narrative Description

This activity group provides for operation of eleven combat divisions, three separate brigades, one Armored Cavalry Regiment, numerous nondivisional combat support and combat service support forces and related units engaged in air defense, special operations, support to other services, and special activities assigned to CONUS-based US Army Forces Command (FORSCOM).

II. Description of Operations Financed

Provides resources to support two Armored Divisions, four Mechanized Infantry Divisions, two Light Infantry Divisions, one Motorized Division (MTZ), one Airborne Division, one Air Assault Division, one Air Combat Brigade, two Armored Brigades (Separate), one Mechanized Infantry Brigade (Separate), one Armored Cavalry Regiment, one Ranger Regiment, and the nondivisional combat units, combat support and combat service support units assigned to CONUS Forces - FORSCOM. The request for training resources will permit units to attain and maintain combat readiness at levels consistent with mission priorities. Provides resources for the operator training, the recurring operating costs for new systems fielded and the maintenance associated with redistribution of replaced systems. Major activities funded in this aggregation include the operating costs for sustainment training conducted by operating force units at home stations and at the cold weather and jungle environmental training centers; organizational and field maintenance services; directed readiness tests and alerts; operation of Army aircraft; and conducting the Army Training and Evaluation Program. Major FY 1987 force structure actions include the conversion of four Attack Battalions; the activation of one Infantry Battalion; and the transition of 82nd Airborne Division to Army of Excellence (AOE) design. Other unit changes include the reorganization in the 6th Cavalry Brigade Air Combat into three Attack Helicopter Battalions to accept fielding of the new AH-64 Attack Helicopter and the conversion of three 8-inch/MLRS battalions to two 8-inch Battalions (3x8 configurations).

III. Financial Summary (\$ in Thousands)

B. Reconciliation of Increases and Decreases (Continued):

Program Increases

(1) Unit Training/Operations (Base \$ 608,944).....	\$ 17,771
Base program provides resources to support training activities at a level mandated by mission requirements. FY 1987 adjustments include increased costs associated with new equipment fielded in FY 1986 (\$15,117) and funding for an additional 21,969 flying hours (\$2,654).	
(2) Other Force Structure (Base \$ 50,412)	\$ 2,571
Base resources support Army force structure development through the appropriate allocation of resources for the phasing of troop unit change actions that will maximize force readiness. FY 87 changes include:	
o Activation of a second Corps Chaparral BN; six 8-inch Artillery BNs; one Corps Communications Electronics Warfare and Intelligence (CEWI) operations CO; two Corps Headquarters, Headquarters Battery (Field Artillery) and other unit conversions with an increase of 3458 military personnel (\$2,979).	
o Subtraction of one-time costs associated with the transition of the 101st Air Assault Division (AAD) to a new Army of Excellence (AOE) design with an increase of 1424 military personnel (\$-4,423).	
o Activation of an Airdrop Supply CO to support the 82nd Airborne Division within the XVIII Corps with an increase of 278 military personnel (\$4,891).	
o Transition of the 82nd Airborne Division to a new design (\$3,106).	
o Conversion of eight 3x4 8-inch battalions to four 3x8 battalions (\$-3,982).

III. Financial Summary (\$ in Thousands)

B. Reconciliation of Increases and Decreases (Continued):

Program Increases (Continued)

(3) Force Modernization (Base \$ 40,068).....\$	403
Provides mission operating funds to support the fielding of selected new or modernized equipment entering the active force inventory in FY 1987.	

(4) Classified Programs (Base \$ 14,638).....\$	383
Provides resources to support classified programs.	

(5) Civilian Substitution (Base \$ 1,730).....\$	211
The FY 1987 program supports increased workyears and funding to continue the civilian substitution program. The civilian substitution program converts appropriate military positions to civilian and the assignment of released military manpower to other high priority force structure initiatives. The program increases readiness and improves force structure without increasing military end strength. FY 1987 increase will support 17 civilian authorizations and 15 workyears.

B. Reconciliation of Increases and Decreases

Program Decreases

- | | |
|--|--------|
| (1) Tactical Medical Support (Base \$20,828).....\$ | -2,878 |
| Base program provides continuation of medical unit upgrade initiatives to provide a wartime medical structure capable of supporting at least a 15-day evacuation policy. FY 1987 decrease results from subtraction of FY 1986 one-time funding for medical components of tactical medical hospitals.. | |
| (2) Light Division Initiatives (Base \$26,134).....\$ | -5,212 |
| Base program provides resources for the continued activation of the 10th Mountain Division at Fort Drum, NY and the conversion of the 7th Infantry Division to Light Design. FY 1987 decrease results from subtraction of FY 1986 one-time costs associated with the 7ID Certification Field Training Exercise (\$-8,058) offset by increased costs associated with the activation of Non-Divisional units to support the 10ID (L) at Fort Drum (\$2,846). | |
| (3) Deobligation Performance (Base \$ 0).....\$ | -7,705 |
| Reduction is due to improved efficiency in management of unliquidated obligations. Intensified efforts by installations throughout the Army have resulted in more accurate estimates of amounts to be deobligated after the close of the fiscal year. | |

Program Decreases (Continued)

(4) Travel Reduction (Base \$ 0)	\$ -7,873
Reduction is a part of overall Army efforts to reduce travel in lower priority areas.	

(5) Maintenance/Logistical Support (Base \$74,454)	\$ -19,542
<p>Base program provides resources for initiatives which support sustainability of the combat force during continuous land combat operations. A major component of this support includes the purchase of improved and modernized clothing and individual equipment for the Active Army. These items provide the individual soldier with state-of-the-art, weather resistant, camouflage, and ballistic protection. Items purchased under this program include: Extended Cold Weather Clothing and Equipment (ECWCS), desert camouflage uniform, body armor for Explosive Ordnance Units, regimental accoutrements, Combat Vehicle Crewman (CVC) uniform system, and the Personnel Armor System Ground Troop (PASGT) helmets/vests. FY 1987 decrease results from subtraction of FY 1986 one-time costs associated with the purchase of organizational clothing and equipment items (\$-10,684) and repair parts to support alignment of unit level stockage of repair parts to anticipated wartime demands (\$-8,858).</p>

V. Personnel Summary

Narrative Explanation of Personnel End Strength Changes:

MILITARY

The net decrease of 1,059 in FY 1987 is the result of restructure of Light Division Forces (+5,315); Special Operations Forces enhancements (+559); Heavy Division restructure (-967); Corps support to Heavy Divisions (+3,458); Signal reductions (-361); Chemical enhancements (+98); Engineer structure adjustment (-2,313); Field Artillery Battalion adjustments (-987); Civilian Substitution (-17); unit strength adjustments; Force Modernization (-193); and other force structure adjustments (-3,533).

CIVILIAN

The net decrease of 123 in FY 1987 is the result of force restructuring actions (-187); Force Modernization initiatives (+150); Civilian Substitution (+17); support for Joint Activities (+3); information management systems reprogramming (+10); and a reduction of 116 spaces for management efficiency initiatives.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: OTHER CONUS FORCES

I. Narrative Description

This activity group provides for the Program 2 Mission requirements of the Army Materiel Command (AMC) and other activities in CONUS, excluding those units assigned to US Army Forces Command. Provides a portion of the operating and support costs of ten Other CONUS Forces commands and activities.

II. Description of Operations Financed

Provides resources for the Army Materiel Command (AMC) support of Annual Service Practice missile firing, training aids requirements support at the National Training Center, Tactical Cryptological Support Activities, and Opposing Force (OPFOR) intelligence operations. Additionally, it provides resources to support the training and activities of the 1st Battalion, 3d Infantry (The Old Guard).

Also provides funds for the Army Materiel Command support of Force Modernization initiatives, special tools and equipment associated with combat vehicle and missile maintenance, and spare and repair parts associated with the maintenance of training simulators and electronic warfare items. Under the Total Package/Unit Materiel Fielding (TP/UMF) concept AMC will centrally fund the initial provisioning for repair parts (Authorized Stockage List/Prescribed Load List - ASL/PLL) for new systems being fielded as part of the Force Modernization Program.

Program 2 Mission Audio Visual funding is captured in the Other CONUS Forces Activity Group in order to provide visibility to the total Audio Visual requirement. The funding reflected in Other CONUS Forces supports the Audio Visual requirements of all Program 2 Mission Activity Groups.

III. Financial Summary (\$ in Thousands)

B. Reconciliation of Increases and Decreases (Continued):

Program Increases

(1) FY 1987 Force Modernization Program (Base \$ 88,248).....\$ 50,646

Provides mission operating funds to support the fielding of selected new or modernize equipment entering the active force inventory in FY 1987. Program growth in this budget activity reflects Army decision to centrally fund through the Army Materiel Command (AMC) the initial provisioning (Authorized Stockage List/ Prescribed Load List - ASL/PLL) of repair parts under the Total Package/Unit Materiel Fielding (TP/UMF) concept. Under this concept AMC supports selected Army Modernization Information Memorandum (AMIM) systems in FY 1986 and all AMIM systems for the Active Army, the Reserve, and the National Guard in FY 1987. As a result of implementation of this concept changes between fiscal years, this budget activity reflects program growth which is partially offset by decreases in other budget activities. (For details on specific systems, see "Intensively Managed Systems" section.)

(2) Classified Programs (Base \$ 48,044).....\$ 676
Provides resources to support classified programs.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: OTHER CONUS FORCES

III. Financial Summary (\$ in Thousands)

B. Reconciliation of Increases and Decreases (Continued):

Program Decreases

(1) Travel Reduction (Base \$ 0).....\$	-485
Reduction is a part of overall Army efforts to reduce travel in lower priority areas.	
(2) Printing (Base \$ 0).....\$	-3,300
Installation printing costs are utilized for functions such as supplements to regulations, military orders, budgets and other reporting requirements. This reduction reflects a lower level of effort and supports Congressional directive to improve management in this area.	
(3) Tactical Medical Support (Base \$31,653).....\$	-4,265
Base program provides continuation of medical unit upgrade initiatives to provide a wartime medical structure capable of supporting at least a 15-day evacuation policy. Base program also provides funding for medical chemical defense materiel. FY 1987 decrease results from subtraction of FY 1986 one-time funding for medical components of tactical medical hospitals.	
(4) Deobligation Performance (Base \$ 0).....\$	-4,995
Reduction is due to improved efficiency in management of unliquidated obligations. Intensified efforts by installations throughout the Army have resulted in more accurate estimates of amounts to be deobligated after the close of the fiscal year.

ACTIVITY GROUP: JOINT CHIEFS OF STAFF EXERCISES

I. Narrative Description

The Army participates in Joint Chiefs of Staff (JCS) exercises on a worldwide basis. The JCS Exercise Program consists of exercises directed by JCS or higher authority and those exercises recommended by the Unified and Specified Commands which are coordinated by the JCS.

II. Description of Operations Financed

Provides training for Army organizations in Joint and Combined Operations; prepares forces for the conduct of contingency operations; tests the effectiveness of airlift and sealift capable forces and plans; evaluates the reaction capability and readiness of selected units; fulfills treaty commitments; and provides a means to evaluate Joint tactics, techniques, procedures, and doctrine; and tests equipment which affects the capability of Army Component Forces to accomplish operational missions.

III. Financial Summary (\$ in Thousands)

B. Reconciliation of Increases and Decreases:

Program Decreases

JCS Exercises (Base \$103,073).....	\$ -10,081
Base resources provide for incremental costs for Army participation in the Joint Chiefs of Staff (JCS) Exercise Program, which consists of approximately 50 exercises each year. These exercises include joint and combined exercises that are sponsored by the Joint Chiefs of Staff, Commanders-in-Chief, and the Services. FY 1987 decrease results from reduced scope and level of Army participation in selected JCS exercises.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: COMBAT DEVELOPMENT ACTIVITIES

I. Narrative Description

This activity group provides for activities supporting experimentation, tests, projects, and evaluations necessary to develop and/or validate new doctrine, materiel and organization for the Army.

II. Description of Operations Financed

Provides the baseline operating costs (civilian salaries, contract support, travel and test instrumentation of activities) for Combat Development Activities and fulfills the Army's requirement to accomplish Force Development Testing and OSD directed Operational Tests and Evaluations. Additionally, resources provide for the operation and maintenance associated with the use of threat simulators during testing and support of the Tactical Exploitation of National Capabilities (TENCAP) program. They also provide the funding for the operation of Combat Development Headquarters activities including the Operational Test and Evaluation Agency (OTEA), the Concepts Analysis Agency (CAA), and TRADOC Systems Analysis Agency (TRASANA), and the automatic data processing requirements to support these headquarters operations.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: COMBAT DEVELOPMENT ACTIVITIES

III. Financial Summary (\$ in Thousands)

B. Reconciliation of Increases and Decreases (Continued):

Program Increases

(1) Unemployment Compensation (Base \$ 492).....\$ 7,800

Provides resources in compliance with Public Law 96-499, Omnibus Reconciliation Act enacted 5 December 1980 requiring Federal agencies to reimburse the Department of Labor Unemployment Trust Fund for employment benefit costs attributed to its civilian employees for services performed after 31 December 1980. FY 1987 increase results from recognition of actual requirement for unemployment compensation which exceeds the limitation on unemployment compensation contained in the FY 1986 DoD Appropriation Act.

(2) Simulation Technology (Base \$0).....\$ 3,907

The FY 1987 resources provide for the identification of promising advances in computer simulation technology and modeling architectures, and applying them to Army combat modeling.

(3) Civilian Substitution (Base \$ 10,106).....\$ 1,134

The FY 1987 program supports increased workyears and funding to continue the civilian substitution program. The civilian substitution program converts appropriate military positions to civilian and the assignment of released military manpower to other high priority force structure initiatives. The program increases readiness and improves force structure without increasing military end strength. FY 1987 increase supports 84 civilian and 71 workyears.

(4) Classified Programs (Base \$ 4,978).....\$ 106

Provides resources to support classified programs.

Total Program Increases.....\$ 12,947

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: COMBAT DEVELOPMENT ACTIVITIES

III. Financial Summary (\$ in Thousands)

B. Reconciliation of Increases and Decreases (Continued):

Program Decreases

(1) Maintenance/Logistical (Base \$5,511)\$ -923
Base Program provides resources for initiatives which support sustainability of the combat force during continuous land combat operations. FY 1987 decrease results from subtraction of FY 1986 one-time costs associated with the Airlord Planning System (ALPS).

(2) Army Development Employment Agency (ADEA) (Base \$ 30,425)\$ -2,149
Program base provides resources to support ADEA's effort in exploring new operational concepts and technology innovations for the Army light divisions. The FY 1987 decrease results from reduced lease costs and exercise activities associated with the transition of the 9th Infantry Division to a High Technology Motorized Division.

(3) Travel Reduction (Base \$ 0)\$ -2,663
Reduction is a part of the overall Army effort to reduce travel in lower priority areas.

Total Program Decreases.....\$ -5,735

FY 1987 Budget Request.....\$ 311,813

V. Personnel Summary (Continued):

Narrative Explanation of Personnel End Strength Changes:

MILITARY

The decrease of 148 in FY 1987 results from Force Modernization (-45); Civilian Substitution (-84); organization effectiveness reduction (-4); and aviation restructure (-15).

CIVILIAN

The net increase of 152 in FY 1987 results from Civilian Substitution (+84); Force Modernization for equipment systems (+223); combat development experimentation, test and evaluation project (-138); management efficiency initiatives (-27); and manpower reprogramming for higher priority projects (+10).

DEPARTMENT OF THE ARMY

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: EUROPE BASE OPERATIONS

I. Narrative Description: This budget activity provides for the operation and maintenance of installation type support, less real property maintenance activities, for general purpose forces and their supporting structure at 39 military communities in Europe which include 182 principal Army installations (excluding Berlin, which is funded by the Federal Republic of Germany). The FY 1987 Budget request for USAREUR totals \$724.5 million, an increase of \$27.2 million in price growth, \$89.6 million foreign currency adjustment, and \$12.8 million in net program decrease over the FY 1986 level. Major areas of program growth include support for Army Community Service (\$7.9 million); Force Modernization (\$5.3 million); Child Development (\$4.3 million); Drug and Alcohol Testing (\$2.6 million); and Civilian Substitution (\$0.9 million). Program decreases include Base Operations Support (\$-31.5 million); Printing (\$-2.0 million); and Travel (\$-.7 million).

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000):

- A. Supply Operations (\$23,941): Finances the operation of post supply. Includes the operation of self-service centers and clothing issue points. Finances pay and allowances for 1,421 civilian personnel.
- B. Maintenance of Materiel (\$134,145): Finances Direct and General Support Maintenance of Support Systems such as vehicles and installation equipment. Finances pay and allowances for 2,385 civilian personnel.
- C. Transportation Services (\$67,206): Finances the operation of local (installations) non-tactical motor transportation service to include government-owned vehicles and rented or leased commercially-owned vehicles; finances operation of rail equipment used for intra-installation transportation. Finances pay and allowances for 3,594 civilian personnel.
- D. Laundry and Dry Cleaning Services (\$7,376): Finances operation of laundry and dry cleaning plants and contracting for such services where Army-owned plants are not operated in-house. Finances pay and allowances for 24 civilian personnel.

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000)
(Continued):

E. Army Food Service Program (\$63,420): Finances operation and administration of food supply and food preparation facilities and dining facilities. Finances pay and allowances for 2,917 civilian personnel.

F. Personnel Support (\$47,922): Finances base personnel administration and related programs such as command information, alcohol and drug abuse and reenlistment activities. Finances pay and allowances for 1,990 civilian personnel.

G. Unaccompanied Personnel Housing Operation, Administration, and Furnishings (\$35,187): Finances the purchase, control, moving, and handling of personnel housing furnishings for unaccompanied personnel officer quarters and unaccompanied enlisted quarters, and the operation and administration of all unaccompanied personnel housing. Finances pay and allowances for 414 civilian personnel.

H. Administration (\$42,168): Finances all activities concerned with the headquarters command and administration of installations; and other installation-wide activities not otherwise financed. Finances pay and allowances for 1,280 civilian personnel.

I. Automation Activities (\$37,646): Finances automation activities in support of base operations and automation security. Finances pay and allowances for 65 civilian personnel.

J. Community and Morale Support Activities (\$139,078): Finances the development, staffing, equipping, administering and operation of installation libraries, sports programs, Army Community Service Activities, Child Support Services and separate Army bands. Finances pay and allowances for 3,479 civilian personnel.

K. Preservation of Order (\$68,793): Finances military police services to include military police operations, physical security operations and operation of physical security equipment. Finances pay and allowances for 3,911 civilian personnel.

III. Financial Summary (\$ in Thousands) (Continued):

B. Reconciliation of Increases/Decreases (Continued)

Program Increases (Continued)

- c. Civilian Personnel Offices (CPO) (Base: \$26,014).....\$ 426
Resources support increasing manning levels from 82% to 87% at civilian personnel offices as validated by the Army's Manpower Staffing Standards (MS-3). This increase will enable Army CPO's to meet workload levels which have expanded to support added requirements such as Commercial Activities/Army Performance Oriented Review System (CA/APORS) studies, increased job grading accuracy, increased suggestion program, etc. The increase provides funding to support 24 added end strength and 12 work years.
- d. Civilian Substitution (Base: 14,346).....\$ 855
Resources support program to convert Military Table of Distribution and Allowance (TDA) positions to civilian positions. The reassignment of replaced military end-strengths to higher priority force structure needs provides increased readiness and better utilization of available military authorizations.
- e. Drug and Alcohol Testing (Base: \$0).....\$ 2,616
Funds state of the art technology to allow local commanders to conduct preliminary drug testing, with follow on confirmation at laboratories, for marijuana, cocaine and amphetamines. Current procedures require that soldiers be withheld from duty pending laboratory analysis of standard drug tests. With Unit Level Drug Testing commanders will use portable drug test kits to determine which soldiers can be immediately returned

Program Increases (Continued)

to duty and which soldiers require further testing and analysis by Army labs. The quick return of non drug users to duty stations will result in a direct increase in unit morale and a quantifiable increase in unit and combat readiness.

- f. FY 87 Force Modernization Program (Base: \$18,571).....\$ 5,296
Provides base operating funds to support the fielding of selected new or modernized equipment entering the active force inventory in FY 87. Provides resources for the pay of additional civilians, contractor maintenance, and repair parts for installation level maintenance on all new systems. (For details on specific system, see "Intensively Managed Systems" section.)

III. Financial Summary (\$ in Thousands) (Continued):

B. Reconciliation of Increases/Decreases (Continued)

Program Decreases

a. Base Operations Support (Base: \$620,483).....\$ -31,492
Reduction provides for a reduced level of spending for operating supplies, and non-personnel and non-contractual related items of expenditure associated with installation base operating activities.

b. Printing (Base: \$4,903).....\$ -2,000
Installation printing costs are utilized for functions such as supplements to regulations, military orders, budgets and other reporting requirements. This reduction reflects a lower level of effort in this area and support previous congressional direction to improve management.

c. Travel (Base: \$8,977).....\$ -729
Reduction for travel is part of overall Army effort to reduce travel in lower priority areas.

Total Program Decreases.....\$ -34,221

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: PACIFIC BASE OPERATIONS

I. Narrative Description: This budget activity provides for the operation and maintenance of installation type support, less real property maintenance activities, for general purpose forces and their supporting structure at 51 installations in the Pacific. This FY 1987 Budget request totals \$296.7 million which includes \$8.5 million in price growth, \$10.8 million foreign currency adjustment, \$17.9 million in program increases and \$1.5 million in program decreases. Major items of program growth are conversion of the 25th Infantry Division to a light division configuration (\$7.0 million), Combat Field Feeding System (\$3.7 million), Force Structure adjustments (\$2.0 million), conversion of 99 military TDA positions to civilian positions (\$1.7 million), maintenance of equipment (\$1.5 million), and Army Community Service and Child Development (\$1.2 million).

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000):

A. Supply Operations (\$41,142): Finances the operation of post supply. Includes the operation of self-service centers and clothing issue points. Finances pay and allowances for 1,275 civilian personnel.

B. Maintenance of Materiel (\$56,924): Finances Direct and General Support Maintenance of Support Systems such as aircraft, vehicles, and installation equipment. Finances pay and allowances for 1,101 civilian personnel.

C. Transportation Services (\$24,261): Finances the operation of local (installation's) non-tactical motor transportation service to include government-owned vehicles and rented or leased commercially-owned vehicles; finances operation of equipment used for intra-installation transportation. Finances pay and allowances for 1,040 civilian personnel.

D. Laundry and Dry Cleaning Services (\$2,523): Finances operation of laundry and dry cleaning plants and contracting for such services where Army-owned plants are not operated. Finances pay and allowances for 146 civilian personnel.

E. Army Food Service Program (\$17,609): Finances operation and administration of food supply and food preparation facilities and dining facilities. Finances pay and allowances for 647 civilian personnel.

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000)
(Continued):

F. Personnel Support (\$18,841): Finances base personnel administration and related programs such as command information, alcohol and drug abuse and reenlistment activities. Finances pay and allowances for 511 civilian personnel.

G. Unaccompanied Personnel Housing Operation, Administration, and Furnishings (\$8,916): Finances the purchase, control, moving, and handling of furnishings for unaccompanied personnel officer quarters and unaccompanied enlisted quarters, and the operation and administration of all unaccompanied personnel housing. Finances pay and allowances for 108 civilian personnel.

H. Administration (\$14,137): Finances all activities concerned with the headquarters command and administration of the installation; and other installation-wide activities not otherwise financed. Finances pay and allowances for 325 civilian personnel.

I. Automation Activities (\$17,359): Finances automation activities in support of base operations and automation security. Finances pay and allowances for 67 civilian personnel.

J. Community and Morale Support Activities (\$36,452): Finances the development, staffing, equipping, administering and operating of installation libraries, sports programs, Army community service activities, child support services, and separate Army bands. Finances pay and allowances for 524 civilian personnel.

K. Preservation of Order (\$31,202): Finances military police services to include military police operations, physical security operation and operation of physical security equipment. Finances pay and allowances for 1,149 civilian personnel.

L. Directorate of Resource Management (\$11,461): Finances the administration of all resource management functions such as Finance and Accounting, Programming and Budgeting, Management Analysis, Productivity

c. Civilian Substitution (Base: \$0).....\$ 1,651

Resources support program to convert Military Table of Distribution and Allowance (DA) positions to civilian positions. The reassignment of replaced military end-strengths to higher priority force structure needs provides increased readiness and better utilization of available military authorizations. The FY 87 program supports 99 end strength and 63 work-years.

d. Civilian Personnel Offices (CPO) (Base: \$9,838).....\$ 30

Resources support increasing manning levels from 82% to 87% at civilian personnel offices as validated by the Army's Manpower Staffing Standards (MS-3). This increase will enable Army CPO's to meet workload levels which have expanded to support added requirements such as Commercial Activities/Army Performance Oriented Review System (CA/APORS) studies, increased job grading accuracy, increased suggestion program etc. The increase provides funding to support 2 added end strength and 2 work years.

e. Combat Field Feeding System (Base: \$0).....\$ 3,667

Funds provide for the contracting of Garrison Dining Facilities required to implement the Combat Field Feeding System. The Combat Field Feeding System capitalizes on use of easy to prepare tray rations and consolidation of field kitchens at battalion level during field exercises,

thereby allowing the 213 military food service spaces to be reapplied within the force structure. The reduced number of personnel will be able to feed divisions (units) while in the field but augmentation of cooks with a food service contract is required to feed units while in Garrison.

388

- f. Drug and Alcohol Testing (Base: \$0).....\$
- Funds state of the art technology to allow local commanders to conduct preliminary drug testing, with follow on confirmation at laboratories, for marijuana, cocaine and amphetamines. Current procedures require that soldiers be withheld from duty pending laboratory analysis of standard drug tests. With Unit Level Drug Testing commanders will use portable drug test kits to determine which soldiers can be immediately returned to duty and which soldiers require further testing and analysis by Army labs. The quick return of non drug users to duty stations will result in a direct increase in unit morale and a quantifiable increase in unit and combat readiness.

2,010

- g. Force Structure (Base: \$0).....\$
- Funding increase associated with the base operations resources for various force structure adjustments. Included are activation of one attack helicopter battalion in Korea; a dual purpose chemical company in WESTCOM; special Forces staff increase in WESTCOM; increase of military end strength in Korea's 2d Infantry Division; reorganization of a ground

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: CONUS BASE OPERATIONS

I. Narrative Description: This activity group provides for the operation and maintenance of installation support, less Real Property Maintenance Activities, of 21 installations currently in the program base and 9 sub-installations and activities transferred from Operation and Maintenance Army Reserve (OMAR) in FY 1987. These installations and activities support general purpose forces and their ancillary structure in Forces Command. The FY 1987 request totals \$839.2 million which includes \$14.5 million in price growth, \$35.8 million in net functional transfers and \$18.8 in net program growth. Major growth attributable to transfer of function is due to the realignment of 9 sub-installations from OMAR to OMA financing (\$33.2 million). Major items of program growth includes the following: Force Modernization (\$4.5 million); Civilian Substitution (\$6.3 million); Combat Field Feeding System (\$3.2 million); Army Community Service and Child Development (\$6.3 million); Drug and Alcohol Testing (\$1.2 million) and Commercial Activities (\$1.5 million). Program decreases include base operations support (\$1.7 million), printing (\$2.0 million) and travel programs (\$.9 million).

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000):

A. Supply Operations (\$75,196): Finances the Office of the Director of Logistics and operation of consolidated post supply. Includes the operation of self-service centers, clothing issue points and POL resale points. Finances pay and allowances for 2,984 personnel.

B. Maintenance of Materiel (\$203,538): Finances Direct and General Support Maintenance of Support Systems such as aircraft, vehicles, and installation equipment. Finances pay and allowances for 2,982 civilian personnel.

C. Transportation Services (\$70,215): Finances the operation of local (installation) non-tactical motor transportation service to include government-owned vehicles and rented or leased commercially-owned vehicles; finances operation of rail equipment used for intra-installation transportation. Finances pay and allowances for 1,784 civilian personnel.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: GENERAL PURPOSE FORCES
ACTIVITY GROUP: CONUS BASE OPERATIONS

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000)
(Continued):

D. Laundry and Dry Cleaning Services (\$10,539): Finances operation of laundry and dry cleaning plants and contracting for such services where Army-owned plants are not operated. Finances pay and allowances for 246 civilian personnel.

E. Army Food Service Program (\$66,035): Finances operation and administration of food supply and food preparation facilities, dining facilities, and ration processing and distribution points. Finances pay and allowances for 260 civilian personnel.

F. Personnel Support (\$63,118): Finances base personnel administration and related programs such as command information, alcohol and drug abuse and reenlistment activities. Finances pay and allowances for 2,120 civilian personnel.

G. Unaccompanied Personnel Housing Operation, Administration, and Furnishings (\$23,589): Finances the purchase, control, moving, and handling of housing furnishings for unaccompanied personnel officer quarters and unaccompanied personnel enlisted quarters; and finances the operation and administration of all unaccompanied personnel housing. Finances pay and allowances for 389 civilian personnel.

H. Administration (\$32,350): Finances all activities concerned with the headquarters command and administration of the installation; and other installation-wide activities not otherwise financed. Finances pay and allowances for 1,426 civilian personnel.

I. Automation Activities (\$46,002): Finances automation activities in support of base operations and automation security. Finances pay and allowances for 284 civilian personnel.

J. Community and Morale Support Activities (\$80,225): Finances the development, staffing, equipping, administering, and operation of installation libraries, sports programs, Army Community Service Activities, Child Support Services and separate Army bands. Finances pay and allowances for 1,869 civilian personnel.

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000)
(Continued):

K. Preservation of Order (\$19,838): Finances police services to include military police operations, installation level confinement activities, physical security operation and operation of physical security equipment. Finances pay and allowances for 653 civilian personnel.

L. Reserve Component Support (\$3,254): Finances administrative support for Reserve Component units and ROTC personnel participating in inactive duty training, annual training, or mobilization exercise at the installation. Finances pay and allowances for 109 civilian personnel.

M. Directorate of Resource Management (\$76,954): Finances the administration of all resource management functions such as Finance and Accounting, Programming and Budgeting, Management Analysis, Productivity Analysis, Commercial Activities and Efficiency Review Programs. Finances pay and allowances for 2,874 civilian personnel.

N. Directorate of Plans, Training and Mobilization (\$34,147): Finances the management of training facilities, training aids, range operations, BASOPS Flying Hour Program, museum activities, and mobilization support. Finances pay and allowances for 1,036 civilian personnel.

O. Director of Contracting/Contracting Division (\$16,302): Finances the administration of contracts and purchases for the installation. Included are functions such as preparation of performance work statements, quality assurance and the contract audit tracking program. Finances pay and allowances for 741 civilian personnel.

P. Security and Counterintelligence Operations (\$3,610): Finances the management of security counterintelligence and planning functions at the installation. Finances pay and allowances for 104 civilian personnel.

III. Financial Summary (\$ in Thousands) (Continued):

B. Reconciliation of Increases/Decreases (Continued)

Program Increases

a. Army Community Service (ACS) (Base: \$4,304).....\$ 2,333

Additional contract funding is provided to fully implement the following programs: Exceptional family member; Financial planning and assistance; and Family member employment; and a contract outreach program designed to export social services to family members residing off post, often in isolated locations. First term families will be the primary target for these programs. ACS Centers have also been resourced for contract coordinators who will recruit and train volunteers to support the many ACS activities. Contract funding for family action plan coordinators is also provided. These "family programs" will significantly improve the support provided by the ACS Centers.

b. Child Development (Base: \$4,260).....\$ 3,325

Additional contract funding is provided for first line supervisors of care givers at all existing child development program. For new child development centers being constructed, funds are provided for equipment, supply, and contract staff. Increased contract resources are provided to expand the quarters based child development program at all installations and to implement an after school program to supervise the activities of children who traditionally return from school to an empty home. These "family programs" will significantly improve the quality of child development services throughout the Army.

Program Increases (Continued)

feed divisions (units) while in the field but augmentation of cooks with a food service contract is required to feed units while in Garrison.

f. Commercial Activities Military Replacement (Base: \$20).....\$ 1,505
Resources support conversion of military manpower now working in commercial functions being cost studied through the CA program. These commercial functions include administrative support, installation support, food and recreational services. At the end of any cost study, regardless of the competition outcome (in-house or contract) the military manpower are withdrawn by HQDA for reallocation and either civilians or contract staff are provided in their place. Conversions are programmed only for cost studies where the military comprise at least 20% or more of the studied functions workforce. These funds provide for converting 100 military spaces at FORSCOM.

g. Drug and Alcohol Testing (Base: \$2,870).....\$ 1,154
Funds state of the art technology to allow local commanders to conduct preliminary drug testing, with follow on confirmation at laboratories, for marijuana, cocaine and amphetamines. Current procedures require that soldiers be withheld from duty pending laboratory analysis of standard drug tests. With Unit Level Drug Testing commanders will use portable drug test kits to determine which soldiers can be immediately returned to duty and which soldiers require further testing and analysis by Army labs. The quick return of non drug users to duty stations will result in

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: Army RPMA Activities
ACTIVITY GROUP: Europe

I. Narrative Description (Statement of Requirements and Mission)

This budget activity provides Real Property Maintenance Activities (RPMA) support for General Purpose Forces and their supporting structures at 39 military communities (excluding Berlin, which is funded by the Federal Republic of Germany) in Europe. Most communities consist of several kasernes that are separated by varying distances.

II. Description of Operations Financed

A. Funds provide support in four functional areas of Real Property Maintenance Activities. These functional areas are:

1. Operation of Utilities (\$238,196). Finances expenses for procurement, production and distribution of utilities for European installations. Included are operating costs for Army owned heating and electrical generating plants, purchased utilities, purchased water, operation of water plants and distribution systems, and sewage and waste systems. Finances pay and allowances for 1,686 personnel.

2. Maintenance and Repair of Real Property (\$675,940). Finances maintenance and repair of buildings, structures, grounds, and utilities systems at US military installations in Europe. Includes pay and allowances for 7,159 civilian personnel. The FY 87 request will cover the annual maintenance and repair requirements and reduce the Backlog of Maintenance and Repair (BMAR) by approximately \$143 million. This reduction in backlog will result in improved utilities systems, barracks, and operational facilities. Migration in the amount of \$10 million and the contribution of Military Construction toward BMAR reduction in the amount of \$1.8 million have been considered in estimating the BMAR.

3. Minor Construction (\$66,008). Finances the erection, installation or assembly of a new real property facility, or the addition or conversion of an existing real property facility when project costs do not exceed \$200 thousand. A total of 856 projects are planned.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: Army RPMA Activities
ACTIVITY GROUP: Europe

4. Engineer Support (\$202,983). Finances general facilities engineering services such as fire protection, custodial services, pest control, refuse collection and disposal, snow removal and ice alleviation. Includes master planning and resources for Real Estate Administration and Construction Support in Europe. Includes pay and allowances for 6,024 civilian personnel.

JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: Army RPMA Activities
ACTIVITY GROUP: Pacific

I. Narrative Description (Statement of Requirements and Mission)

This budget activity provides Real Property Maintenance Activities (RPMA) support for General Purpose Forces and their supporting structure at 51 Army installation/locations in Korea, Japan, and Hawaii.

II. Description of Operations Financed

A. Funds provide support in four functional areas of Real Property Maintenance Activities. These functional areas are:

1. Operation of Utilities (\$66,125). Finances expenses for procurement and distribution of utilities for 51 Pacific installations. Included are utilities, purchased water, operation of water plants and distribution systems, and sewage and waste systems. Finances pay and allowances for 446 civilian personnel.
2. Maintenance of Real Property (\$161,377). Finances maintenance and repair of buildings, structures, grounds and utility systems at 51 installations. Includes pay and allowances for 2,129 civilian personnel. Migration in the amount of \$5 million has been considered in the budget year request in estimating the backlog of maintenance and repair.
3. Minor Construction (\$20,282). Finances the erection, installation or assembly of a new facility, or the addition, expansion, alteration or conversion of an existing real property facility when project costs do not exceed \$200 thousand. Includes pay and allowances for 29 civilian personnel.
4. Engineer Support (\$68,121). Finances other facilities engineering services such as fire protection, custodial services, pest control, refuse collection and disposal, snow removal and ice alleviation. Includes pay and allowances for 2,243 civilian personnel.

Program Increases

a. Facilities Maintenance (Base: \$121,155) \$ 11,827

Provides resources to reduce BMAR after financing the annual maintenance and repair requirements of \$161,299 (for Japan, yen priced at 200.55), support of Army initiatives in force structure, force protection and offsetting estimates for migration from other accounts and contribution of MCA projects to elimination of older facilities. Current projections are that Pacific BMAR will be reduced by \$4,316 in FY87.

b. Master Planning (Base: \$1,500) \$ 3,103

This adjustment adds money for Architect-Engineering services for preparation and updating, planning documents. Because of inadequate funding in this area in past years, plans are to accelerate master planning efforts to coincide with increased construction programs. This programmatic increase will contribute to that effort.

This document is the property of the Department of the Army. It is to be controlled and its use restricted to the Department of the Army.

Program Decrease

-37

a. FY 87 Force Modernization Program (Base: \$53) ... \$
Provides mission operating funds to support the fielding of selected new or modernized equipment entering the active force inventory in FY 87 to include resources for the initial provisioning (Authorized Stockage List/Prescribed Load List - ASL/PLL) of repair parts and associated items of equipment for all components Active Army, Reserve and National Guard. (For details on specific systems, see "Intensively Managed Systems" section.) These costs are reduced by subtracting one-time costs associated with FY86 fieldings.

-496

b. Combat Service Support (Base: \$496) \$
Finances minimum items required for Trans-Korea Pipeline (TKP) during wartime to provide continued operation. Also, provides resources for fire fighting support, flammable material storage space for ASL chemical and packaged POL for the 2d ID currently stored in tents and transportation container. These costs are reduced by subtracting one-time start-up costs required in FY86.

PROGRAM: Army RPMA Activities
ACTIVITY GROUP: FORSCOM & Other CONUS

I. Narrative Description (Statement of Requirements and Mission)

This budget activity provides Real Property Maintenance Activities (RPMA) support for the General Purpose Forces and their support structure at twenty installations excluding the Panama Defense Complex (plus 9 semi-active and sub-installations transferred from OMAR in FY 87) in Forces Command (FORSCOM).

II. Description of Operations Financed

A. Funds provide support in four functional areas of Real Property Maintenance Activities for 20 existing FORSCOM installations plus 9 installations and subinstallations transferred from the OMAR to OMA program. These functional areas are:

1. Operation of Utilities (\$173,113). Finances expenses for procurement and distribution of utilities at FORSCOM installations. Included are purchased utilities, purchased water, operation of water plants and distribution systems, sewage and waste systems. Finances pay and allowance for 638 civilian personnel. Budget year estimates include a program reduction based on declines in consumption projected in the Army Energy Plan.
2. Maintenance and Repair of Real Property (\$425,254). Finances maintenance and repair of buildings, structures, grounds and utility systems at FORSCOM installations. Includes pay and allowance for 4,404 civilian personnel. The FY87 request will cover the annual maintenance and repair requirements and reduce the Backlog of Maintenance and Repair (BMAR) by \$4.1. Migration in the amount of \$10.0 million has been considered in estimating the BMAR.
3. Minor Construction (\$50,327). Finances the erection, installation or assembly of a new facility, or the addition, expansion, alteration or conversion of an existing real property facility when project costs do not exceed \$200 thousand. Includes pay and allowances for 13 civilian personnel.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: Army RPMA Activities
ACTIVITY GROUP: FORSCOM & Other CONUS

4. Engineer Support (\$159,362). Finances other facilities engineering services such as fire protection, custodial services, pest control, refuse collection and disposal, snow removal and ice alleviation. Includes pay and allowances for 4,054 civilian personnel.

PROGRAM: INTELLIGENCE

I. Description of Operations Financed:

Sub-Program 3-Intelligence consists of Security and Investigative Activities (S&IA), the Consolidated Cryptologic Program (CCP), the General Defense Intelligence Program (GDIP), and the Foreign Counterintelligence Program (FCI).

The S&IA supports combat readiness through operational security support to Army installations, activities and research and development efforts, provision of nonstandard administrative and technical support for Army counterintelligence, and conduct of unit refresher training of counterintelligence personnel. In addition, it provides resources for the operation of various activities of the Headquarters, US Army Intelligence and Security Command, Arlington Hall Station, Virginia.

The CCP, GDIP and FCI are parts of the National Foreign Intelligence Program (NFIP), regulated pursuant to Executive Order 12333. The CCP is programmed under the managership of the Director, National Security Agency (NSA); the GDIP is programmed under the managership of the Director, Defense Intelligence Agency (DIA); and the FCI is programmed under the managership of the Counterintelligence and Investigative Programs Office (CIIPO), of the Deputy Under Secretary of Defense (Policy) (DUSN(P)).

The CCP, GDIP and FCI budgets are fully documented and justified in classified submissions to the Director of Central Intelligence (DCI) which are available to properly cleared individuals upon request.

PROGRAM: INTELLIGENCE
ACTIVITY GROUP: BASE OPERATIONS

I. Narrative Description: This budget activity provides for the operation of installation-type support less real property maintenance activities at Arlington Hall Station, VA. The FY 1987 request totals \$4.0 million which provides for a \$.1 million net program growth. Major areas of program growth include implementation of Drug and Alcohol Testing (\$.07 million) an expansion of Family Programs (\$.05 million) offset by a reduction in overall Base Operating Support (\$-.007 million).

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000):

A. Supply Operations (\$372): Finances the operation of post supply. Includes the operation of a self-service center and purchasing. Finances pay and allowances for 12 civilian personnel.

B. Maintenance of Materiel (\$50): Finances Direct and General Support Maintenance of Support Systems such as vehicles and installation equipment.

C. Transportation Services (\$629): Finances the operation of local (installation) non-tactical motor transportation service to include government-owned vehicles and rented or leased commercially-owned vehicles. Also includes operation of an installation transportation office. Finances pay and allowances for five civilian personnel.

D. Army Food Service Program (\$390): Finances operation and administration of food supply and food preparation facility and dining facility.

E. Personnel Support (\$1,008): Finances base personnel administration and related programs such as command information, alcohol and drug abuse and reenlistment activities. Finances pay and allowances for 20 civilian personnel.

F. Unaccompanied Personnel Housing Operation, Administration, and Furnishings (\$24): Finances the purchase, control, moving, and handling of housing furnishings for unaccompanied personnel officer quarters, and unaccompanied personnel enlisted quarters. Finances the operation and administration of all unaccompanied personnel housing.

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000)
(Continued):

G. Administration (\$429): Finances all activities concerned with the headquarters command and administration of the installation. Also includes other installation-wide activities not otherwise provided for, such as personnel management. Finances pay and allowances for seven civilian personnel.

H. Automation Activities (\$16): Finances automated data processing activities in support of base operations.

I. Community and Morale Support Activities (\$604): Finances the development, staffing, equipping, administration and operation of installation libraries, sports programs, recreation activities and skill development centers. Finances pay and allowances for 20 civilian personnel.

J. Preservation of Order (\$281): Finances military police operations, physical security services, and operation of physical security equipment. Finances pay and allowances for one civilian employee.

K. Directorate of Resource Management (\$116): Finances the administration of all resource management functions such as Finance and Accounting, Programming and Budgeting, Management Analysis, Productivity Analysis, Commercial Activities and Efficiency Review Programs. Finances pay and allowances for four civilian personnel.

L. Directorate of Plans, Training and Mobilization (\$28): Finances the management of training facilities, training aids, range operations, and mobilization support. Finances pay and allowances for one civilian personnel.

M. Records Management, Publications (\$35): Finances the operation of records management, records holding areas, and printing and reproduction of publications. Finances pay and allowances for one civilian personnel.

Program Increases

53

- a. Army Community Service (ACS) (Base: \$22).....\$
Additional contract funding is provided to fully implement the excep-
tional family member, financial planning and assistance and family member
employment programs at all ACS Centers. ACS Centers will implement a
contract outreach program designed to export social services to family
members residing off post, often in isolated locations. First term fami-
lies will be the primary target for this program. These "Family
programs" will significantly improve the quality of child development
services throughout the Army.

66

- b. Drug and Alcohol Testing (Base: \$0).....\$
Funds state of the art technology to allow local commanders to conduct
preliminary drug testing, with follow on confirmation at laboratories,
for marijuana, cocaine and amphetamines. Current procedures require that
soldiers be withheld from duty pending laboratory analysis of standard
drug tests. With Unit Level Drug Testing commanders will use portable
drug test kits to determine which soldiers can be immediately returned to
duty and which soldiers require further testing and analysis by Army
labs. The quick return of non-drug users to duty stations will result in
a direct increase in unit morale and a quantifiable increase in unit and
combat readiness.

I. Narrative Description (Statement of Requirements and Mission)

This budget activity provides Real Property Maintenance Activities (RPMA) support for the U. S. Army Intelligence and Security Command (INSCOM) at Arlington Hall Station, VA.

II. Description of Operations Financed

A. Funds provide support in four functional areas of Real Property Maintenance Activities. These functional areas are:

1. Operation of Utilities (\$1,116). Finances expenses for procurement and distribution of utilities for INSCOM. Included are purchased utilities, water, operation of water plants and distribution systems and sewage and waste systems.
2. Maintenance and Repair of Real Property (\$3,534). Finances maintenance and repair of buildings, structures, grounds, and utility systems at INSCOM.
3. Minor Construction (\$261). Finances the erection, installation or assembly of a new facility, or the addition, expansion, alteration or conversion of an existing real property facility when project costs do not exceed \$200 thousand. A total of 25 projects is planned.
4. Engineer Support (\$1,266). Finances general facilities engineering services such as fire protection, custodial services, pest control, refuse collection and disposal, snow removal and ice alleviation. Includes pay and allowances for 6 civilian personnel.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: COMMUNICATIONS, COMMAND AND CONTROL, INFORMATION SERVICES

I. Description of Operations Financed:

The Army communications, command and control, information services program provides for a wide range of information service related needs of the Major Army Commands (MACOMS); provides communications and automatic data processing support for the command and control requirements of the National Command Authority (NCA) and the Unified Commanders; fulfills tasking directed by Office of Secretary of Defense, Joint Chiefs of Staff, the Defense Communications Agency and the National Security Agency. Reliable, flexible and responsive communications are essential elements of US Force Readiness. In addition, this program supports the Operation and Maintenance of all Army air traffic control and navigational aids facilities. Major program objectives are to achieve management efficiencies through the process of centralized management of information equipment, manpower and financial resources; maintain high quality performance of assigned Defense Communication System (DCS) missions; and provide high quality voice and data transmission and processing facilities, within the framework of communications economy and discipline.

The management of information systems is centralized under the US Army Information Systems Command (USAISC), formerly US Army Communications Command (USACC), Ft Huachuca, Arizona. The USAISC operates in 12 countries of the world providing information systems support to US and Allied Forces. USAISC Commanders are "dual hatted" i.e., they respond to MACOMS as well as the Commander, USAISC, to ensure responsive support to the mission requirements of the Army. At the same time MACOMS participate in information systems economy and discipline programs to insure information management resource consciousness within all elements of the command. The backbone of long haul communications is the Defense Communications System (DCS) administered by the Defense Communications Agency (DCA). The Army operates facilities of the DCS as assigned by DCA. DCS facilities operated by the Army include satellite ground terminals, automatic voice (AUTOVON) and automatic digital (AUTODIN) switching centers, microwave stations and tropospheric and high frequency radio stations. Engineering elements of USAISC perform numerous functions in support of the DCS and participate fully with DCA and other services in the accomplishment of priority projects such as WWMCCS Selected Architecture. The major thrust in data communications is modernization and consolidation. Particular emphasis is being placed on updating antiquated communications systems in Europe, Korea, and CONUS. The Defense Satellite Communications System is receiving new equipment and technology to improve control and communications. The Army is also participating with the other Services and DCA to establish a packet switch based data network called Defense Data Network. In addition, the Army is dedicated to support a major classified initiative, the Strategic C3 project. The FY 1987 Budget Request continues the Army commitment to these modernization programs that are essential to the long term goal of meeting ever increasing demands for communications services. However, while constrained resources are dedicated to these modernization efforts, subscriber support for the Federal Telecommunication System (FTS) requirements will be reduced.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: COMMUNICATIONS, COMMAND AND CONTROL, INFORMATION SERVICES

I. Description of Operations Financed: (Continued)

The Worldwide Military Command and Control System-Automatic Data Processing effort consists of improvements to the existing systems at the eight WMCCS-ADP sites while striving toward the eventual replacement of the current system with the WMCCS Information System.

The Information Support Services efforts provide for the design, acquisition, installation, testing, acceptance and management of information systems. The Army is committed to providing automation support to the soldier in the field. To meet this objective the Army will continue to field the Tactical Army Combat Service Support (CSS) Computer System (TACCS), provide for Corps Theater ADP Service Center (CTASC) and develop Standard Army Multi-Command Management Information Systems (STAMMIS) for use on the company level computer. The Army also is placing significant emphasis on providing for the ever increasing information management requirements and increasing the efficiency of current computer operations by redesigning several automation software systems. In addition Army operational systems are being modified to provide timely response to change requirements generated by changes in Army policy, regulatory guidance and technology upgrades.

The Communications Security (COMSEC) effort consists of testing for compromising equipment emanations, crypto facility inspections and COMSEC logistical support.

This program also supports Base Operations and Real Property Maintenance Activities at Fort Huachuca, Arizona, Fort Ritchie, Maryland; and Vint Hill Farms Station, Virginia.

C. Reconciliation of Increases and Decreases (Continued)

Program Increases

a. Alternate Support Headquarters (FY 1986 Base \$336).....\$ 1,772

The US Army European Command Alternate Support Headquarters (ASH) represents the secure facility whose survivability is essential to the conduct of the Headquarters USEUCOM wartime mission. This project encompasses the acquisition and activation of a hardened underground facility for the US Commander in Chief (USCINCEUR) at a classified location in Europe. This ASH will provide a survivable installation for the functions of USEUCOM now performed at the vulnerable headquarters at Vaihingen, Germany. The total requirements necessitate duplicating at the alternate headquarters the complete command and control capability that is operationally equivalent of that provided at the headquarters. The ASH must be capable of full time operation on an on call basis. A caretaker cadre of 1 officer and 25 enlisted personnel will be permanently assigned at the ASH to ensure operability to meet this readiness requirement. In FY 1986 \$336 is required for electro-magnetic protections studies, contractor assistance for implementation documentation and plan preparation; and for assistance to preassemble the communications-electronics equipment prior to installation. The ASH contains a technical control facility, a telecommunications center, a fixed Minimum Essential Emergency Communications Network (MEECN) facility and other communication equipment. In FY 1987 \$1,813 is required to pay for contractor maintenance of communications equipment and \$295 will be used for finalizing the program management and implementation documentation, logistic plans, logistic support analysis, training plans and reliability/maintainability plan to be used by the ASH when operational.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: COMMUNICATIONS, COMMAND AND CONTROL, INFORMATION SERVICES
ACTIVITY GROUP: LONG HAUL COMMUNICATIONS

I. Narrative Description

Provides long lines leased communications, facilities, engineering and installation support for long haul communications. The US Army Information Systems Command (USAISC) provides long haul communications at 1,265 facilities spread over 12 countries supporting the missions of the Joint Chiefs of Staff, the Department of Defense and Major Army Commands (MACOMs) worldwide. Activities include long haul communications which are part of the Defense Communications System (DCS), and long haul communications not designed as DCS. The DCS includes activities such as the Automatic Voice Network (AUTOVON), the Automatic Digital Network (AUTODIN), the Defense Satellite Communications System (DSCS), the Defense Data Network (DDN), and engineering and installation activities supporting the DCS. Non-DCS long haul communications includes activities such as the operation of telecommunication centers and engineering and installation activities required to support US Army command and control, communications and communication facilities at US Army installations worldwide.

II. Description of Operations Financed

A. Defense Communications System (DCS) (less Satellite Communications). Finances facilities and function assigned to the US Army which constitute a portion of the Department of Defense-wide Defense Communications System. The DCS is under the purview of the Defense Communications Agency (DCA). Includes pay and allowances for 1,271 civilian personnel.

Automatic Voice Network (AUTOVON)	\$71,463
Automatic Digital Network (AUTODIN)	21,482
Defense Data Network (DDN)	19,100
Low Intensity Operations	15,520

Functional Program Transfers

Inter-Appropriation Transfers

Transfers In:

Realignment of Army Support to Semiactive Installations.....\$ 1,368

Funding for semiactive installations is being transferred from the Operation and Maintenance, Army Reserve (OMAR) Appropriation to the Operation and Maintenance, Army (OMA) Appropriation to reflect more accurately the predominate use of these facilities by the active Army component. Specifically, realignment of communications support from OMAR to OMA for Fort Drum, NY; Indiantown Gap Military Reservation, PA; Fort McCoy, WI; Fort Pickett, VA; Camp AP Hill, VA; and Fort Chaffee, AR is provided through this transaction.

Total Inter-Appropriation Transfers In.....\$ 1,368

Intra-Appropriation Transfers

Transfers In:

Leased Communications.....\$ 929

Funding for communications in the Army is centralized in the Army Information Systems Command and funded out of Program 3 Army Communications Program (Mission). During execution, unprogrammed communication requirements are funded out of the program that initiates the requirement. During the next budget cycle, funding is realigned and transferred to Program 3 for central management.

Total Intra-Appropriation Transfers In.....\$ 929

B. Reconciliation of Increases and Decreases

Program Increases

- a. TROJAN (FY 1986 Base \$6,517).....
- The Army has serious and documented problems in developing the proficiency of tactical Signal Intelligence/Electronic Warfare (SIGINT/EW) personnel and units. A highly proficient tactical (SIGINT/EW) force can be a vital combat multiplier that is essential to the execution of the Air Land Battle Doctrine. The only proven and effective means of developing a SIGINT/EW proficiency is by conducting operations against real world threat signal environments. It is impractical and politically impossible to deploy all SIGINT/EW units to international border sites and access points to perform these operations on a continuous basis. TROJAN will provide remote, live foreign target signals from strategic access sites to tactical SIGINT/EW soldiers and units in garrison. This effort will enhance individual training, language capability, technical proficiency, unit readiness, personnel retention and promote more efficient use of dollars, manpower and time. Communication resources will lease commercial satellite circuits in conjunction with government owned satellites to provide state-of-the-art communications capability to relay live, foreign language traffic from strategic access points to the SIGINT/EW garrison environment. Further information on this specific fielding plan for these systems is classified.

- | | |
|---|----------|
| b. Low Intensity Operations (FY 1986 Base \$ 12,907)..... | \$ 2,613 |
| Operation and Maintenance, Army appropriation provides communications upgrades for classified contingency low intensity operations. | |
| c. Defense Data Network (FY 1986 Base \$16,998)..... | \$ 2,102 |
| The Defense Data Network is a Department of Defense directed operational common user data communications network which is funded by all military departments and DOD agencies. The DDN is designed to satisfy the performance needs of computer system users who require data communications services. The network equipment is designed to minimize delay, detect and correct errors, ensure proper delivery of traffic, and maximize the availability of network services. Network development, expansion, integration, operations and maintenance will continue to grow through FY 1989 at a minimum. Operation and Maintenance funding is managed on a reimbursable basis through the Defense Communications Agency Communications Services Industrial Fund and supports the following network functions: leased communications services (backbone and access line costs), configuration management, software maintenance and enhancement, hardware maintenance and network operations and technical support. The FY 1987 increase reflects the Army's projected usage of DDN over the FY 1986 level. | |
| d. Classified Program (FY 1986 Base \$ 48,327)..... | \$ 984 |

B. Reconciliation of Increases and Decreases

Program Increases (Continued)

e. Expand Access to Worldwide Military Command and Control System (WWMCCS) Intercomputer Network (WIN) (FY 1986 Base \$744).....	\$ 493
--	--------

The Army is increasing its WIN capability to support joint deployment community requirements by expanding WIN operations to major overseas Military Traffic Management Command (MTMC) activities and to the remaining CONUS MTMC activities. The expanded WIN capability supports mobilization and deployment planning, execution and reporting worldwide and will assure WIN processing capability to meet crisis demands without degrading other essential ADP operations. Long haul leased communications provide for WIN interconnectivity among the joint deployment community activities. The FY 1986 operation and maintenance resources (\$744) support the recurring costs associated with leased communications service at 19 CONUS locations and 2 OCONUS locations. In FY 1987 an increase in O&M funds (\$493) supports leased communications costs for WIN expansion at 2 additional CONUS locations and 10 OCONUS locations.

f. Civilian Substitution (FY 1986 Base \$4,822).....	\$ 1,364
--	----------

Resources support the program to convert Military Table of Distribution and Allowance (TDA) positions to civilian positions. The reassignment of replaced military personnel to higher priority force structure needs provides increased readiness and better utilization of available military authorizations. In FY 1986 civilian end strength and workyears were increased to 150 end strength, 139 workyears to offset military reductions. The dollar increase in FY 1987 reflects the annualization of 12 workyears and partial year funding for the conversion of an additional 57 military positions in FY 1987. Functions supported include telecommunication center/supply and other administrative long haul communications functions.

g. Remote Multi-Media Mode Education Network (FY 1986 Base \$0).....\$ 4,043

The Remote Multi-Media Mode (RM3) satellite based educational network provides training at multiple installations simultaneously from a central location through live satellite TV with two-way audio hookup via WATS and commercial telephone. This educational concept was developed by the Army Materiel Command (AMC) as a result of a decision by the Army leadership to export logistics education across the command via televised broadcasts. This network operates through the transmission of an originating signal from an earth station (uplink) located at Ft Lee, VA to a commercial satellite where it is sent to receiving stations (downlinks) throughout CONUS. AMC began this initiative in late FY 1985 utilizing Program 8-Training funds. Funding in this program continues in FY 1986 in the amount of \$2,100. At the end of 1986 the network will include one uplink and 30 downlink facilities. In FY 1987, management of this initiative will transfer to the U.S. Army Information Systems Command. Operation and Maintenance (O&M) resources (\$4,043) will continue the contractual effort to support current RM3 networking capabilities and add 2 satellite uplink facilities and 41 satellite downlink facilities throughout CONUS. The contract includes costs for all hardware, satellite terminal lease, facility O&M costs and leased communications. Usage is anticipated to increase from 2 hours of transmission a day in FY 1986 to 6 hours a day in FY 1987.

III. Financial Summary (O&M: \$ in Thousands)

B. Reconciliation of Increases and Decreases

Program Increases (Continued)

h. Force Modernization (FY 1986 Base \$ 9,085).....\$ 1,044

The Force Modernization Program provides high quality command and control and administrative networks for use in echelons above corps (EAC) using mobile ruggedized communications systems and equipment. The systems provide radio capabilities to transmit voice and record traffic, switching equipment to route signals to the intended recipients and terminal equipment to convert the electronic signals into usable voice or written information or convert voice or written input into signal traffic. Typically these systems provide communications for the Major Headquarters and organizations in the EAC and also the linkages from these locations to the combat forces and from the Theater of Operations to CONUS. The increase (\$1,044) to FY 1986 resources provide for the fielding (\$ 164) and sustainment (\$ 880) of command and control radio and satellite information systems and equipment.

i. Light Infantry Division (FY 1986 Base \$119).....\$ 223

After a review of the force structure, national strategy and the changing world situation, the Army has established the 10th Infantry Division (Light) at Fort Drum, New York and the 6th Infantry Division (Light) at Forts Wainwright and Richardson, Alaska. These light divisions will enhance the capability of the National Command Authority to respond across the spectrum of conflict, including contingencies of low intensity. To accommodate the Light Infantry Division, additional civilian personnel are required to provide 24 hour, 7 days a week coverage for telecommunications center operations. Beginning in FY 1986, eight civilian spaces are required at Fort Drum, NY; in FY 1987 ten civilian spaces will be required at Forts Wainwright and Richardson, AK. The increased funding in FY 1987 provides full year funding of the civilian salaries for personnel acquired in FY 1986 and partial year funding for the personnel acquired in FY 1987.

Program Increases (Continued)

j. US Central Command (FY 1986 Base \$0).....\$ 2,813

The US Central Command (USCENTCOM) was established by Presidential Directive on 1 January 1983. Operation and maintenance resources in FY 1987 provide equipment maintenance and contractor support for operations and training requirements for the communications equipment being procured in FY 1985-1987 for the USCENTCOM requirement. The equipment types required include circuit switches, message switches, multichannel radios, communications terminals and multichannel satellite ground terminals. Following equipment installation, long haul leased communications circuits will be required to support MACOM connectivity. Further information concerning the positioning and utilization of communications circuits and equipment for USCENTCOM, is available at the appropriate classification levels.

k. Worldwide Military Command and Control System (WWMCCS) Information System (FY 1986 Base \$ 1,087).....\$ 3,670

WWMCCS Information System (WIS) is a joint modernization program which provides for the replacement of current WWMCCS-Automatic Data Processing hardware and software with state-of-the-art technology. In FY 1984, the Army established a Project Management Office (PMO) for the development and implementation of WIS at the eight Army sites to include contractual support for planning and development of critical WIS methodologies, system engineering, support for definition of command and control information and communication requirements. Resources in FY 1986 (\$1,087) are required to fund for communications site preparation and leased communications associated with the installation of the new WIS terminal equipment. In FY 1987 resources are required to fund for communications leased lines and installation of an additional 323 WIS workstations at the Army supported WWMCCS sites.

Program Increases (Continued)

1. Army Training Requirement and Resource System (ATRRS)/ Personnel Training Management System (PTMS) (FY 1986 Base \$434).....\$ 107

PTMS a subsystem of ATARS is a single, automated management system to monitor the flow of trainees and students through the training and distribution processes. PTMS provides capability for more effective utilization of training spaces, more efficient tracking of retrainees and recycled personnel and links existing systems to data developed by the Military Entrance Processing Stations in tracking individual trainees from accession to first unit assignments. Operation and maintenance (O&M) resources in FY 1986 (\$ 434) are required for recurring leased communications service between Headquarters Department of the Army (HQDA) and thirty (30) military personnel offices in CONUS. In FY 1987, the increase to O&M (\$107) provides for maintenance of government owned statistical, communications multiplexing equipment necessary for the CONUS regional expansion of the Army Training Requirements and Resources System (ATRRS) in support of PTMS. This multiplexing capability provides a system for transmitting several messages (signals) simultaneously on the same circuit or channel at a lower cost than through the use of individual dedicated communications circuits.

m. Theater Communications Network in Europe (FY 1986 Base \$0).....\$ 2,200

This high priority program, managed by the Defense Communications Agency (DCA) will significantly improve the theater communications survivability in Europe by utilizing the hardened underground cable system of the Deutsche Bundespost to provide the US Forces a contingency communications network which would already be installed and operational for crisis situations. The network can be easily and quickly reconfigured using the alternate routing capability to meet urgent and diverse US Armed Forces requirements. Specifically, the Army is responsible for 14 Defense Communications System (DCS) stations in the Federal Republic of Germany. FY 1987 operation and maintenance funds provide for the annual recurring lease communications costs for the activation of 400 circuits from the Deutsche Bundespost.

Program Increases (Continued)

n. Contract Services For Defense Communication System (DCS) Sites (FY 1986 Base \$1,071).....	\$ 1,819
--	----------

Because of critical requirements elsewhere in the force structure, the Army has reprogrammed Signal Corps military spaces to meet these needs. Due to these manpower reductions, 16 Defense Communications System (DCS) sites providing communications services to US Forces in Europe were no longer authorized military manpower. In FY 1986 one-time O&M funds were provided for engineering and installation of Fault Alarm Systems at these sites so they could be secured via remote linkage to other manned sites. Because each of these locations contained COMSEC encryption equipment, the unmanned concept was no longer viable. In FY 1987 O&M funds are required for contractor support to provide maintenance, 24 hour custodianship of encryption equipment and security previously provided by military personnel. The FY 1986 funds provided for Fault Alarm installation have been reprogrammed against the FY 1986 contract requirement.

B. Reconciliation of Increases and Decreases

Program Decreases

- a. Mystic Star Relocation Project (FY 1986 Base \$1,944).....\$ -1,944
 Mystic Star, a Defense Communications Agency (DCA) managed air/ground Communications system, supports selected Special Air Missions (SAM)-VIP aircraft, the National Emergency Airborne Command Post (NEACP) and White House Communications Agency (WHCA) designated users. As previously agreed upon, the Mystic Star mission was transferred from the Army, at Pirmasens, Germany, to the Air Force, at Moron AFB, Spain in FY 1986. The OMA decrease reflects the completion of the transfer.

- b. Federal Telecommunications System (FY 1986 Base \$29,100).....\$ -11,284
 The Federal Telecommunications System (FTS) is a communications network managed by the General Services Administration (GSA) within CONUS. FTS has provided its customers with an economical alternative to commercial long distance toll rates through economies of scale. In the past several years, Army usage of the FTS network has increased significantly. In a continuing effort to encourage communications economies, the Army is reducing access to the FTS network to encourage the use of AUTOVON and WATS. The reduced funding posture in FY 1987, reflects the programmed reduction in usage of the network.

- c. Defense Satellite Communications System (DSCS) Control
System Survivability (FY 1986 Base \$6,500).....\$ -6,500

To provide for a survivable Defense Satellite Communications System, the Army is developing a transportable satellite control element capability for use by all of the Armed Services and other government agencies. This initiative is based on validated Joint Chiefs of Staff (JCS) satellite communication requirements and provides a survivable (backup) satellite communications network capability where no current battlefield survivability exists. The program provides for rapid, reliable and effective command and control communications and support to certain classified intelligence programs for tactical and strategic commanders as well as the National Command Authority and the Defense Communications System. In FY 1986, Operation and Maintenance Army resources (\$6,500) are required for contractual engineering to convert and test DSCS software to operate and interface the transportable, militarized computer, with the fixed satellite communications ground terminal facilities. The contractual engineering modifications will be furnished through the Army Satellite Communications Agency at Fort Monmouth, N.J.

d. National Science Center for Communications and Electronics (NSCCE)
(FY 1986 Base \$2,808).....\$ -755

The National Science Center for Communications and Electronics (NSCCE) is a joint private sector/US Army project to promote science and technology in the communications and electronics fields, while providing a valuable reference and training center for the Army. The NSCCE Foundation, a non-governmental, nonprofit organization, will raise funds and build the Center at Fort Gordon, Georgia. It will then be donated to the Army as agreed by both parties in a memorandum of understanding signed in 1984. For the Army, the NSCCE will supplement training for active, reserve and National Guard personnel across the nation and will directly benefit 33,000 members of the Armed Forces who are trained annually at the US Army Signal School, Fort Gordon, Georgia. The Center will include an exhibit hall on various aspects of communications and electronics and a computer-based learning and information network center (LINC) that will use a nationwide electronic network to provide access to communications and electronics information. FY 1986 funds (\$2,808) provide contractual effort to provide detailed specifications for final design and construction of seven galleries, develop LINC system function and configurations and salaries for 14 civilian personnel, 13 workyears. FY 1987 funds (\$2,053) develop the contract effort to provide detailed specifications for the final design and construction of three galleries, development of courseware for LINC, production of communication-electronic training materials to be used at the center, and salaries for 14 civilian personnel, 13 workyears.

ACTIVITY GROUP: LONG HAUL COMMUNICATIONS

V. Personnel Summary (Continued):

BETWEEN THE FY 1986 CURRENT ESTIMATE AND THE FY 1987 REQUEST The decrease of -520 military spaces consists of: -25 officers and -32 enlisted associated with the civilian substitution program; -3 officers associated with the elimination of the Organizational Effectiveness Program; -129 enlisted related to Tactical Satellite Communications (TACSATCOM) support reduction; -218 enlisted personnel associated with reduced military support for fielding and sustaining Force Modernization program equipment; -129 enlisted transferred from US Army Information Systems Command (USAISC) Cemetery Net to US Army Europe (USAREUR) for Regency Net communications support; +9 enlisted to increase support for the Theater Nuclear Force C3 Systems (TNFC3S) in Europe; +8 enlisted resulting from Satellite support reprogramming; +10 officers and -10 enlisted associated with enlisted to officer redesignation; +3 enlisted transferred from US Army, Europe; and -2 officers and -2 enlisted associated with Strategic C3 resource adjustment.

The changes in civilian spaces consist of: +57 US Direct Hire (USDH) associated with the civilian substitution program; +10 USDH to support the 10th Light Infantry Division; +1 USDH to provide support for sustaining Force Modernization program equipment; +1 USDH associated with increased Tactical Satellite Communications (TACSATCOM) support; +25 USDH and -9 Foreign National Direct Hire associated with mission reorganization; -88 USDH resulted from an Army Performance Oriented Review and Standards (APORS) efficiency reduction; +13 USDH associated with mission support restoration; and -4 Foreign National Indirect Hire are related to a reduction in telephone operations support; and -6 USDH associated with Strategic C3 resource adjustment.

PROGRAM: COMMUNICATIONS, COMMAND AND CONTROL, INFORMATION SERVICES
ACTIVITY GROUP: ARMY MANAGEMENT HEADQUARTERS

I. Narrative Description:

Army Management Headquarters provides resources for Headquarters US Army Information Systems Command (USAISC), Fort Huachuca, Arizona; the US Army Management System Support Agency (USAMSSA), Washington, DC; the US Army Research Development and Acquisition Information Systems Agency (USARDAISA), Radford, VA; and that portion of Headquarters US Army Intelligence and Security Command (INSCOM) performing communications security (COMSEC) management functions.

II. Description of Operations Financed:

Resources provide for the pay of civilian personnel, travel and temporary duty expenses of civilian and military personnel performing management functions and other related headquarters operating expenses such as supplies, materials and equipment replacement. Includes pay and allowances for 1,132 civilian personnel.

Headquarters USAISC	\$ 25,151

a. Headquarters Information Support (FY 1986 Base \$9,494).....\$ -6,945

The U.S. Army Management System Support Agency (USAMSSA) provides automated data processing support to Headquarters Department of the Army and other government agencies, including the office of the Secretary of Defense and the General Accounting Office. The continuing growth in information requirements of USAMSSA's users resulted in the addition of a third central processing unit (CPU) and major software changes designed to achieve efficiency increases in managing and processing workload, including the acquisition of additional user friendly software. FY 1986 funding provides for the final years lease of the lease-with-option-to-purchase for the third CPU, equipment maintenance, contractual software development necessary to modify existing software packages to meet changing user requirements, purchase of executive software packages designed to increase the efficiency of the existing hardware and for site preparation necessary to expand the main data processing facility. Decreased funding in FY 1987 results from the purchase of the previously leased CPU, completion of site preparation for the main data processing facility and decreased funding requirements for the purchase of additional executive software packages.

b. Organizational Effectiveness Program (FY 1986 Base \$64).....\$ -64

In FY 1976, the Army established an Organizational Effectiveness (OE) Program throughout the Army whose function was to devise a structure for the Army to operate more effectively. This was done by examining organizations with either structure and/or personnel problems, then defining the problem and devising a solution. A review of the OE function within the Army revealed that the original mission of the OE program was essentially complete and the need for dedicated OE offices no longer existed. In FY 1987 decreased funding results from the elimination of 2 civilian positions who performed the OE function at the Headquarters US Army Information Systems Command, Ft Huachuca, Arizona.

Functional Program Transfers

Inter-Appropriation Transfers

Transfers In:

Realignment of Army Support to Semiactive Installations.....\$ 3,689

Funding for semiactive installations is being transferred from the Operation and Maintenance, Army Reserve (OMAR) Appropriation to the Operation and Maintenance, Army (OMA) Appropriation to reflect more accurately the predominate use of these facilities by the active Army component. Specifically, realignment of communications support from OMAR to OMA for Fort Drum, NY; Indiantown Gap Military Reservation, PA; Fort McCoy, WI; Fort Pickett, VA; Camp AP Hill, VA; and Fort Chaffee, AR are provided through this transaction.

Total Inter Appropriation Transfers In.....\$ 3,689

Intra-Appropriation Transfers

Transfers In:

Leased Communications.....\$ 398

Funding for communications in the Army is centralized in the Army Information Systems Command and funded out of Program 3 Army Communications Program (Mission). During execution, unprogrammed communication requirements are funded out of the program that initiates the requirement. During the next budget cycle, funding is realigned and transferred to Program 3 for central management.

III. Financial Summary (O&M: \$ in Thousands)

B. Reconciliation of Increases and Decreases

Program Increases

a. Vertical Installation Automation Baseline (VIABLE) (FY 1986 Base \$4 988).....\$ 4,925

VIABLE is an Army-wide effort to obtain modern and efficient automation processing technology. In FY 1982 the Army began contractor operation and maintenance of five regional data centers and replacement of computers at 44 CONUS base operations data processing installations. A major advantage of this modern technology is the capability to have interactive application systems. In order to support interactive processing and the terminals (located at the user's work area), communication support must be provided. In FY 1986 VIABLE will be expanded to additional sites in CONUS and preliminary work will begin for VIABLE expansion to Europe. FY 1987 funding will provide for purchase, lease and installation of the on-post communications cabling common carrier equipment and the cost for lease of telephone lines necessary to support the VIABLE data transmission requirements, including the interactive capability.

b. Civilian Substitution (FY 1986 Base \$2,131).....\$ 192

The civilian substitution program converts military Table of Distribution and Allowance (TDA) positions to civilian positions. Retains military end strength while increasing readiness through assignment of released military personnel to higher priority force structure needs. In FY 1986 civilian end strength and workyears were increased to 51 end strength, 48 workyears to offset military reductions. The dollar increase in FY 1987 reflects the annualization of 3 workyears. Functions supported include administrative telephone switchboard operations, and other administrative and management activities at posts, camps and stations.

Program Increases (Continued)

c. CONUS Base Telephone Modernization Program (FY 1986 Base \$16,942).....\$ 4,692

The CONUS base telephone modernization is a multi-year upgrade program started in FY 1983 which provides for the purchase of digital Electronic Switching System (ESS), through the Other Procurement, Army Appropriation, with major cable rehabilitation efforts provided through the Operation and Maintenance, Army Appropriation. A total of 78 sites have been targeted for modernization by the mid 1990s. In FY 1986 the following twelve locations are scheduled for upgrade: Seneca Army Depot, NY; Fort Eustis, VA; Fort Lewis, WA; Fort Ord, CA; Sacramento Army Depot, CA; Tooele Army Depot, UT; Dugway Proving Ground, UT; Watervliet Arsenal, NY; New Cumberland Army Depot, PA; Fort Monmouth, NJ; White Sands Missile Range, NM; and Hunter Army Airfield, GA. In FY 1987 the following six locations are scheduled for upgrade: McAlester AAF, OK; Sierra Army Depot, CA; Fort Belvoir, VA; Fort Benning, GA; Fort Knox, KY and Savannah Army Depot, IL. In FY 1986 and FY 1987 funds are required for contractual support to conduct on-site surveys, to upgrade deteriorated cable plants and house wiring, and replace obsolete telephone instruments.

B. Reconciliation of Increases and Decreases

Program Increases (Continued)

d. Korean Telephone System (FY 1986 Base \$2,235).....\$ 6,935

In order to correct the deficiencies in the command and control communications, and to provide survivable wartime quality communications in Korea, a number of projects are ongoing to improve Army communications and the Defense Communications System (DCS). As part of the Korean telephone system upgrade new Electronic Switching Systems (ESS) were installed to replace obsolete telephone switchboards in Korea. In FY 1986 communications service will be cut over to the new electronic switches at the following locations: Camp Humphreys (2 switches), K-16, Youngsan Main (4 switches), Youngsan South (4 switches), Camp Stanley, Camp Red Cloud, Camp Casey (3 switches), Camp Howze, Camp Dodge, Camp Giant, and Camp Gary Owen. In FY 1987 service will be cut over to the new switches at the following locations: Tango, Camp Walker (2 switches), Camp Henry, Camp Ames, Camp Carroll, Camp Page, Camp Long, Far East District Engineers in Seoul, Camp Market, Camp Colbern Camp Mercer, and Camp Libby. The switches are purchased with Other Procurement Army (OPA) funds. Operation and Maintenance, Army (OMA) funds permit replacement of in-house wiring where needed, buy new telephone instruments, fund for site preparation for switch locations, and for removal of old switching equipment. The switch replacement program is tied to another OPA funded program, a fiber optic cable backbone system. The backbone begins in Oujombu and by FY 1987 will be extended to Pusan. In order to protect the fiber optic cable system from sabotage, weather and rodents, the cable is pulled through a plastic pipe and buried under 7 feet of dirt in a duct system being built by the Korea Telecommunications Agency on a 50-50 cost sharing basis with the U.S. OMA funds support on post cable upgrades to tie the backbone with the new switches. During FY 1987, operation and maintenance of all the electronic switches and fiber optic cable system completed through FY 1986 will be contracted out. By the end of FY 1987, approximately 50 military spaces will be available for reprogramming (in FY 1988) from this effort to the newly formed second area signal battalion in Korea.

III. Financial Summary (O&M: \$ in Thousands)

B. Reconciliation of Increases and Decreases

Program Increases (Continued)

e. Local Area Networks (FY 1986 Base \$861).....\$ 3,977

Local Area Networks (LANs) transport data between workstations (terminals) via a wideband transmission medium. The LANs increase overall efficiency and improve productivity in daily operations by insuring instant and reliable transmission of critical data between organizations on an installation and, in some cases, organizations in the surrounding area. The development and installation of a series of LANs throughout the Army is a multi-year project. Voice switching systems and cable plants are becoming inadequate to handle the rapidly increasing demand for local data communications. Installation of local area networks is more cost effective than expanding voice networks and are easier to modify to meet increased demand. Operation and maintenance funds are required for planned site surveys to determine specific requirements at targeted installations. In FY 1987 LANs will be installed at the following sites: HQ TRADOC, Ft. Belvoir, HQ AMC, and HQ FORSCOM. OMA funds will be used for contractor procured and installed cable systems, to upgrade existing cable systems, and to connect interface devices to these cable systems. Other Procurement Army (OPA) appropriation funds (\$1,700) will provide the automation equipment needed to operate the LANs and other equipment such as translators, remodulation devices and couplers.

III. Financial Summary (O&M: \$ in Thousands)

B. Reconciliation of Increases and Decreases

Program Decreases

a. European Telephone System (FY 1986 Base \$38,905).....\$ -7,719

Since FY 1980, the Army, in conjunction with the Federal Republic of Germany (FRG), has undertaken a program to upgrade the telephone system in Germany. The European Telephone System (ETS) upgrade program provides for the purchase of new electronic digital switches, funded through the Other Procurement, Army (OPA) Appropriation. In FY 1986 and FY 1987 the Operation and Maintenance, Army (OMA) Appropriation provides funds for site preparation, contract maintenance, project management, Dual Tone Multi-Frequency (DTMF) telephones, installation hardware, telephone operations, components and on-site testing. In addition FY 1986 and FY 1987 OMA funds provide for a cable rehabilitation program consisting of three projects to ensure that the cable will adequately support the ETS network. The tie cable upgrade project replaces cable which interconnect US government facilities with each other. These cables are part of the ETS transmission path and must be available when ETS switches are installed to allow maximum usage of the switch. The in-house cable upgrade project is necessary to meet the technical requirements of the new electronic switches, including Dual Tone Multi-Frequency telephones, and to properly connect/terminate the new systems. The on-post cable distribution systems (CDS) in the FRG have been patched, repaired, and extended with varying size of cable for years. The electronic switches will not operate effectively with such deteriorated cable switch installation. Decreased funding requirements in FY 1987 result from a rescheduling and reduction in the CDS upgrade project, offset by partial year funding for three additional Foreign National Indirect Hire spaces required for telephone operations of the European telephone system.

b. U.S. Army Forces Command Relocation (FY 1986 Base \$400).....\$ -400

The FY 1983 Military Construction Appropriation Bill approved Military Construction. Army funds and authorized construction of a new U.S. Army Forces Command (FORSCOM) command and control facility at Fort McPherson, GA. Construction began in late 1983 and building occupancy is scheduled for June 1986, with the FORSCOM WWMCCS-ADP site designated as a primary occupant of the new facility. In order to relocate the WWMCCS ADP equipment and supporting peripheral equipment, contractual support is required to develop and engineer a movement plan for the existing communications equipment located at Fort Gillem, GA. In addition, contractor support is required to develop the technical requirements for the construction of a consolidated Technical Control Center (TCC) in a WWMCCS network control environment. Movement of the existing communications equipment to Fort McPherson. GA is expected to be completed in FY 1986.

c. Light Infantry Division (FY 1986 Base \$3,613).....\$ -687

After a review of the force structure, national strategy and the changing world situation, the Army has established the 10th Infantry Division (Light) at Fort Drum, New York and the 6th Infantry Division (Light) at Forts Wainwright and Richardson, Alaska. These light divisions will enhance the capability of the National Command Authority to respond across the spectrum of conflict, including contingencies of low intensity. To accommodate the Light Infantry Division, funds in FY 1986 provide for contractual support for cable upgrades to support building rehabilitation for initial stationing, site preparation for the communication security equipment installation and Dial Central Office (DCO) expansion. Decreased funding in FY 1987 results from a reduction in the support requirements for the cable upgrade program at Fort Drum, NY, offset by partial year funding for two additional civilian spaces required for increased telephone operations at Fort Drum, NY.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: COMMUNICATIONS, COMMAND AND CONTROL, INFORMATION SERVICES
ACTIVITY GROUP: WORLDWIDE MILITARY COMMAND AND CONTROL SYSTEM- AUTOMATIC DATA PROCESSING (WWMCCS-ADP)

I. Narrative Description:

The mission of the Worldwide Military Command and Control System (WWMCCS) is to support the National Command Authorities and the Department of Defense in planning, directing, coordinating and controlling the operations of military forces. The WWMCCS consists of command and control subsystems which enable the National Command Authority, the Chairman of the Joint Chiefs of Staff, and commanders at appropriate subordinate levels to monitor, direct and control the worldwide disposition and operations of the US Military Forces. This Activity Group provides resources for the planning, designing, developing, processing, leasing, programming and operating and maintaining automatic data processing facilities that are a part of, and in direct support of, the WWMCCS. WWMCCS-ADP facilities provide the necessary information collection and processing capabilities, procedures, decision aids and displays to support effectively the Command decision process. The goal is to achieve an integrated information management system with geographically dispersed, but mutually supportive components.

II. Description of Operations Financed:

There are two major efforts integral to the WWMCCS-ADP mission. There are on-going costs related to the operation and maintenance of the eight WWMCCS-ADP sites. These operations financed include costs incurred in day-to-day operations, salaries/benefits of civilian personnel, training, maintenance of ADP equipment, consumable and other supplies, travel, and contractual support for systems analysts and field engineer maintenance. There are also costs directed to the WWMCCS Information System (WIS). WIS is a multi-year, multi-appropriation, joint modernization program which provides for the replacement of current WWMCCS-ADP hardware and software with state-of-the-art technology in compliance with US House of Representatives reports 96-916 and 97-333. To ensure the smooth transition from WWMCCS-ADP to WIS, the Army in FY 1984 established a Project Management Office (PMO) for development and implementation of WIS at the eight Army sites. Activity areas include:

A. WWMCCS-ADP- Non-Management Headquarters Account (\$19,074). Supports the activities shown below.
Includes pay and allowances for 52 civilian personnel.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: COMMUNICATIONS, COMMAND AND CONTROL, INFORMATION SERVICES
ACTIVITY GROUP: WORLDWIDE MILITARY COMMAND AND CONTROL SYSTEM- AUTOMATIC DATA PROCESSING (WWMCCS-ADP)

II. Description of Operations Financed: (Continued)

1. US Southern Command (\$324). Provides the Commander-in-Chief Southern Command with data processing capabilities in support of day-to-day operations for command and control in the Panama Canal Zone and other areas under his jurisdiction. Includes pay and allowances for 6 civilian personnel.
2. Military Traffic Management Command (MTMC) (\$9,028). Provides for mobilization essential ADP equipment and software for the WWMCCS Intercomputer Network, for interface between MTMC and the Joint Deployment Agency to support an automated system for unit moves, and to support mobilization contingency planning, and MTMC responsibilities as the Department of Defense single transportation manager. In addition, funds are provided to reimburse the Army Industrial Fund for a pro rata share of the entire ADP operation to include personnel time sharing.
3. US Army Western Command (\$71). Provides for equipment maintenance of a WWMCCS-ADP front-end processor in support of Army Pacific Command and Control requirements.
4. US Army War College (\$1,094). Provides for an alternate WWMCCS-ADP site in support of the Headquarters Department of the Army Command Support Activity (WWMCCS-ADP Management Headquarters Account, paragraph B.1. below). Includes pay and allowance for 2 civilian personnel.
5. US European Command (\$4,489). Provides the US European Command with day-to-day operations and maintenance of WWMCCS-ADP in support of command and control tasking by the Office of the Joint Chiefs of Staff and the National Command Authority. Included in the tasking is production of the Single Integrated Operations Plan (SIOP) for nuclear control and release, and Cruise Missile Control. Includes pay and allowance for 6 civilian personnel.
6. US Army Forces Command (\$4,068). Provides for day-to-day operations and maintenance of WWMCCS-ADP in support of command and control. Supports Army forces requirements for the Joint Deployment Agency (JDA) standardized system for planning, executing and monitoring and the mobilization and deployment of Army military forces and materiel. Includes pay and allowances for 38 civilian personnel.

B. WMMCCS-ADP- Management Headquarters Activities (\$4,594). Supports the activities shown below. Includes pay and allowances for 47 civilian personnel.

1. US Army Headquarters Command and Control Support Activity (\$2,261). Provides for day-to-day operations and maintenance of WMMCCS-ADP in support of command and control to Headquarters, Department of the Army in the mobilization, deployment and sustainment of Army forces. Includes pay and allowances for 32 civilian personnel.

2. US Army Europe (\$2,333). Provides for day-to-day operations and maintenance of WMMCCS-ADP in support of command and control for US Army Europe and provides for interface capability with Central Army Group (CENTAG) to expedite command and control of deployed forces. Includes pay and allowances for 15 civilian personnel.

C. Army WMMCCS Information System (\$20,598). Provides for planning, design, development and implementation in direct support of Army modernization to the WMMCCS Information System (WIS). Includes pay and allowances for 28 civilian personnel.

III. Financial Summary (O&M: in Thousands)

B. Reconciliation of Increases and Decreases

Program Increases

a. WWMCCS Information System (WIS) (FY 1986 Base \$11,165)\$ 8,755

WIS is a joint modernization program which provides for the replacement of current WWMCCS-ADP hardware and software with state-of-the-art technology. To ensure the smooth transition from WWMCCS-ADP to WIS, in FY 1984 the Army established a Project Management Office (PMO) for development and implementation of WIS at the eight Army sites. Operation and Maintenance, Army (OMA) resources provide for contractual support emphasizing planning issues and development methodologies critical to the WIS. This support includes contractual support for WIS program planning and analysis, system engineering, and transition engineering; support for definition of command and control information requirements and development of a data definition/dictionary. OMA funds also provide pay and allowances for 28 civilian personnel, travel, and supplies and materials for the PMO; and equipment maintenance for Common User Subsystem (CUS) equipment procured with Other Procurement, Army (OPA) funds. Increased OMA funds in FY 1987 provide additional contractual support for definition of management information systems interface requirements, and full year costing of equipment maintenance for Common User Subsystem (CUS) equipment.

III. Financial Summary (O&M: \$ in Thousands)

B. Reconciliation of Increases and Decreases

Program Increases (Continued)

b. Additional WWMCCS-ADP Manpower Requirements (FY 1986 Base \$238).....\$ 139

The WWMCCS-ADP site in US SOUTHCOM is being upgraded from a remote site to a major WWMCCS mode. Manning requirements for computer operations will increase because, as a node, the equipment must be operated 24 hours a day, seven days a week, instead of the present five day schedule. In FY 1987 US SOUTHCOM manning will increase by 1 officer, 4 enlisted and 4 civilians to support such functions as database management, equipment management, contract management and systems programming. In addition, the HQ USEUCOM staff is being increased 4 officers and 1 civilian in FY 1987 for planning, coordination, development and integration of WWMCCS Information System (WIS) among European theater components, NATO and SHAPE. The increased funding in FY 1987 provides partial year funding of the civilian salaries.

c. Civilian Substitution (FY 1986 Base \$244).....\$ 63

The civilian substitution program converts military Table of Distribution and Allowance (TDA) positions to civilian positions. Retains military end strength while increasing readiness through assignment of released military personnel to higher priority force structure needs. In FY 1987 four military spaces performing WWMCCS-ADP functions will be converted to civilian spaces. FY 1987 resources provide partial year funding of the civilian salaries.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: COMMUNICATIONS, COMMAND AND CONTROL, INFORMATION SERVICES
ACTIVITY GROUP: TRAFFIC CONTROL, APPROACH AND LANDING SYSTEMS (TRACALS)

I. Narrative Description

This Activity Group provides air traffic control and landing resources to support normal recurring operating costs necessary to support the Army Aviation Program and to accomplish the tactical and non-tactical air traffic control mission worldwide. The objectives are to achieve management and operational efficiencies through the process of standardization of communication equipment and navigation aids and the centralized management of manpower and financial resources. In addition, provides resources for engineering, design development, installation, flight information and maintenance of navigational maps, charts, records, statistics and flight plans.

II. Description of Operation Financed

A. Air Traffic Control-Tactical (\$2,547). Provides for support of all Army Tactical Air Traffic Control/Ground Control Approach Radar System Activities. The activity emphasizes mobilization and support of the Army's tactical mission. Includes control of aircraft on the ground and in the airspace adjacent to the tactical location; operation of navigational facilities; ground control approach radar system; inspection tests, and organizational maintenance of air traffic control equipment and systems; maintaining navigational maps, charts, and statistics pertaining to air traffic control matters, flight plans, and weather and safety advisories.

B. Air Traffic Control Standardization/Improvement (\$2,574). The Standardization/Improvement Program is an ongoing program providing for the correction of Air Traffic Control deficiencies resulting from outdated and inadequate communications equipment and navigational aids. Provides for cost of site preparation, bill of materials, and installation materials for standardization and improvement projects at worldwide locations in support of air traffic control communications system.

C. Fixed Base Air Traffic Control Support (\$25,279). Provides support for all Army fixed base air traffic control operations, and for the Aeronautical Service Office, which is the Department of Army representative to Department of Defense, inter-agency, and international aviation activities. Includes control of aircraft on the ground and in the airspace adjacent to the installation; operation of navigational facilities; ground control approach radar system; inspection tests, and organizational maintenance on air traffic control equipment and systems; maintaining navigational maps, charts, and statistics pertaining to air traffic control matters, flight plans and weather, and safety advisories. Finances pay and allowances for 599 civilian personnel.

III. Financial Summary (O&M: \$ in Thousands)

B. Reconciliation of Increases and Decreases

Program Increases

a. Civilian Substitution (FY 1986 Base \$ 1,767).....\$ 54

Converts military Table of Distribution and Allowances (TDA) positions to civilian positions. Retains the programmed military end strengths while increasing readiness through assignment of released military personnel to higher priority force structure needs. In FY 1987 two military spaces will be converted to civilian spaces to support such air traffic control functions as tower operations and operations and supervision, radar control and aviation equipment repair. FY 1987 resources provide partial year funding of the civilian salaries converted in FY 1987 and annualization of 2 civilian workyears converted in FY 1986.

b. Light Infantry Division (FY 1986 Base \$0).....\$ 540

After a review of the force structure, national strategy and the changing world situation, the Army has established the 10th Mountain Division (L) at Ft. Drum, New York and the 6th Infantry Division (L) at Forts Wainwright and Richardson; Alaska. These light divisions will enhance the capability of the National Command Authority to respond across the spectrum of conflict, including contingencies of low intensity. To accommodate the 10th & 6th ID (L) funds in FY 1987 (\$540) are required to support 32 personnel end strength and 16 workyears to man and perform ground control radar functions at the Air Traffic Control Towers at Wheeler Sack Army Airfield, Ft. Drum; Wainwright Army Airfield, Ft. Wainwright and Bryant Army Airfield, Ft. Richardson, Alaska.

III. Financial Summary (O&M: \$ in Thousands)

B. Reconciliation of Increases and Decreases

Program Decreases

a. Flying Hour Program (FY 1986 Base \$ 875).....\$ -100

The Flying Hour Program (FHP) provides resources for training of the Army's Aviation force. Operation and Maintenance funds in FY 1986 (\$875) and in FY 1987 (\$775) are required for spare parts and POL. These aircraft are used to test new navigational aids or landing equipment. The decreases in funding is due to a decrease in the FY 1987 aircraft fuel rate.

b. Flight Operations Center (FOC)/ Flight Communications Center (FCC) (FY 1986 Base \$321).....\$ -321

Four Flight Operations Center (FOC)/ Flight Communication Center (FCC) remote sites in Korea (FOC South, FOC North, FCC Warrior and FCC Evenreach) will be consolidated to permit monitoring from a central location at Yongsan. The four remote sites monitor weather, schedules, flight routes and traffic for more than 360,000 aircraft each year. Their control prevents aviation accidents due to weather and traffic, international incidents at the borders, and permits rapid initiation of searches for late and missing aircraft. The equipment installed in the consolidation effort will provide added coverage to Beacon Microwave Site, which expand radio coverage to areas currently out of range. In FY 1986 a one-time cost of \$321 was required to purchase installation material perform site preparation, and for contract installation of cable.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: COMMUNICATIONS, COMMAND AND CONTROL, INFORMATION SERVICES
ACTIVITY GROUP: INFORMATION SERVICE SUPPORT

I. Narrative Description:

The Information Service Support activity group provides resources in support of the design, acquisition, installation, testing, acceptance and management of information systems for the Army.

II. Description of Operations Financed:

- A. Information Program Management. (\$61,654) Provides resources required for the management of information systems or projects and finances staff supervision at major Army command and installation levels of information management activities. Includes pay and allowances for 1,752 civilian personnel.
- B. Information Management Mission Data Processing Facilities. (\$3,403) Finances analysis, design, programming, operation and maintenance of computer systems in support of mission data processing facilities. Includes pay and allowances for 376 civilian personnel.
- C. Information Management-Regional Data Centers. (\$79,711) Finances the operation of the Army's regional data centers. Includes pay and allowances for 57 civilian personnel.
- D. Information Systems Selection Acquisition Activities (\$4,276) Finances the operation of the US Army Information Army Information Systems Selection Acquisition Agency (ISSAA). Includes pay and allowances for 69 for civilian personnel.
- E. Information Management-Central Software Design Activities (\$123,440) Provides resources for the operation of organizations, or segments thereof, responsible for the design, coding, testing, documenting and subsequently maintenance/modifying computer operating or applications programs developed for use by the Army. Includes pay and allowances for 1,287 civilian personnel.

III. Financial Summary (O&M: \$ in Thousands)

B. Reconciliation of Increases and Decreases

Program Increases

a. Tactical Army CSS Computer System (TACCS) (FY 1986 Base \$29,605).....\$ 2,457

TACCS is a ruggedized, transportable, user-friendly, commercially available computer system to be used on the battlefield for Combat Service Support (CSS) missions at various levels of command down to battalion. Applications systems functioning on TACCS will include personnel, supply, maintenance, medical, ammunition and transportation. The TACCS will be operated by military personnel of various grades and ADP skill levels and by functional clerks who have no prior computer programmer or operator training. In FY 1986 and FY 1987 funds are required for transportation of the TACCS to the field, training support, and hardware maintenance for the 1,680 TACCS being fielded in FY 1986 and 3,000 being fielded in FY 1987. In addition funds are required for civilian salaries to support 59 end strength/ 59 workyears in FY 1986 and 68 end strength/ 72 workyears in FY 1987, for contractual support for software maintenance and modification on the applications systems functioning on TACCS. Additional funds in FY 1987 are necessary to field and sustain the additional 3,000 TACCS systems that will be fielded in FY 1987.

b. Corporate Data Base (FY 1986 Base \$ 1,662)..... \$ 3,312

The Army Corporate Database (ACDB) is a project which structures, integrates, and synchronizes the data needed to manage the Army more effectively and efficiently. The ACDB will provide decision-makers and senior leadership at all levels with responsive access to accurate, up-to-date data and information that is fully integrated across functional areas and between levels of command. The single database system concept will improve data accuracy and efficiency by eliminating redundant information created and stored in multiple, uncoordinated databases. The ACDB will also greatly reduce the level of effort required to maintain and operate the current scope of Standard Army Multi-Command Management Information Systems (STAMMIS) and many functional sub-systems. Construction of the ACDB involves the vigorous execution of a comprehensive data element standardization program; the incorporation of the latest hardware, software, and DBMS technologies in the design and operation of the ACDB; and a rigorously controlled data quality program. The FY 1987 Operation and Maintenance Army (OMA) funds are needed for contractor support to engineer the upgrade of existing Database Management Systems (DBMS), purchase DBMS for those data processing installations, (DPI) without them, and facilitate data transfer between DPI and Regional Data Centers (RDC). Furthermore, funds are required for on-site surveys to analyze communications requirements, to plan the migration of existing file base systems and programs into DBMS applications, and for the development of a data encyclopedia which creates a single Army data dictionary and directory for all automated Army data.

B. Reconciliation of Increases and Decreases

Program Increases (Continued)

c. Vertical Installation Automation Baseline (VIABLE) (FY 1986 Base \$ 76,719).....\$ 4,132

The VIABLE project is a modernized, fully integrated, interactive ADP capability for Army base operations installations. In FY 1982 the Army began contractor operation and maintenance of 5 Regional Data Centers (RDC) that support 47 base operations sites. The VIABLE project supports the Standard Army Multi-Command Management Information System (STAMMIS) logistical, personnel, financial and facilities management systems for the base operations installations. The RDC's are all interconnected to provide backup capability should an RDC have problems and provide terminal access to the data base and printouts to each site. In FY 1986 and FY 1987 funds are required for the following: continued contractor supported operation and maintenance of the current 5 RDC's for Army support teams at each RDC which act as the interface between the Army and the contractor for problem solving, password verification and security matters; an additional 4 Data Processing Centers (DPC) for the Army Materiel Command; and for software conversion of the major command standard systems in Europe, necessary for extension of VIABLE to Europe in FY 1987. Increased funding requirements in FY 1987 results from partial year funding for the operation of 1 additional RDC to support the extension of VIABLE to Europe, partial year funding of one civilian salary, and decreased contractual support for software conversion requirements initiated in FY 1986. This RDC will support 14 addition sites in Europe and will provide enhanced automation capability, promote standardization of Army management systems and increase the capabilities of the VIABLE network.

III. Financial Summary (O&M: \$ in Thousands)

B. Reconciliation of Increases and Decreases

Program Increases (Continued)

d. Financial System Automation Support (FY 1986 Base \$0).....\$ 4,057

This multi-year program provides for additional hardware, data storage and other computer upgrades at the five Vertical Installation Automation Baseline (VIABLE) Regional Data Centers (RDCs) required for VIABLE to support automated financial systems. The VIABLE hardware configuration was originally sized to accommodate 42 standard software systems running at a stipulated workload level. To allow for additional software systems and workload expansion, the RDCs began operation in April 1982 running 2 shifts, 5 days a week. However, due to increased automation demands the RDCs currently operate 3 shifts, 7 days a week. To support the addition workload requirement of the automated financial systems, Other Procurement, Army (OPA) funds of \$7,000 in FY 1987 will provide the necessary hardware upgrades at the RDCs. The FY 1987 Operation and Maintenance, Army (OMA) funds of \$4,057 will provide for partial year equipment maintenance, RDC supplies, and contract support necessary to modify the software systems to operate efficiently on the VIABLE hardware. This upgrade will allow the VIABLE RDCs to support the following systems: the Standard Army Financial System (STANFINS), STANFINS Redesign, Standard Army Civilian Pay System (STARCIPS), STARCIPS Redesign, Non-Appropriated Fund Information Standard System (NAFISS), and Standard Army Finance Inventory and Accounting System (STARFIARS).

B. Reconciliation of Increases and Decreases

Program Increases (Continued)

- e. Standard Army Multi-Command Management Information System
(STAMMIS) Maintenance and Modification (FY 1986 Base \$35,615).....\$

279

This initiative provides contractual support for software modification, documentation, programming, testing and management of STAMMIS financial, personnel, logistical and engineering systems currently in operation. System modification and maintenance is required to keep operational systems current and to provide timely response to change requirements generated by changes in Army policy, regulatory guidance and technology upgrades.

In FY 1986 funds are required to initiate the design, program, and installation of major regulatory functional changes such as the new modified "one fund" structure in the Non-Appropriated Fund Installation Standard System (NAFISS), the new civilian retirement system requirement in the Standard Army Civilian Payroll System (STARCIPS), a mandated technical restructuring of the Standard Financial Inventory Accounting and Reporting System (STARFIARS), and fielding The Output Oriented Resource Management System (OORMS) in support of Management Decision Packages for the Standard Finance System (STANFINS). In FY 1987 additional resources are required to continue design and programming efforts, as well as provide for contract support necessary to meet verification, validation and mandatory testing requirements. These independent verification and validation procedures are executed in parallel with the software development activities to identify problems and discrepancies which must be corrected to ensure software reliability.

B. Reconciliation of Increases and Decreases

Program Increases (Continued)

f. Corps Theater ADP Service Center (CTASC) (FY 1986 Base \$1,910).....\$ 3,929

The Corps Theater ADP Service Center (CTASC) is a mobile ADP system designed and built to provide a "go to war" capability for critical theater level ADP systems. It is the Army's largest survivable system using commercial central processing units, disk drives and other ADPE peripherals integrated into two 35 foot semi-trailer vans. It is intended to receive input from numerous sub-installations for consolidation at theater level, and in this mode, it will process selected Standard Army Multi-Command Management Information Systems (STAMMIS) and provide continuity of operations capability in a tactical environment. In FY 1986, \$1,910 is required for equipment maintenance and contractual support necessary to enhance the STAMMIS systems operating on CTASC to provide for interactive processing capabilities and better utilization of system features. Additionally, the software systems currently being processed at Corps level must undergo a transition before they can be processed on CTASC hardware due to differences in operating requirements. In FY 1987 an additional \$3,929 is required for equipment maintenance, continuation of contract software enhancements, testing, verification, validation and evaluation of transitioned and enhanced software packages, and unique software training requirements.

III. Financial Summary (O&M: \$ in Thousands)

B. Reconciliation of Increases and Decreases

Program Increases

g. Artificial Intelligence Center (FY 1986 Base \$0).....\$ 3,585

The Artificial Intelligence (AI) Center is an initiative to develop and apply the integration of decision science, computer science, engineering and related disciplines. The AI Center effort involves application of AI/Knowledge Base System (KBS) technology to current management problems. This application will provide senior level decision making support through improved information management techniques and Integrated Army Decision Systems and Data Bases. The AI Center is being established to serve as the conduit and proponent for the application of AI technology, and to formulate and execute plans and application tailored to the Army. This differs from other Department of Defense efforts in AI which are exploratory, long term and involve basic research. FY 1987 funds will provide maintenance of hardware and software systems, training support, acquisition of software packages, and contractor support for management and technical support services to develop Expert Systems plans and prototypes. The Expert Systems plans will allow Army staff personnel, with minimal computer literacy to prepare programs on highly specialized topics.

B. Reconciliation of Increases and Decreases

Program Increases (Continued)

h. Standard Army Multi-Command Management Information Systems (STAMMIS) Redesign (FY 1986 Base \$0).....\$ 2,605

STAMMIS redesign is a multi-year effort which modifies and expands four STAMMIS systems: Standard Army Maintenance System (SAMS), Standard Army Retail Supply System (SARSS), Standard Property Book System (SPBS), and Integrated Facilities System (IFS). The SAMS redesign effort consists of the development and fielding of a new module to provide maintenance management data for equipment in TDA units. The redesign of SARSS will automate the non-time sensitive supply management functions which will operate on the Corps Theater ADP Service Center (CTASC). The SPBS redesign effort will extend the system to the field for operation on Tactical Army CSS Computer System (TACCS) hardware. The expansion of IFS will improve the Army's real property inventory by including modules covering facility planning and new construction. The FY 1987 Operation and Maintenance, Army (OMA) funds will provide contractor support for software development, modification, verification, validation and mandatory testing requirements.

Program Increases (Continued)

i. Standard Financial Management System Redesign (STANFINS-R) (FY 1986 Base \$869).....\$ 2,919

The Standard Financial Management System Redesign (STANFINS-R) is the Army's installation-level resource management system to account for, report on, and manage Army resources. STANFINS-R consists of seven modules to be implemented in phases. Phase I will implement three of the seven modules, automating travel, commercial accounts and disbursing at the installation level. Phase II replaces the current STANFINS with the General Accounting Module and provides the installation with the ability to interface with the Program Budget, Cost Accounting and Performance Measurement modules. These additional four modules correct deficiencies identified by Installation Commanders, General Accounting Office and Army Audit Agency audit findings. In FY 1986, funds development, testing and the deployment of the Phase I subsystem, at four sites in Ft. Hood, Texas. In FY 1987 funds will be used to deploy Phase I subsystem, at an additional 40 sites and to develop and test software for the Phase II modules.

Program Increases (Continued)

j. Supercomputers (FY 1986 Base \$265)..... \$ 1,470

In order to alleviate a major shortfall in advanced computing capabilities, the Army is implementing the use of Supercomputers. With the Supercomputers, important improvements can be made in many mission areas such as vulnerability analysis, high energy laser development, and wargaming. A contract award for the first configuration is scheduled for FY 1986. Equipment delivery and installation of the first configuration site at the US Army Ballistic Research Lab is expected in FY 1987. The FY 1986 Operations and Maintenance, Army (OMA) funding supports the activities of the Supercomputer Project Management Office which include civilian salaries, contractual support, administrative, and travel. The increase in OMA in FY 1987 supports required maintenance, software conversion, limited facilities modification, and project management office operations.

B. Reconciliation of Increases and Decreases

Program Increases (Continued)

k. SIDPERS-3 (FY 1986 Base \$ 2,379).....\$ 194

The Standard Installation Division Personnel System (SIDPERS) is an active component personnel management data processing system designed to support the functions of strength accounting, organization and personnel record keeping, and personnel management reporting to all command levels. SIDPERS-3 is a redesign of the software for SIDPERS and converts it from an active component system to one which automates the National Guard and the Reserves, in addition to the active Army. Under the SIDPERS-3 concept, all components and levels of the Army will have the capability to access data using a Data Base Management System (DBMS) with full interactivity. In FY 1986 contractual support is required to develop the SIDPERS-3 Data Base portion of the DBMS and to begin to convert the current SIDPERS programs to a DBMS structure and reconstruct the programs into functional modules. In FY 1987 contractual support is necessary to continue to convert the SIDPERS programs, to implement and field the new functional modules, and to maintain both the old and new modules until all SIDPERS-3 modules have been developed and fielded.

B. Reconciliation of Increases and Decreases

Program Increases (Continued)

1. Department of the Army Movement Management System

Redesign (DAMMS-R) (FY 1986 Base \$0).....\$ 927

DAMMS-R is a Standard Army Multi-Command Management Information System (STAMMIS) designed to automate surface transportation functions at all levels of theater operations. The enhanced DAMMS is being modularly developed in a two part effort. The first module will support the daily operations aspect of movement management by preparing daily transportation report, orders, and convey route instructions. The second module will support the planning aspect of movement management and provide a theater transportation network analysis module. DAMMS-R will operate on three levels of automatic data processing equipment, including the Corps Theater ADP Service Center (CTASC), Decentralized Automated Service Support System (DAS-3) and the Tactical Army CSS Computer System (TACCS). Computer Systems Command (CSC) began this contractual software redesign effort in FY 1984 utilizing Program 2 General Purpose Forces funds. Funding in this program continues in FY 1986 in the amount of \$927. The reorganization of the Computer Systems Command (CSC) and the establishment of the Information Management Command (ISC) has resulted in the consolidation of management responsibility for software development under Program 3 Communications and Information Service Support. Increased funding for this initiative results from the transfer of funding responsibility from Program 2 General Purpose Forces to Program 3 Communications and Information Service Support, for contractual support for software development of DAMMS-R.

Program Decreases

a. Unit Level Logistic System (FY 86 Base \$ 10,000)..... \$ -5,000

The Unit Level Logistic System (ULLS) application software will provide for the automation of logistics functions at the company level and will interface with Combat Service Support (CSS) Standard Army Multi-command Management Information Systems (STAMMIS). ULLS will serve as the focal point for CSS processing at the company level by automating the requisition, receipt, storage, and issue supply functions. Also, necessary equipment status information will be recorded and retrieved for readiness reporting. Bar coding technology will be integrated wherever required, and various functions/documents will be automated under a user friendly, menu-driven format to simplify data entry and retrieval processing. In FY 1986, Operation and Maintenance, Army (OMA) funds are required for contractual support for software development necessary to make existing logistic software packages compatible with the smaller company level computers and to purchase the executive software necessary needed to run the company level computers. In FY 1987, decreased funding requirements result from the decreased number of executive software packages required to be purchased and a reduction of the software development efforts for the logistic software packages being converted to the company level computers.

b. Standard Army Automated Contracting System (SAACONS) (FY 1986 Base \$4,000)..... \$-1,566

The Standard Army Automated Contracting System (SAACONS) is a microcomputer with a commercial software based system designed to automate the 256 Army Installation Contracting offices worldwide. SAACONS will significantly increase productivity and efficiency in the operations of installation contracting offices by automating the entire spectrum of contracting functions, contract document processing, preparation of purchase orders, tracking all contractual actions and preparing management reports. This system responds to Executive Order 12352 of March 17, 1982, subject: Federal Procurement Reform, which recommended the development of a standardized government-wide procurement system. FY 1986 and FY 1987 funding provides for software acquisition, software development and maintenance, equipment, training at installations and hardware maintenance. In FY 1986, 20 installations will be fielded, with an additional 26-30 installations being fielded in FY 1987. Decreased funding requirements in FY 1987 result from the completion of software acquisitions and a reduction of the software development efforts required for SAACONS.

c. Decentralized Automated Service Support System (DAS3) (FY 1986 Base \$17,684).....\$ -10,066

DAS3 is a mobile minicomputer configuration housed in a standard military van which provides automatic data processing support at Division, Separate Brigade, Corps and Theater Army levels. The DAS3 processes a variety of Standard Army Multi-Command Management Information System (STAMMIS) in support of logistics, medical, personnel and financial applications. In FY 1986, the final 14 DAS3 systems will be fielded increasing the total number of DAS3 systems to be sustained in FY 1987 to 329. The FY 1986 Operation and Maintenance, Army (OMA) are required for fielding of the 14 DAS3, to include transportation of the DAS3 to the field, initial training support and hardware maintenance. In addition FY 1986 and FY 1987 funds provide for the sustainment of the DAS3 systems, including software maintenance and modification, civilian salaries to support 157 end strength/146 workyears in FY 1986 and 96 end strength/79 workyears in FY 1987, and for contractor support for major system problems. Decreased funding in FY 1987 results from the completion of the fielding of DAS3 in FY 1986 and reduction of 67 civilian workyears.

ACTIVITY GROUP: COMMUNICATION SECURITY (COMSEC)

I. Narrative Description:

The Communications Security (COMSEC) effort is aimed at denying hostile forces the ability to derive national security related information from classified and unclassified communications, as well as preventing the enemy from disrupting such communications. COMSEC activities are required to protect telecommunications, acoustic and optical emissions, and other non-communications related emissions. The Operation and Maintenance appropriation provides resources for the Army's Signal Security program to include TEMPEST* testing; crypto facility inspections, monitoring and analyses and COMSEC logistical support in CONUS and overseas. The logistical support includes storage, issue and maintenance and ancillary items.

II. Description of Operations Financed:

Resources provide for the pay of civilian personnel, travel and temporary duty expenses of civilian and military personnel performing TEMPEST and other COMSEC functions, operation and maintenance expenses such as repair parts, supplies, materials and equipment replacement. Activity areas include:

A. US Army Materiel Command (AMC) (\$21,306): Army COMSEC logistics is managed by the US Army COMSEC Logistic Activity (CSLA) at Fort Huachuca, Arizona. CSLA is concerned with the requirements determination, distribution and disposal of COMSEC material, parts cataloging, modification procedures and operation of the Army Central Office of Record for COMSEC material. Organizational elements of the CSLA contain the COMSEC National Inventory Control Point (NICP) and the COMSEC National Maintenance Point (NMP). The COMSEC storage and maintenance facility is located at Lexington Blue Grass Depot Activity (LBDA), Lexington, Kentucky. This wholesale support finances pay and allowances for 226 civilian personnel, and funds for NICP operations, NMP operations, and the Army industrially funded depot activities of receipt, issue, storage and overhaul of COMSEC equipment.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: COMMUNICATIONS SECURITY (COMSEC)
ACTIVITY GROUP: COMMUNICATIONS SECURITY (COMSEC)

II. Description of Operations Financed (Continued):

B. US Army Information Systems Command (USAISC) (\$1,498): Overseas logistical support consists of Theater COMSEC Logistic Support Centers (TCLSC) which support theater Army commands and combine the functions of a theater inventory control center and a theater depot; COMSEC Logistic Support Centers (CLSC) which support a field Army or equivalent force; and COMSEC Logistic Support Units (CLSU) which provide maintenance support to lower echelons. These units perform the function of receipt, storage and issue, of COMSEC inventory management stock control; direct and general support maintenance on COMSEC equipment and operating a direct exchange activity for the repair and replacement of printed wiring assemblies and repairable modules. Includes pay and allowances for 13 civilian personnel.

C. US Army Intelligence and Security Command (\$2,480): The Army Intelligence and Security Command (INSCOM) evaluates the vulnerability of operational facilities, and provides technical TEMPEST guidance to the facility commanders. INSCOM maintains a TEMPEST testing laboratory and ten field test teams. The TEMPEST test laboratory, located at Vint Hill Farms Station, Virginia, performs controlled environment TEMPEST tests on off-the-shelf commercial information processing equipment used by the Army, and provides technical support to the field teams. Each field team tests operational facilities within its area. The goal of the Army is to provide a TEMPEST test of all Army telecommunications facilities every three years. Includes pay and allowances for 25 civilian personnel.

* TEMPEST is not an acronym but is the term used by the National Security Agency for compromising emanations from equipment such as reproduction equipment.

Program Increases

a. Civilian Substitution (FY 1986 Base \$0).....	\$	52
Converts military Table of Distribution and Allowances (TDA) positions to civilian positions. Retains the programed military end strengths while increasing readiness through assignment of released military personnel to higher priority force structure needs. In FY 1987 three military spaces performing COMSEC logistic functions will be converted to civilian spaces. FY 1987 resources provide partial year funding of the civilian salaries.		
b. TEMPEST Testing (FY 1986 Base \$ 1,329).....	\$	52
The Army maintains a laboratory, located at Vint Hill Farms Station, VA, to perform controlled environment TEMPEST test and provides for ten field teams to test for compromising emanations on off-the-shelf commercial information processing equipment used by the Army. The test workload has continued to grow as a result of the increased use of automation for processing information. To better meet the Army goal of providing for TEMPEST field testing of all Army telecommunications facilities every three year's three additional civilian spaces will be provided in FY 1987 to conduct on-site tests. Increased funding in FY 1987 provides for partial year funding of the civilian salaries.

Program Decreases

Test Measurement and Diagnostic Equipment Calibration (FY 1986 Base \$20).....\$ -20

To ensure the accuracy and reliability of TEMPEST test results, diagnostic equipment is periodically calibrated and tested. The funding for Test Measurement and Diagnostic Equipment (TMDE) calibration and testing is being consolidated in Program 7-Maintenance, beginning in FY 1987. Decreased funding results from a transfer of funding for the maintenance of TEMPEST test equipment to Program 7-Maintenance.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: COMMUNICATIONS
ACTIVITY GROUP: BASE OPERATIONS

I. Narrative Description: This budget activity provides for the operation and maintenance of installation support activities, less real property maintenance activities, to support Base Operations at Fort Huachuca, AZ; Fort Ritchie, MD; and Vint Hill Farms, VA. The FY 1987 request totals \$49.9 million which includes a \$.3 million net program increase and \$.4 million in price growth. Major areas of program growth include an expansion of the Army Family Program (\$.4 million), continued replacement of Military in the Commercial Activities Program (\$.2 million), implementation of a Drug Suppression Program (\$.1 million) and continuation of the Civilian Substitution Program (\$.2 million), offset by an overall reduction in the Base operating support levels (\$.7 million).

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000):

- A. Supply Operations (\$3,793): Finances the Office of the Director of Logistics and operation of post supply. Includes the operation of self-service centers, and clothing issue points. Finances pay and allowances for 67 civilian personnel.
- B. Maintenance of Materiel (\$6,736): Finances Direct and General Support Maintenance of Support Systems such as aircraft, vehicles, and installation equipment. Finances pay and allowances for 37 civilian personnel.
- C. Transportation Services (\$3,800): Finances the operation of local (installation) non-tactical motor transportation service to include government-owned vehicles and rented or leased commercially-owned vehicles. Finances pay and allowances for 24 civilian personnel.
- D. Laundry and Dry Cleaning Services (\$377): Finances operation of laundry and dry cleaning plants and contracting for such services where Army-owned plants are not operated.
- E. Army Food Service Program (\$2,162): Finances operation and administration of food supply and food preparation facilities, and dining facilities. Finances pay and allowances for 26 civilian personnel.
- F. Personnel Support (\$4,883): Finances base personnel administration and related programs such as command information, alcohol and drug abuse and reenlistment activities. Finances pay and allowances for 205 civilian personnel.

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000)
(Continued):

G. Unaccompanied Personnel Housing Operation, Administration, and Furnishings (\$705): Finances the purchase, control, moving, and handling of housing furnishings for unaccompanied personnel officer quarters, and bachelor enlisted quarters. Finances the operation and administration of all unaccompanied personnel housing. Finances pay and allowances for 20 civilian personnel.

H. Administration (\$2,653): Finances all activities concerned with the headquarters command and administration of the installation; and other installation-wide activities not otherwise financed. Finances pay and allowances for 24 civilian personnel.

I. Automation Activities (\$7,716): Finances base automation operations, automation security, word processing and office reproduction. Finances pay and allowances for 2,093 civilian personnel.

J. Community and Morale Support Activities (\$5,177): Finances the development, staffing, equipping, administration and operation of installation libraries, sports programs, Army Community Service Activities, Child Support Services and separate Army bands. Finances pay and allowances for 123 civilian personnel.

K. Preservation of Order (\$1,827): Finances military police services to include military police operations, security operations and operation of physical security equipment. Finances pay and allowances for 110 civilian personnel.

L. Directorate of Resource Management (\$4,290): Finances the administration of all resource management functions such as finance and accounting, programming and budgeting, management analysis, productivity analysis, Commercial Activities and efficiency review programs. Finances pay and allowances for 225 civilian personnel.

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000)
(Continued):

M. Directorate of Plans, Training and Mobilization (\$1,665): Finances the management of training facilities, training aids, range operations, BASOPS Flying Hour Program, museum activities, and mobilization support. Finances pay and allowances for 44 civilian personnel.

N. Director of Contracting/Contracting Division (\$2,848): Finances the administration of contracts and purchases for the installation. Included are functions such as preparation of performance work statements, quality assurance and the contract audit tracking program. Finances pay and allowances for 83 civilian personnel.

O. Security and Counterintelligence Operations (\$241): Finances the management of security counterintelligence and planning functions at the installation. Finances pay and allowances for 11 civilian personnel.

P. Records Management, Publications (\$1,013): Finances the operation of records management, records holding areas, mail distribution centers, printing plants, and printing and reproduction of publications. Finances pay and allowances for 32 civilian personnel.

Program Increases

- | | | |
|----|---|-----|
| a. | Army Community Service (ACS) (Base: \$230).....\$ | 325 |
| | Additional contract funding is provided to fully implement the exceptional family member, financial planning and assistance, and family member employment programs at all ACS Centers. ACS Centers will implement a contract outreach program designed to export social services to family members residing off post, often in isolated locations. First term families will be the primary target for this program. These "family programs" will significantly improve the support provided by the ACS Centers. | |
| b. | Child Development (Base: \$0).....\$ | 124 |
| | Additional contract funding is provided for first line supervisors of care givers at all existing child development centers. Increased contract resources are provided to expand the quarters based child development program at all installations and to implement an after school program to supervise the activities of children who traditionally return from school to an empty home. These "family programs" will significantly improve the quality of child development services throughout the Army. | |
| c. | Civilian Substitution (Base: \$1,230).....\$ | 247 |
| | Resources support program to convert Military Table of Distribution and Allowance (TDA) positions to civilian positions. The reassignment of replaced military end-strengths to higher priority force structure needs | |

III. Financial Summary (\$ in Thousands) (Continued):

B. Reconciliation of Increases/Decreases (Continued)

Program Increases (Continued)

provides increased readiness and better utilization of available military authorizations. The FY 87 program supports 9 civilian spaces and 9 work-years.

d. Civilian Personnel Offices (CPO) (Base: \$3,841).....\$ 33

Resources support increasing Manning levels from 82% to 87% at civilian personnel offices as validated by the Army's Manpower Staffing Standards (MS-3). This increase will enable Army CPO's to meet workload levels which have expanded to support added requirements such as Commercial Activities/Army Performance Oriented Review System (CA/APORS) studies, increased job grading accuracy, increased suggestion program etc. The increase provides funding to support 3 additional civilian personnel.

e. Commercial Activities Military Replacement (Base: \$0).....\$ 223

Resources support conversion of military manpower now working in commercial functions being cost studied through the CA program. These commercial functions include administrative support, installation support, food and recreational services. At the end of any cost study, regardless of the competition outcome (in-house or contract) the military manpower are withdrawn by HQDA for reallocation and either civilians or contract staff are provided in their place. Conversions are programmed only for cost studies where the military comprise at least 20% or more of the studied functions workforce. These funds provide for converting 15 military spaces at Information Systems Command.

III. Financial Summary (\$ in Thousands) (Continued):

B. Reconciliation of Increases/Decreases (Continued)

Program Increases (Continued)

f. Drug and Alcohol Testing (Base: \$0).....\$ 98

Funds state of the art technology to allow local commanders to conduct preliminary drug testing, with follow on confirmation at laboratories, for marijuana, cocaine and amphetamines. Current procedures require that soldiers be withheld from duty pending laboratory analysis of standard drug tests. With Unit Level Drug Testing commanders will use portable drug test kits to determine which soldiers can be immediately returned to duty and which soldiers require further testing and analysis by Army labs. The quick return of non drug users to duty stations will result in a direct increase in unit morale and a quantifiable increase in unit and combat readiness.

Total Civilian	1,150	3,170	3,124
Total End Strength	1,941	4,392	4,296

Military: The net decrease of 50 spaces in FY 87 is associated with civilian substitution (-9), Command Realignments (-4); and Organization Effectiveness support (-2); force structure (+2), Realign Information Resources (-19), Morale, Welfare and Recreation Military End Strength Reduction (-3) and Commercial Activities Military Replacement (-15).

Civilian: The net decrease of 46 spaces in FY 87 results from the identification of civilian spaces to be contracted out, (-47), Information Management System Realignment (-26) offset by increases in civilian substitution (+9), upgrade of civilian personnel office (+3) and Commercial Activities Military Replacement (+15).

I. Narrative Description (Statement of Requirements and Mission)

This budget activity provides Real Property Maintenance Activities (RPMA) support for the U.S. Army Information Systems Command (ISC) at Fort Huachuca, Arizona and Fort Ritchie, Maryland, and for the U.S. Army Intelligence and Security Command (INSCOM) Communication facility at Vint Hill Farms, Virginia.

II. Description of Operations Financed

A. Funds provide support in four functional areas of Real Property Maintenance Activities. These functional areas are:

1. Operation of Utilities (\$9,804). Finances expenses for procurement and distribution of utilities for ISC installations and Vint Hill Farms, Virginia. Included are purchased utilities, purchased water, operation of water plants and distribution systems, and sewage and waste systems. Finances pay and allowances for 55 civilian personnel.

2. Maintenance and Repair of Real Property (\$24,725). Finances maintenance and repair of buildings, structures, grounds, and utilities systems at ISC installations and Vint Hill Farms, Virginia. Includes pay and allowances for 188 civilian personnel. The FY87 request will cover the annual maintenance and repair requirements and reduce the Backlog of Maintenance and Repair (BMAR) by \$5.8 million.

3. Minor Construction (\$2,541). Finances the erection, installation or assembly of a new facility, or the addition, expansion, alteration or conversion of an existing real property facility when project costs do not exceed \$200 thousand. A total of 36 projects are planned.

4. Engineer Support (\$8,512). Finances general facilities engineering services such as fire protection, custodial services, pest control, refuse collection and disposal, snow removal and ice alleviation. Includes pay and allowances for 240 civilian personnel.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE

I. Description of Operations Financed:

This program finances the Army's wholesale logistics system which is comprised of Depot Maintenance, Central Supply and Transportation, as well as related Base Operations, Real Property Maintenance and Environmental Restoration activities. The total request for FY 1987 is \$5,673.0 million.

Depot Materiel Maintenance and Support Activities provide for Depot Maintenance, Equipment Modernization, and Maintenance Support Activities. Depot Materiel Maintenance consists of the overhaul, repair, and renovation of unserviceable but repairable materiel for issue to troops in the field. This program returns "like new" equipment to the field at a cost which is far less than the procurement value. Equipment modernization consists of the modification or conversion of existing materiel to increase combat effectiveness, safety, reliability and/or maintainability. Maintenance Support Activities provide maintenance program planning, integrated logistics support, training, maintenance engineering services, and publications to all levels of the Army maintenance system.

The Depot Maintenance program trend in real terms from FY 1986 to FY 1987 is minus \$47 million (-2.0%). Full funding is provided to the essential new, highly sophisticated systems entering the Army inventory. The program decrease is applied solely against non-Force Modernization systems: those Army systems which are already fielded, but also essential to the Army's combat power. Due to overall funding constraints, the Army could not totally fund the materiel maintenance and maintenance support programs. As a result, the high priority unfunded requirement for FY 1987 is \$93 million for materiel maintenance.

The request for Central Supply and Transportation functions will maintain the current sustainability and readiness of the force. In real terms, the FY 1987 request represents a -2.4% decrease over FY 1986. However, the program is essentially level when adjusted for the transfer of the Chemical Demilitarization Program to the Department of Defense.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE

I. Description of Operations Financed (Continued):

Supply Activities and Logistics Support Activities provide for the receipt, storage, issue, and management of supplies and equipment. Also included are the negotiation and administration of contracts for procurement of Army weapons systems and their fielding support.

Transportation workload supported includes movement of materiel from the manufacturer and Army depots to Army users worldwide.

Transportation Management and Overseas Port Units provide for support of Army missions overseas through port terminal facilities. This activity also includes worldwide traffic management and management of the Defense Freight Railway Interchange Fleet.

Industrial Preparedness Operations provide for maintenance of laidaway equipment and facilities plus planning for Government and private sector production surge requirements during emergencies.

Resale Commissaries provide for soldier support through the operation and management of stores.

Environmental Restoration funding provides for the restoration of the natural environment on real property currently controlled by the Department of the Army and at properties formerly controlled by the Department of Defense.

Base Operations funding provides for installation support functions at 48 locations in CONUS. Cost associated with retail supply operations, below-depot maintenance of materiel, personnel support, unaccompanied personnel housing operations/furnishings, morale, welfare and recreation, and other common support functions are supported here.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE

I. Description of Operations Financed (Continued):

Real Property Maintenance Activity provides for facility support at installations.

Operation and Maintenance funding of Single Manager for Conventional Ammunition (SMCA) is also within this program. Of the total \$247.9 million for SMCA, \$240.9 million is contained within the Central Supply and Maintenance program. The balance is contained in other OMA programs.

Industrial Fund and Stock Fund Support is not an operational program. The budget display reflects financial adjustments between appropriated customer programs and the Defense and Army Stock Funds and the Services' Industrial Funds. These adjustments provide for additional reimbursement to or refunds from the Industrial Funds and the Stock Funds.

The following is a list of principal activities funded by this program:

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: SUPPLY ACTIVITIES

I. Narrative Description.

This activity group includes Supply Depot Operations, Supply Management Operations and Central Procurement activities. The \$1.270 billion budget request for Supply Activities in FY 1987 is needed to continue support of fifty-four supply depots/depot activities, six supply distribution centers and twenty-nine central procurement offices. This level is comprised of \$151 million in price growth and \$15 million of program growth compared to FY 1986. Major program changes contained in this request are: Care of Supplies in Storage (\$11 million), other supply depot storage (\$5 million) and travel reduction (\$-1 million).

II. Description of Operations Financed.

Supply Depot Operations (\$795 million). Supply Depots perform the full range of supply depot operations functions with special emphasis on timely receiving and shipping to ensure that materiel required by field units and depot maintenance activities is available in the quantity and condition required.

Supply Management Operations (\$193 million). Provides for the maintenance of up-to-date inventory control records which accurately show the availability, condition and location of all items for which the Army has responsibility. Included in these operations are: receipt and processing of requisitions in a timely manner, and the maintenance of the Army's part of the Federal Catalog System which involves the preparation and submission of pertinent data for new items entering the system as well as the publication of new/revised catalogs which are the official media for dissemination of supply data to the field.

Central Procurement Activities (\$283 million). Obtains the supplies, materiel, and equipment needed by the Army from commercial sources. In the Continental United States (CONUS) there are twenty Army activities performing central procurement functions and in Europe there are nine Army central procurement offices. These activities include processing procurement actions, preparing and issuing solicitation documents, evaluating bids and proposals, conducting contract negotiations and awards, executing contract modifications, conducting surveillance of contractor performance, performing quality assurance functions from initial procurement planning through close out of the contract file, and conducting cost/price analyses and "should cost" studies.

Partial Funding for Single Manager for Conventional Ammunition (\$164 million) is included in the \$1,270 million budget request for this activity group.

B. Reconciliation of Increases/Decreases (Continued).

Total Non-Personnel Costs.....	\$ 85,943
Currency Revaluation.....	\$ 65,042
Total Price Growth.....	\$ 151,369

Program Increases:

a. Care of Supplies in Storage (COSIS) (Base \$41,055).....\$ 10,882

The requested FY 1987 level of \$51,913 will provide for the preservation and repackaging of 60,785 short tons of equipment, ammunition and other supplies in storage in the wholesale depot system. COSIS enhances readiness by reducing materiel degradation and thus reducing replacement costs, shipment denials, backorders and transportation costs. For every dollar invested in COSIS, approximately 2 dollars in cost avoidance for material replacement and/or renovation is avoided. The level of Priority I ammunition processed will be about 21,468 short tons and approximately 39,317 short tons of general supplies. This level will provide for a backlog decrease of 15,785 short tons in FY 1987 to 69,550 short tons.

b. FY 1987 Force Modernization Fielding Program (Base \$288).....\$ 221

Provides mission operating funds to support the fielding of selected new or modernized equipment entering the active force inventory in FY 1987 to include supply depot operations, supply management operations, and central procurement activities. (For details on specific systems see "Intensively Managed Systems" section.)

DEPARTMENT OF THE ARMY

OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: SUPPLY ACTIVITIES

III. Financial Summary (\$ in Thousands).

B. Reconciliation of Increases/Decreases (Continued).

c. Other Depot Storage (Base \$247,346).....\$ 5,204

This provides for internal operations at Army depots and arsenals, and excludes receipt and issue activities. This does not include the same functions performed as part of COSIS. This increase will result in physical inventory verification and location surveys covering 197 line items, processing of about 1.1 million tally cards; and the rewarehousing of approximately 30,800 S/T of stocks to correct discrepancies and consolidate multiple storage locations. The total effort will enhance readiness by providing improved support to the Army in the field as a result of increased accuracy of stock records, reducing time required to fill requisitions, providing better storage space utilization and reducing backorders.

NARRATIVE EXPLANATION OF PERSONNEL END STRENGTH AND WORKYEAR CHANGES:

CIVILIAN: The decrease of 1387 End Strength (ES) includes an increase of 572 ES in Europe to support ammunition functions; an increase of 30 ES for central procurement functions at the Intelligence and Security Command; and a decrease of 1989 at the Army Materiel Command for (1) Management Efficiency Reduction (-186), (2) Force Modernization (-445), (3) transfer of manpower for terrorism protection to AIF (-225) (4) transfer manpower associated with management information to a new Army Management Structure Code within Program 7S and to the Information Systems Command in Program 3C (-849). Workyears have been adjusted to support the average end strength for FY 1986 and FY 1987.

MILITARY: The decrease of 67 officers and 10 enlisted ES results from officer strength deviation and a 1.5% reduction in TDA military spaces for transfer to tactical units.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: LOGISTICS SUPPORT ACTIVITIES

I. Narrative Description.

This activity's budget request of \$680.7 million provides for a variety of logistics support functions which support the equipping, deploying and sustaining of Army and other service forces worldwide. Major increases in FY 1987 are attributable to an increase of \$7.1 million in information management initiatives, and an increase of \$11.0 million for Conventional Ammunition Demilitarization. These increases are offset by a transfer to a separate DOD appropriation of \$60.5 million for Chemical Demilitarization, a transfer to RDT&E of \$12.5 million, a program decrease of \$3.3 million to reduce travel expenditures and a decrease of \$5.5 million to Force Modernization. The program also includes \$20.3 million in price growth.

II. Description of Operations Financed.

Logistics Support functions contribute to the total logistics effort worldwide and improve readiness and responsiveness to the forces in the field. Specific functions included are:

- a. Logistics Administrative Support (\$116.3 million). Project Management for non-ADP systems obtains its sole source of Operation and Maintenance, Army, (OMA) funding in this activity group. The OMA funding of a Project Manager Activity begins when a system transitions from the research and development phase into production and fielding. The systems selected for intensive project management are those of great complexity and criticality to the Army's mission. Also included in this program are the HQ, Troop Support Agency, the Logistics Evaluation Agency, the U.S. Army Contracting Support Agency, Test and Evaluation Command, and the Product Assurance Test and Fielding Activity.
- b. Audiovisual Activities (\$11.3 million) provide for still and motion picture photography to include optical instrumentation, television and audio recording, production and documentation, graphic illustration, library aids and devices, and audiovisual support center operations for the U. S. Army Materiel Command mission.
- c. Troop Issue Subsistence Activities (\$26.6 million) provide for requisitioning, receiving, storing, issuing, and selling of subsistence items to authorized appropriated and non-appropriated fund dining facilities and authorized officer and enlisted clubs, medical facilities, and Reserve and National Guard organizations.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: LOGISTICS SUPPORT ACTIVITIES

II. Description of Operations Financed.

- d. Management Headquarters (\$191.2 million) provide the technical direction and management of the total wholesale supply and maintenance system.
- e. Logistics Support functions (\$206.7 million) include production engineering for stock fund and procurement items, the Army Defense Standardization Program, ammunition demilitarization, printing of logistics forms and publications and other attendant central supply functions.
- f. Information Management Mission Data Processing Facilities (\$128.7 million) provides for the management, analysis, design, programming, operations and maintenance of computer systems to provide automation support, and associated personnel, supplies, equipment, and all other costs in support of mission data processing facilities.
- g. Partial funding for Single Manager for Conventional Ammunition of \$3.5 million is included within the \$680.7 million requested for this activity group.

JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: LOGISTICS SUPPORT ACTIVITIES

III. Financial Summary (\$ in Thousands).

B. Reconciliation of Increases/Decreases.

Program Increases:

a. Conventional Ammunition Demilitarization (Base \$30,066).....\$ 11,007

The FY86 level of \$30.1 million will resource the demilitarization of 39,300 short tons. The increase in FY87 will resource the demilitarization of an additional 10,150 short tons, thus enabling the Army to attain an FY 1987 ending inventory of 167,950 short tons. The Army goal is to reduce stocks eligible for demilitarization to a management level equal to that quantity of ammo becoming obsolete or unserviceable over a 15 to 24 months period. This equates to an ending inventory of 49,000 to 78,000 short tons. The increase in FY 1987 permits the program a partial recovery from an underfunding problem in FY 1985 and, to a lesser extent, FY 1986. In addition, there are several valid arguments for accelerating the conventional demilitarization program i.e., 1) the elimination of hazardous ammo precludes storage, inventory, and inspection costs and frees-up storage facilities for useable stockpiles, 2) prevents further deterioration with attendant safety hazards, and 3) avoids costs that will escalate to approximately \$2,000 per S/T (vs \$619 per S/T currently for open-pit detonation) if EPA standards require "state-of-the art" closed-pit demilitarization methods such as those developed at Hawthorne Ammunition Plant.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: LOGISTICS SUPPORT ACTIVITIES

III. Financial Summary (\$ in Thousands).

B. Reconciliation of Increases/Decreases.

Program Increases (Continued):

b. Army Commissary Automation System (ACAS) (Base \$4,157).....\$ 3,726

Automation technology in support of commissary operations has progressed rapidly. ACAS utilizes this new technology to provide Electronic Point-of-Sales Enhanced/Electronic Cash Register (EPOSE/ECR) front-end systems for scanning. These systems are being installed in approximately three Army commissaries per month. This project, which began in August 1985, provides a scanning system for automated data for managers at all levels as a method for Electronic Data Interchange (EDI). EDI will create a true paperless environment for orders and receipts. Army commissaries must progress to state-of-the-art technology in order to interface with both government and commercial subsistence sources. These enhancements, along with automated meat market operations, bar-coding for inventory and shelf replenishment and other automation initiatives now underway, provide the building blocks for an integrated system to manage and control all aspects of commissary operations and ultimately to increase productivity at all levels. ACAS will take these building blocks at the store and warehouse level and integrate them with district, region and headquarters systems to allow maintenance of accountability, communication with commercial and government agencies through electronic transmission of data, improved reporting procedures through all levels, and most importantly, increasingly efficient service to the military patron. Without ACAS, the scanning system at the store and the inventory system in the warehouse will not provide the management and control information required to operate the commissaries efficiently.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: LOGISTICS SUPPORT ACTIVITIES

III. Financial Summary (\$ in Thousands).

B. Reconciliation of Increases/Decreases.

Program Increases (Continued):

c. Transportation of Personal Property (Base \$896).....\$ 2,255

Provides resources to support the Transportation Operational Personal Property Standard System (TOPS), a multi-service system designed to automate functions of the DOD personal property movement and storage program within Army personal property shipping offices. Implementation of this system will increase productivity and promote efficiency within shipping offices by providing for single point service data collection for all shipment and storage actions, determining the most effective pickup and delivery dates, and advising whether excess costs will be incurred. The system will also choose the lowest cost carrier and generate shipping, storage and quality control documents for use by both origin and destination transportation offices. The FY86 resources provide for contractual systems design and development. The increase in FY87 represents completion of systems development and the costs associated with fielding and maintaining 47 of the 64 sites planned. A total of \$3.0 million in procurement funds has been programmed in FY87 for equipment purchases for this system. There are no end strength or workyears associated with this increase.

d. Logistics Intelligence File Operations (Base \$1,165).....\$ 1,100

Provides increased effort for the projected growth in the Logistics Control Activity (LCA) Logistics Intelligence File (LIF) operations. A key aspect is the enhancement of the ADP/Telecommunications systems to maintain pace with technological growth and the demands for responsive logistics intelligence to the Army at all levels. There are no end strength or workyears associated with this increase.

Total Program Increases.....\$ 18,088

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: LOGISTICS SUPPORT ACTIVITIES

NARRATIVE EXPLANATION OF PERSONNEL END STRENGTH CHANGES:

CIVILIAN: The reduction of 302 civilian end strength results from the following: (1) Realignment of Army resources to support priority missions within a workforce level which has been stabilized for the budget and program years (-32) (2) reductions in civilian personnel supporting Force Modernization (-109).

MILITARY: Military adjustments result from realignments required to align authorizations with projected officer/enlisted strength Army-wide (Officer Strength Deviation).

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: TRANSPORTATION MANAGEMENT AND OVERSEAS PORT UNITS

I. Narrative Description.

This budget activity group provides for overseas port operations, the Defense Freight Railway Interchange Fleet (DFRIF), and the transportation management functions and operations at the Military Traffic Management Command (MTMC). The increase in FY 1987 over FY 1986 is comprised of \$8.4 million price growth and \$-3.8 million program growth. Program changes include a decrease in the force modernization program (\$3 million) and in the Defense Freight Railway Interchange Fleet (\$0.8 million).

II. Description of Operations Financed.

Overseas Port Operations (\$46.0 million) include stevedore and local traffic management services and related administration, documentation, data processing, temporary storage, and cargo handling materiel. This includes nonreimbursable services for all Department of Defense and other designated agencies located in the overseas theater. Overseas ports are located in Japan, Okinawa, Europe, Korea, Hawaii, and Alaska.

The Defense Freight Railway Interchange Fleet (DFRIF) (\$1.5 million) is a fleet of general and special purpose rail cars numbering more than 2,900, managed by the Military Traffic Management Command. These rail cars are used in peacetime and are required for mobilization.

Military Traffic Management (\$36.3 million) provides for traffic management functions essential for the economical and efficient routing and booking of total defense cargo.

Total Price Growth.....\$ 8,442

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: TRANSPORTATION MANAGEMENT AND OVERSEAS PORT UNITS

III. Financial Summary (\$ in Thousands).

B. Reconciliation of Increases/Decreases.

Program Increases:

- a. Prepositioned Materiel Configured to Unit Sets (POMCUS) (Base \$1,363)..\$ 186
The increase in this program supports the shipment of equipment to fill existing shortages in POMCUS units in an effort to bring unit sets to a combat ready status. As equipment becomes available through the Force Modernization program it will be shipped to fill these shortages (subject to the 70/50 restriction for selected division sets).

Total Program Increases.....\$ 186

Program Decreases:

- a. FY 1987 Force Modernization Fielding Program (Base \$6,656).....\$ -3,003
Provides mission operating funds to support the fielding of selected new or modernized equipment entering the active force inventory in FY 1987. The bulk of the force modernization equipment in FY 1987 is destined for CONUS. Consequently, there is a decrease in the Port Handling costs from FY 1986 because the over-the-ocean portion of transportation is significantly reduced. (For details on specific systems, see "Intensively Managed Systems" section.)

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: TRANSPORTATION MANAGEMENT AND OVERSEAS PORT UNITS

III. Financial Summary (\$ in Thousands).

B. Reconciliation of Increases/Decreases.

Program Decreases (Continued):

b. Defense Freight Railway Interchange Fleet (DFRIF) (Base \$2,300).....\$ -884

The decrease in DFRIF is generated by a decline in maintenance costs of the fleet. Maintenance declines because of the increasing number of new rail cars recently added and the phased retirement of older, more costly-to-maintain rail cars.

c. Prepositioned War Reserve Materiel Stocks (Base \$1,168).....\$ -78

This program supports the capability of U.S. Forces to position projected battlefield consumption stocks. Funding level in FY 1987 supports the overseas port operations costs of a projected 20,000 short tons of major items and 17,500 short tons of secondary items destined for storage in Europe and Korea. The total FY 1987 requirement is supported.

d. Travel (Base \$813).....\$ -91

Reduction for travel is part of an overall Army effort to reduce travel costs.

Total Program Decreases.....\$ -4,056

FY 1987 Budget Request.....\$ 83,757

NARRATIVE EXPLANATION OF PERSONNEL END STRENGTH CHANGES:

CIVILIAN: The net increase of 9 in FY 1987 represents civilian substitution for officer strength deviation in Europe (+2), a transfer from AIF to direct funding at MTMC (+5), the release of military personnel in TDA units for transfer to TOE units in MTMC (+3), and the transfer to WESTCOM to support troop issue workload (-1).

MILITARY: The net decrease of 10 military in FY 1987 reflects civilian substitution for officer strength deviation in Europe (-1) and MTMC (-9).

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: INDUSTRIAL PREPAREDNESS OPERATIONS

I. Narrative Description.

This activity's budget request of \$148.1 million finances maintenance of the inactive reserve industrial base and the development and implementation of plans to expand and enhance production capability to support national security objectives. A responsive, capable and flexible industrial base requires a level of funding sufficient to: maintain active and inactive government owned production facilities and equipment in a ready condition; preclude deterioration of Government-Owned, Contractor-Operated (GOCO) and Government-Owned, Government-Operated (GOGO) plants and equipment; and provide adequate planning with civilian industry to meet wartime emergency production requirements. The FY 1987 budget request provides resources to provide maintenance to critical laidaway lines, maintenance and storage of Plant Equipment Packages for production of ammunition and development of surge and mobilization base capacity networks. This level is comprised of \$6.1 million price growth and \$1 million program growth compared to FY 1986.

II. Description of Operations Financed.

This program provides for retention and maintenance of laidaway production capacity, industrial preparedness planning for mobilization, surge, sustainability, and management of the Production Base Support and manufacturing technology programs.

a. Reserve Industrial Plants (\$83.9 Million). Supports the retention, maintenance and protection of the government-owned, inactive plants and inactive lines of active plants which are needed to assure emergency production capacity for mission essential materiel. Includes plant administration, surveillance, inspection, protection, and maintenance and repair of buildings, grounds, railroads, integral equipment, and utilities.

b. Reserve Industrial Equipment (\$22.1 Million). Supports the maintenance, protection, repair, and rebuild of government-owned plant equipment packages, including industrial plant equipment, other plant equipment, special tooling and special test equipment, retained in anticipation of future production and mobilization requirements of ammunition, weapons, combat vehicles, missiles, aircraft, tactical vehicles, communications and electronics commodities.

NARRATIVE EXPLANATION OF PERSONNEL END STRENGTH CHANGES:

CIVILIAN: Decrease of 12 civilian spaces between FY 1986 and FY 1987 is a part of the realignment of Army resources to support higher priority issues within a stabilized employment level.

MILITARY: No change in military end strength.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: TRANSPORTATION

I. Narrative Description.

This budget activity provides for the movement of materiel to Army forces worldwide for sustaining, deploying, and "Force Modernization". There is a significant decrease in this budget activity in FY 1987 from FY 1986. This is primarily attributable to the reduction of 20.5 percent in the Military Sealift Command's (MSC) rates for ocean shipping and to a decrease in the Force Modernization Program of \$18.1 million.

II. Description of Operations Financed.

This activity consists of First Destination Transportation and Second Destination Transportation. The FY 1987 request represents a balanced transportation program to sustain the force and supports initiatives in deployment of new systems.

- a. First Destination Transportation (\$41.8 million) funds the movement of materiel produced in government-owned, contractor-operated plants, or purchased from commercial vendors, to depot storage, U. S. ports or using units. When this materiel is transported directly from point of purchase to any destination in the continental United States, the entire movement is funded from First Destination Transportation.
- b. After receipt from place of procurement, transportation to using units is provided by Second Destination Transportation (\$624.3 million) which funds the worldwide movement of Army supplies and equipment by civilian and military air and surface modes. It provides for the transshipment of cargo through Army industrially funded CONUS ports. This activity also funds the transportation of Army civilian employees and their dependents on permanent change of station; the movement of mail, subsistence and other fact of life necessities; and the movement of organization equipment of units on permanent change of station. The costs of charter, rental or lease of transportation movement equipment and services not available on a government tariff basis are also included.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: RESALE COMMISSARIES

I. Narrative Description.

This activity's budget request of \$210.7 million provides for the centralized management and operation of resale commissary stores serving US Forces and their dependents worldwide. The commissary stores ensure availability of US and selected foreign procurement food stocks in sufficient quality and quantity to authorized patrons at the best possible price and at the lowest cost for the Government. Adequate resourcing of resale commissary operations is essential to troop morale, their quality of life and helps attract and retain the quality of personnel required to adequately man the force in support of Army readiness. This level is comprised of \$11.0 million price growth and \$.6 million program growth.

II. Description of Operations Financed.

Commissary Operations (\$190.2 million): Provides for operation of commissary stores which supply meat, produce, groceries, and household supplies on a retail sales basis to authorized commissary customers worldwide. Funds are used for payment of personnel costs, travel and training.

Administration (\$20.5 million): Provides for the operation of USA Troop Support Agency, Directorate of Commissary Operations, and its subordinate regions; to include funds for payment of civilian personnel, utilities and required travel to effect command, control and efficiency of operations of widely dispersed commissary activities.

NARRATIVE EXPLANATION OF PERSONNEL END STRENGTH CHANGES:

CIVILIAN: Increase of 34 ES and 75 WY's reflect Army realignment of resources within a stabilized organic workforce level to provide additional support for commissary operations overseas.

MILITARY: No change in military end strength.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: INDUSTRIAL FUND AND STOCK FUND SUPPORT

I. Narrative Description.

This program package reflects (1) funding to reimburse DOD industrial funds and stock funds for costs not recovered through customer rates and (2) refunds from industrial fund and stock funds, where applicable.

DOD industrial funds and stock funds operate under a rate stabilization policy established by the Secretary of Defense. Financial resources requested in various appropriated fund customer programs reflect the impact of approved stabilized rates. Changes to established rates are disruptive to both customer program and industrial fund and stock fund operations. The Department executes its programs at established stabilized rates with additional reimbursement to or refunds from industrial funds and stock funds, as appropriate.

II. Description of Operations Financed.

FY 1985 reflects a Congressionally directed refund of \$571.7 million from the Stock Fund. Also reflected are AIF refunds of \$6.3 million for decapitalization of Research and Development Activities and \$7.7 million for FY 1985 pay raise.

The FY 1986 estimate reflects a Congressionally directed refund of \$510.6 million from stock funds. Also reflected is an Army Industrial Fund refund of \$103.2 million and a Defense Industrial Fund refund of \$40.0 million for excess operating revenue. There is a pass through to the Army Industrial Fund of \$66.7 million for restoral of the 5% civilian pay reduction.

The FY 1987 estimate reflects an unfinanced FY 1987 AIF pay raise of \$31.3 million. Also reflected are refunds from the Military Sealift Command of \$105.9 million, the Airlift Service Industrial Fund of \$21.2 million and Defense Stock Fund of \$88.1 million. There is a pass through to the Army Industrial Fund of \$78.4 million for end FY 1986 accumulated operating losses.

The Congressional authorization and appropriation committees are familiar with the price stabilization policy and are aware that DOD will continue to execute programs at stabilized published rates and make adjustments for results of industrially funded and stock funded operations through this budget activity group.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY ACTIVITIES
ACTIVITY GROUP: BASE OPERATIONS

I. Narrative Description: This budget activity provides for the operation and maintenance of installation support, less real property maintenance, associated with Central Supply and Maintenance activities at 48 installations/locations in CONUS. The FY 1987 request totals \$203.4 million which includes an inter-appropriation transfer of \$7.9 million and a net program growth of 3.1 million. Major areas of program growth include an increase in Army Community Services (\$2.4 million), Civilian Substitution and Civilian Personnel Programs (\$.8 million), Child Development Operations (\$1.8 million), Drug Suppression (\$.4 million). These increases were offset primarily by a reduction in printing requirements (\$-1.9 million), Army Deobligation Performance (\$-.2 million), travel requirements (\$-.2 million), and an overall reduction in the Base Operating Support levels (\$-.1 million).

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000):

A. Supply Operations (\$28,592): Finances the operation of consolidated post supply. Includes the operation of self-service centers, clothing issue points, POL resale points and Office of the Director of Logistics (DOL). Finances pay and allowances for 68 civilian personnel.

B. Maintenance of Materiel (\$9,167): Finances Direct and General Support Maintenance of Support Systems such as vehicles and installation equipment. Finances pay and allowances for one civilian personnel.

C. Transportation Services (\$9,207): Finances the operation of local (installations) non-tactical motor transportation service to include government-owned vehicles and rented or leased commercially-owned vehicles; finances operation of rail equipment used for intra-installation transportation; finances pay and allowances for 54 civilian personnel.

D. Laundry and Dry Cleaning Services (\$846): Finances operation of laundry and dry cleaning plants and contracting for such services where Army-owned plants are not operated in-house. All plants are contractor operated.

E. Army Food Service Program (\$14,127): Finances operation and administration of food supply and food preparation facilities, and dining facilities. All operations are contractor/military operated.

JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY ACTIVITIES
ACTIVITY GROUP: BASE OPERATIONS

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000)
(Continued):

F. Personnel Support (\$21,329): Finances Director/Chief Personnel and Community Affairs, command information programs, alcohol and drug abuse program, military/civilian personnel activities, reenlistment activities, and safety functions. Finances pay and allowances for 356 civilian personnel.

G. Unaccompanied Personnel Housing Operation, Administration, and Furnishings (\$13,424): Finances the purchase, control, moving, and handling of housing furnishings for unaccompanied personnel officer quarters, and unaccompanied personnel enlisted quarters; and finances the operation and administration of all unaccompanied personnel housing. Finances pay and allowances for five civilian personnel.

H. Administration (\$18,484): Finances activities concerned with the Installation Commander/Garrison Commander/Chief of Staff; and other installation-wide activities not otherwise provided for, such as Headquarters Commandant, Inspector General, Staff Judge Advocate, Chaplain, Public Affairs Office, Equal Employment Opportunity, and Internal Review. Finances pay and allowances for 214 civilian personnel.

I. Automation Activities (\$16,618): Finances Office, Director/Chief of Information Management and automation activities in support of base operations including data processing and office automation. Finances pay and allowances for 329 civilian personnel.

J. Reserve Component Support (\$139): Finances administrative support for Reserve Component units and ROTC personnel participating in inactive duty training and annual training.

K. Community and Morale Support Activities (\$17,116): Finances the development, staffing, equipping, administering and operation of installation libraries, sports programs, Army Community Service activities, Child Support Services and separate Army bands. Finances pay and allowances for 31 civilian personnel.

PROGRAM: CENTRAL SUPPLY ACTIVITIES
ACTIVITY GROUP: BASE OPERATIONS

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000)
(Continued):

- L. Preservation of Order (\$7,668): Finances Director/Chief Provost Marshal and police services at 48 installations to include military police operations, installation level confinement activities, physical security operation and operation of physical security equipment. Finances pay and allowances for 217 civilian personnel.
- M. Directorate of Resource Management (\$27,375): Finances Office of the Director and the administration of all resource management functions such as Finance and Accounting, Programming and Budgeting, Management Analysis, Productivity Analysis, Commercial Activities, Efficiency Review, Army Performance Oriented Review and Standards, and Internal Control Programs. Finances pay and allowances for 1,092 civilian personnel.
- N. Directorate of Plans, Training and Mobilization (\$2,400): Finances the Office of the Director and management of training facilities, training aids, range operations, BASOPS Flying Hour Program, museum activities, and mobilization support. Finances pay and allowances for 37 civilian personnel.
- O. Director of Contracting/Contracting Division (\$6,253): Finances the Office of the Director and administration of contracts and purchases for the installation. Included are functions such as preparation of performance work statements, quality assurance and the contract audit tracking program. Finances pay and allowances for 128 civilian personnel.
- P. Security and Counterintelligence Operations (\$1,914): Finances the Office of the Director/Chief of Staff and management of security counterintelligence and planning functions at the installation. Finances pay and allowances for 15 civilian personnel.
- Q. Records Management, Publications (\$8,722): Finances the operation of records management, records holding areas, mail distribution centers, printing plants, and other printing and reproduction of publications. Finances pay and allowances for 100 civilian personnel.

B. Reconciliation of Increases/Decreases (Continued)

Program Increases

a. Army Community Service (ACS) (Base: \$798).....	\$	2,373
Additional contract funding is provided to fully implement the exceptional family member, financial planning and assistance, and family member employment programs at all ACS Centers. ACS Centers will implement a contract outreach program designed to export social services to family members residing off post, often in isolated locations. First term families will be the primary target for this program. ACS Centers have also been resourced for contract coordinators who will recruit and train volunteers to support the many ACS activities. These "family programs" will significantly improve the support provided by the ACS Centers.		

b. Child Development (Base: \$790).....	\$	1,842
Additional contract funding is provided for first line supervisors of care givers at all existing child development centers. For new child development centers being constructed, funds are provided for equipment, supply and contact staff. Increased contract resources are provided to expand the quarters based child development program at all installations and to implement an after school program to supervise the activities of children who traditionally return from school to an empty home. These "family programs" will significantly improve the quality of child development services throughout the Army.

III. Financial Summary (\$ in Thousands) Continued:

B. Reconciliation of Increases/Decreases (Continued)

Program Increases (Continued)

- | | | |
|----|---|-----|
| c. | Civilian Personnel Offices (CPO) (Base: \$15,335).....\$ | 342 |
| | Resources support increasing manning levels from 82% to 87% at civilian personnel offices as validated by the Army's Manpower Standards (MS-3). This increase will enable Army Civilian Personnel Offices (CPO's) to meet workload levels which have expanded to support added requirements such as Commercial Activities/Army Performance Oriented Review System (CA/APORS) studies, increased job grading accuracy, increased suggestion program etc. The increase provides funding to support 32 added end strength and 16 work years. | |
| d. | Civilian Substitution (Base: \$43).....\$ | 492 |
| | Resources support program to convert Military Table of Distribution and Allowance (TDA) positions to civilian positions. The reassignment of replaced military end-strengths to higher priority force structure needs provides increased readiness and better utilization of available military authorizations. The FY 87 program supports an additional 23 end strength and a total of 18 work years. | |
| e. | Drug and Alcohol Testing (Base: \$0).....\$ | 391 |
| | Funds state of the art technology to allow local commanders to conduct preliminary drug testing, with follow on confirmation at laboratories, for marijuana, cocaine and amphetamines. Current procedures require that soldiers be withheld from duty pending laboratory analysis of standard | |

OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY ACTIVITIES
ACTIVITY GROUP: BASE OPERATIONS

III. Financial Summary (\$ in Thousands) (Continued):

B. Reconciliation of Increase/Decrease (Continued)

Program Decreases

a.	Base Operating Support (Base: \$155,803).....	\$	-98
	Reduction provides for a reduced level of spending for travel, operating supplies, and non-personnel and non-contractual related items of expenditure associated with installation base operating activities.		
b.	Deobligation Reduction (Base: \$0).....	\$	-233
	Reduction is due to improved efficiency in management of unliquidated obligations. Intensified efforts by installations throughout the Army have resulted in more accurate estimates of amounts to be deobligated after the close of the fiscal year.		
c.	Printing (Base: \$9,825).....	\$	-1,864
	Installation printing costs are utilized for functions such as supplements to regulations, military orders, budgets and other reporting requirements. This reduction reflects a lower level of effort in this area and support previous congressional direction to improve management.		
d.	Travel (Base: \$952).....	\$	-180
	Reduction corresponds to reductions in programs involving travel and is a part of overall Army effort to reduce travel in lower priority areas.		
	Total Program Decreases.....	\$	-2,375

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: Army RPMA Activities
ACTIVITY GROUP: Central Supply Activities

I. Narrative Description (Statement of Requirements and Mission)

This Budget activity provides Real Property Maintenance Activities (RPMA) support for 45 major US Army Materiel Command (AMC) installations, 3 major Military Traffic Management Command (MTMC) installations, and US Army Corps of Engineers (USACE) activities associated with Central Supply and Maintenance Activities.

II. Description of Operations Financed

A. Funds provide support in four functional areas of Real Property Maintenance Activities. These functional areas are:

1. Operation of Utilities (\$34,396). Finances expenses for procurement and distribution of utilities for AMC and MTMC installations. Included are purchased utilities, purchased water, operation of water plants and distribution systems, and sewage and waste systems. Finances pay and allowance for 10 civilian personnel.
2. Maintenance and Repair of Real Property (\$101,403). Finances maintenance and repair of buildings, structures, and utility systems at AMC and MTMC installations. Includes pay and allowances for 28 civilian personnel. Migration in the amount of \$5.0 million has been considered in the budget year request in estimating the backlog of maintenance and repair.
3. Minor Construction (\$9,739). Finances the erection, installation or assembly of new real property facilities, or the addition, alteration or conversion of existing real property facilities when project costs do not exceed \$200 thousand.
4. Engineer Support (\$147,541). Finances other facilities engineering services such as fire protection, custodial services, pest control, refuse collection and disposal, snow removal and ice alleviation. Includes pay and allowances for 2059 civilian personnel. Includes resources for Real Estate Administration and Construction Support, which was transferred from P7 Mission in FY 1986.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: MODERNIZATION

I. Narrative Description.

The Equipment Modernization Program provides for the modification or conversion of materiel already in the Army inventory. Modification is the application of changes to materiel which do not alter the basic characteristics of the item in terms of mission, performance, or capability. Conversion is the application of changes so extensive to an item as to alter its basic characteristics in terms of mission, performance or capability of the item, and results in a new nomenclature of the item.

II. Description of Operations Financed.

Requested funding for the Modernization Program in FY 1987 is \$107.6 million, an increase of \$6.6 million over FY 1986. This increase is primarily the result of a major modification effort on the M60A1/A3 Rise Passive tank and a major modification effort to the UH-1. The increase in the M60A1/M60A1 Rise Passive Tank to the M60A3 tank thermal sight conversion is the result of the Army decision and strong congressional support to accelerate delivery of an improved tank to the reserve components. The UH-1 helicopter modification effort is applying field modifications to (1) improve the rotor systems, (2) provide nap of the earth communications, (3) provide improved night vision capability, and improve reliability and safety to the entire fleet of these utility helicopters. Other examples of increases are application of nap of the earth communications systems to the CH-47D and AH-64 helicopters; and application of night capability, pneumatic system, cooling, Nuclear, Bilological and Chemical (NBC) protection and master control indicator product improvements to the CHAPARRAL. Despite this program increase, there exists an \$8.6 million unfinanced requirement in FY 1987. This represents a conscious attempt to balance constrained funding against total Army requirements.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: MODERNIZATION

III. Financial Summary (\$ in Thousands).

B. Reconciliation of Increases/Decreases.

FY 1986 Current Estimate.....\$ 100,986
Price Growth:

Non-Personnel Price Growth:

Private Sector Price Increase.....\$ 2,096

Total Price Growth.....\$ 2,096

Program Increases:

a. FY 1987 Force Modernization Sustaining Program (Base \$60,052).....\$ 16,556

Provides for increased depot maintenance modernization costs for Force Modernization intensively managed and displaced systems such as application of tank thermal sight modifications of the M60A1/M60A1 Rise Passive to the M60A3; application of nap of the earth communications system to the CH-47D and AH-64 helicopters; application of night capability, pneumatic system, cooling, NBC protection and master control indicator improvements to the CHAPPARAL; and various modifications to the IHAWK. (For details on specific systems, see the "Intensively Managed Systems Data" displayed in Volume IV.)

b. Aircraft Modifications/Conversions (Base \$10,230).....\$ 1,010

Provides for new product improvements such as hub spring, nap of the earth communications, and improved oil filtration for the UH-1 and the application of an improved rotor system on the OH-58A and OH-58C.

Total Program Increase.....\$ 17,566

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: MODERNIZATION

III. Financial Summary (\$ in Thousands).

B. Reconciliation of Increases/Decreases (Continued).

Program Decreases:

- a. Support for Fielded Systems (Base \$30,704).....\$ -13,080
 Support to Fielded Systems was reduced due to a general reduction in the level of effort for non-modernization systems caused by constrained funding. This reduced support has resulted in some requirements, such as the application of smoke grenade launchers and NBC improvements to the M113 family of vehicles, being deferred. Also, this reduced support is the result of completion of some modification/conversion efforts, such as machinery upgrades to the crane barge in FY 1986, and reduction of other efforts, such as M991 smoke generator product improvements.

Total Program Decrease.....\$ -13,080

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: OTHER DEPOT MAINTENANCE

I. Narrative Description.

Other Depot Maintenance constitutes the bulk of depot materiel maintenance and finances the depot level inspection, test, overhaul and repair of major and secondary items, renovation of ammunition and calibration of test equipment. Depot maintenance and new procurement are the only sources of serviceable end items and secondary items to the Army's supply system. Since depot maintenance generally costs approximately one-third as much as new procurement and also has a faster response time, it is an attractive alternative to new procurement in terms of supporting Army Readiness.

II. Description of Operations Financed.

The FY 1987 Other Depot Maintenance Program request is \$1,510.2 million. An example of a repair program incorporated in this submission is the T53 engine remanufacture program. These engines are used in the Cobra AH-1 and Iroquois UH-1 helicopter fleets and are programmed to sustain these fleets through the year 2000.

There is a net programmatic decrease of \$56.3 million from FY 1986. This reduction is applied solely against non-Force Modernization systems. Additional funding decreases result from procurement program stretchouts and program cancellations such as the Sgt York (DIVAD). There exists an \$84.8 million unfunded requirement in FY 1987. This amount represents the uncertainty, at time the FY 1987 President's budget was developed, as to whether these efforts could be accomplished in FY 1987, if funded. However, through the expeditious use of overtime and improved contractual efforts, the possibility exists that these requirements could be executed.

Funding and requirements in this budget reflect the Army's continuing extension of Reliability Centered Maintenance (RCM) concepts. In addition to the longstanding Aircraft Condition Evaluation (ACE) program, the Combat Vehicle Evaluation Program (CVE) has been completely integrated into the requirements determination process. Compared to the previous criteria of mileage, CVE tends to reduce the number of vehicles requiring depot level maintenance. In addition to CVE, Depot Maintenance Work Requirements (DMWR) continue to be revised to incorporate RCM concepts.

JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: OTHER DEPOT MAINTENANCE

V. Personnel Summary.

NARRATIVE EXPLANATION OF PERSONNEL END STRENGTH CHANGES:

Military: The reduction of two officers resulted from the U. S. Army Materiel Command's reorganization of spaces within their Operations and Maintenance, Army Program. The increase of two enlisted were for the transfer from Eighth U. S. Army to U. S. Army Materiel Command to support the contract maintenance program.

Civilian: Increase of 19 civilian spaces from FY 1986 to FY 1987 is due to a transfer from Eighth U. S. Army to U. S. Army Materiel Command to support the contract maintenance program effort in Korea.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: MAINTENANCE SUPPORT ACTIVITIES

I. Narrative Description.

Maintenance Support Activities are the management and engineering foundations of the total Army maintenance system. These resources provide maintenance program management, maintenance engineering, technical services, new equipment training, and management and printing of maintenance publications. Maintenance Support Activities support the entire span of a weapon system life cycle and are vital to the successful fielding and maintenance of the many new and sophisticated weapon systems entering the Army's inventory.

After completion of system production, Maintenance Support Activities assume full responsibility for all hardware and software design support, development of provisioning plans, the costs of updating equipment publications, and the maintenance of the technical data packages to support the continuing procurement of repair parts. These functions, in support of materiel in the hands of Army users, are of the highest priority and comprise the largest portions of Maintenance Support Activities.

The driving factors of Maintenance Support Activities requirements are: the number of systems in the Army's inventory, the complexity of the systems, and the density of fielded items. The increasing complexity of new systems results in a corresponding increase in the maintenance engineering and publications efforts required to support these systems. For instance, the Bradley Fighting Vehicle requires 1,400 organizational maintenance tasks versus 742 for the M113A2 personnel carrier. A new and technologically complex item of equipment will not improve combat effectiveness unless it is maintained. A system cannot be properly maintained unless the personnel in the field and in the depots are provided the proper training, technical manuals, technical bulletins, and depot maintenance work requirements.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: CENTRAL SUPPLY AND MAINTENANCE
ACTIVITY GROUP: MAINTENANCE SUPPORT ACTIVITIES

II. Description of Operations Financed.

Maintenance Support Activities provide the engineering, technical, and administrative support necessary for the operational success of all levels of maintenance activities directly contributing to the Army's readiness posture. The overall demands upon this program have grown because the Army continues to modernize and equip the force with new systems, while at the same time continuing to provide support to older systems being retained in the inventory. This program has historically been underfunded. The Maintenance Support Activities request for funding in FY 1987 is \$650.1 million or \$26.6 million greater than in FY 1986. This increase represents a price growth of \$21.2 million and a program increase of \$5.4 million.

Funding in the amount of \$1.4 million is included for partial funding of Single Manager for Conventional Ammunition (SMCA) in this activity.

III. Financial Summary (\$ in Thousands).

B. Reconciliation of Increases/Decreases (Continued).

Program Decreases (Continued):

- b. Travel (Base \$13,843).....\$ -700
Reduction for travel is part of an overall Army effort to reduce travel in low priority areas.
- c. Support to Fielded Systems (Base \$313,545).....\$ -11,024
This is a general reduction caused by constrained funding and is taken against the functions of maintenance programming and planning support, maintenance engineering and technical services, and maintenance publications. This reduction results in a reduced level of effort for non-Force Modernization systems and is spread across all commodity groups.

V. Personnel Summary (Continued).

NARRATIVE EXPLANATION OF PERSONNEL END STRENGTH CHANGES:

Military: A reduction of 19 military spaces from FY 1986 to FY 1987 is the result of an Armywide initiative to reduce military allocations by 1.5% from the Table of Distribution and Allowances and transfer them to tactical units.

Civilian: A reduction of civilians from FY 1986 to FY 1987 is primarily the result of the transfer of 26 spaces to Program 2 for Post Deployment Life Cycle Software System; and 170 spaces for realignment of Army resources and the reversal of the civilian/enlisted substitution program.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: Central Supply and Maintenance
ACTIVITY GROUP: Environmental Restoration

I. Narrative Description (Statement of Requirements and Mission)

The Environmental Restoration activity to supports other hazardous waste disposal operations at currently-controlled properties, and sites adjacent to these properties. Other activities at these properties, including investigation and cleanup of contamination from hazardous substances and wastes, correction of other environmental damage such as unexploded ordnance detection and disposal, demolition and removal of unsafe and unsightly buildings and structures, debris removal, and more will be financed from a separate DoD appropriation in FY 1987. This budget request reflects the transfer of resources to that DoD appropriation. Activities at formerly used DoD lands will be managed by the Army as the DoD Executive Agent and funded through the Environmental Restoration, Defense (ERD) appropriation. Military construction expenses required for environmental control will continue to be funded through the MILCON appropriation.

II. Description of Operations Financed

A. Funds provide support at currently controlled properties for Hazardous Waste Disposal Operations (\$17,111). In FY 86, funds (1) studies and purchases of equipment which will reduce hazardous waste generation, (2) other expenses, such as hazardous waste facilities permits which are required under the Resource Conservation and Recovery Act, (3) other appropriate environmental control expenses such as spill cleanup, third party claims, midnight dumping, and other hazardous waste disposal operations. This budget reflects the transfer of resources for these requirements to a separate DoD appropriation in FY87. Beginning in FY87, funds for currently generated hazardous waste disposal operations formerly executed by DLA from the ERD appropriation.

B. Executive Agent Program. The Army, as DoD Executive Agent, will conduct a program to address formerly used DoD lands. This budget reflects the transfer of resources for these requirements to a separate DoD appropriation in FY 1987, and all operations by the Executive Agent will be funded from that appropriation.

Program Decreases

a. Utilities (Base: \$31,144) \$ -2,015

The Army has invested in energy conservation devices and methods over the past several years. The Army energy plan projects a reduction in utilities consumption in its facilities of 40 percent by FY2000 from the level experienced in FY1975. This downward adjustment reflects savings from the combination of investments in technology and emphasis on conservation.

PROGRAM: TRAINING

I. Description of Operations Financed

Program 8-Training provides for the operation and maintenance of the United States Army's school system and other selected training and training support activities. The training establishment must be capable of fulfilling the individual peacetime and mobilization training requirements of both the Active and Reserve Components of the Army; civilian employees of the Department of the Army and other government agencies; selected members of other services; and individual members of the military services of other nations. This training is accomplished at Army training centers and schools, Department of Defense and Joint Service schools and colleges, civilian colleges and universities and schools of other nations. Additionally, this budget program provides resources for the Senior Reserve Officers' Training Corps (ROTC) program which is conducted at colleges and universities throughout the United States. Program 8-Training also provides for the development, improvement and distribution of instructional material; the development of new training technology; and training assistance to units and their assigned personnel.

The major objectives of this Army budget program are:

To provide initial entry training with demanding standards designed to produce confident, disciplined and toughened soldiers capable of performing as contributing members of their assigned units.

To provide the skill and functional training necessary to develop the individual soldier skills required by the Army.

To provide Army sponsored training for Department of Army civilians, members of other services, other Department of Defense agencies and selected local, state and national governments.

To develop new training technology and implement coordinated training initiatives needed to enhance the individual soldier's skill and proficiency in a more efficient and cost effective individual training program in the Army.

To provide a complete program of training materials to be exported from the various Army schools to train the individual soldier in the units.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING

1. Description of Operations Financed (Continued):

Program 8-Training provides resources for the operation and maintenance of seven Army Training Centers, 30 Army schools and colleges, and six Department of Defense and Joint Service schools and colleges. This budget program also supports four Reserve Officers' Training Corps (ROTC) regional headquarters and 314 Senior ROTC detachments located on college and university campuses throughout the United States, Puerto Rico, Guam, and the Virgin Islands. Program 8-Training supports Army unique training provided to members of other services; Department of Defense and other Federal Agencies; selected local, state and national governments; and members of the armed forces of other nations.

The training institutions for which this budget provides operation and maintenance funds are:

PROGRAM: TRAINING

I. Description of Operations Financed (Continued):

The development and improvement of training technology and the distribution of instructional programs are financed by this budget program. Program 8-Training also provides training assistance to Active and Reserve Component units and their assigned personnel outside the training establishment. This assistance includes the procurement and distribution of certain training aids and devices, audio-visual instructional materials, and training publications for Army-wide and DOD-wide use.

The FY 1987 request for Program 8-Training (Mission) totals \$1,195,767, a net increase of \$73,467 over FY 1986. Of this amount, \$49,865 is related to program growth. These resources provide for the Force Modernization program, reserve component training, centralized PTC/BTC training management, and an increase of 1,539 training loads. Funding for Force Modernization will provide for the initial provisioning of equipment used in training, operator and maintenance training, training manuals and course material, and recurring costs associated with systems already fielded.

The Program 8 Training (Base Operations) request provides for the operation and maintenance of installation support, less real property maintenance activities, for the Army Training Base at 18 installation/locations in CONUS. Support provided includes: supply operations; maintenance of materiel; transportation services; laundry and dry cleaning services; Army Food Service Program; bachelor housing operations and furnishings; personnel, administration; automation activities; community and morale activities; and preservation of order.

The Real Property Maintenance Activities (RPMA) provides support for 18 Army installations in the Army's Training Base, including the US Army Military Academy. This support includes: operation of utilities; maintenance of real property; minor construction; and other engineering support.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: RECRUIT TRAINING

I. Narrative Description

This activity group provides for the operation and support of Army Training Centers where Basic Training (BT) is conducted. Recruit Training is the eight week introductory and combat survival skill training given to enlisted personnel upon their initial entry into military service or to prior service personnel in need of refresher training. This training provides an orderly transition from civilian to military life, motivation to become a dedicated and productive member of the Army, and the basic combat survival skills required of all service members. This activity group also supports the training of personnel attending ROTC Basic Summer Camp at the Army Training Center, Ft. Knox, KY.

Training input is programmed based upon the approved Army Manpower Program, the Army National Guard and US Army Reserve Active Duty for Training Program, and the individual skill requirements established by the Army's Director of Training as reflected in the Army's Program for Individual Training (ARPRINT).

II. Description of Operations Financed

Costs charged to this account include civilian pay and benefits, trainee support, resident instruction, local preparation of training aids and training literature, consumer procurement of supplies and equipment, and contractual services. Also included are temporary duty (travel and per diem) for staff and faculty trips, and organizational clothing and equipment issued for use during the training period.

These associated costs are a combination of fixed, semi-fixed and variable costs. Fixed costs related to items such as minimum level of staffing, equipment and communications will be incurred as long as these functions are performed. Semi-fixed costs within certain ranges are not directly influenced by changes in training loads. Changes above or below these ranges necessitate the addition or deletion of items such as personnel staffing, equipment and communications. Costs in this account are primarily variable and determined by annual increases or decreases in training workload requirements. The FY 1987 resources in this activity group support a training workload requirement of 19,606, an decrease of 61 over the FY 1986 requirement of 19,667.

B. Reconciliation of Increases and Decreases (Continued):

Program Increases

Civilian Substitution (Base: \$436)	\$ 83
The FY 1987 program supports increased workyears and funding to continue the civilian substitution program. The civilian substitution program converts appropriate military positions to civilian and assigns released military manpower to other high priority force structure initiatives. The program increases readiness and improves force structure without increasing military end strength.	

Total Program Increases	\$ 83
-------------------------------	-------

Program Decreases

Training Workload (Base: \$6,385)	\$ -16
Recruit Training workload decreases from 19,667 in FY 1986 to 19,606 in FY 1987. (-61 loads x \$264 variable cost factors/load=\$-16).	

Total Program Decreases	\$ -16

V. Personnel Summary (Continued):

CIVILIAN

The net increase of one US direct hire in FY 87 is due to realignment of recruit training (+10) and force modernization (-9).

MILITARY

The net decrease of eight non-trainee end strength in FY 87 is associated with operation and support of Army training centers where basic training is conducted (-111); force modernization (-5); morale, welfare, and recreation activities (-6); and military intelligence unit training (+114).

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: ONE STATION UNIT TRAINING (OSUT)

I. Narrative Description

This activity group provides for the operation and support of initial entry training under the One Station Unit Training (OSUT) concept. OSUT combines Recruit Training and Initial Skill Training (Enlisted) in combat arms and certain combat support skills into a single course conducted by a single training unit under one cadre group for the entire period of training. OSUT requires less training time than separate Recruit Training and Initial Skill Training courses it replaced; in FY 1987 the Recruit Training/Initial Skill Training (Enlisted) combination average about 18 weeks, while the shorter OSUT courses will average 14 weeks.

Training input is programed based on the Approved Army Manpower Program, and the Army National Guard and US Army Reserve Active Duty for Training Program, and the individual skill requirements established by the Army's Director of Training as reflected in the Army's Program for Individual Training (ARPRINT).

II. Description of Operations Financed

Costs charged to this account include civilian pay and benefits, trainee support, resident instruction, local preparation of training aids and training literature, consumer procurement of supplies and equipment, and contractual services. Also included are temporary duty (travel and per diem) for staff and faculty trips, and organizational clothing and equipment issued for use during the training period.

These associated costs are a combination of fixed, semi-fixed and variable costs. Fixed costs related to items such as minimum level of staffing, equipment and communications will be incurred as long as these functions are performed. Semi-fixed costs within certain ranges are not directly influenced by changes in training loads. Changes above or below these ranges necessitate the addition or deletion of items such as personnel staffing, equipment and communications. Costs in this account are primarily variable and determined by annual increases or decreases in training workload requirements. The FY 1987 resources in this activity group support a training workload requirement of 19,141 a decrease of 56 over the FY 1986 requirement of 19,197.

V. Personnel Summary (Continued):

CIVILIAN

The net increase of 151 US direct hire spaces in FY 1987 results from civilian substitution (+133); force modernization (+80); integrated recruit skill training (-59); and management efficiency initiatives (-3).

MILITARY

The net decrease of 23 non trainee end strength in FY 1987 is associated with training support for the 9th Infantry Division (Motorized) (+20); civilian substitution (-133); organizational effectiveness reduction (-1); morale, welfare, and recreation activities (-4); and force modernization related to Integrated Recruit Skill Training (+95).

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: OFFICER ACQUISITION

I. Narrative Description

This activity group provides for the operation and support of the United States Military Academy (USMA), the United States Military Academy Preparatory School (USMAPS) and the Branch Immaterial Officer Candidate Course (BIOCC).

With an average enrollment of 4,500 cadets, the US Military Academy curriculum is oriented primarily toward academics during the school year and intensive military training during the summer months. Each July approximately 1,450 new cadets are trained and equipped to enter the Corps of Cadets, bringing the USMA up to its authorized strength. The four-year course of instruction, which results in a Bachelor of Science degree, is designed to produce career-oriented officers for the Army.

The US Army Military Academy Preparatory School located at Ft. Monmouth, NJ, has an average student enrollment of 320 cadet-candidates. The school curriculum is designed to assist selected members of the Armed Forces to qualify academically, physically, and militarily for entrance into USMA. The 10-month curriculum concentrates on mathematics, English, and physical development. Most graduates of USMAPS will receive appointments to the USMA.

The Branch Immaterial Officer Candidate Course trains selected enlisted persons to serve as commissioned officers in units of the Active and Reserve Components. With an average load of approximately 210, this 14-week course commissions officers in all of the accession specialties. Management of the program is accomplished by the US Army Training and Doctrine Command (TRADOC) through the Officer Candidate School located at Fort Benning, GA.

V. Personnel Summary (Continued):

CIVILIAN

The increase of three US direct hire spaces in FY 1987 is the result of warrant officer training support (+1); civilian substitution (+1); and the redistribution of information systems resources (+1).

MILITARY

The decrease of five non-student/cadet end strength in FY 87 reflects changes in service academy support for morale, welfare, and recreation.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: SENIOR RESERVE OFFICERS' TRAINING CORPS (ROTC)

I. Narrative Description

This activity group provides for the operation of the Army Senior Reserve Officers' Training Corps (ROTC) program. The objective of ROTC is to attract, motivate and prepare selected college students with potential to serve as commissioned officers in the Regular Army, Army National Guard or US Army Reserve. Management of the program is accomplished by the US Army Training and Doctrine Command (TRADOC), through four ROTC regional headquarters, and 314 ROTC host detachments, 105 extension centers and over 1000 cross-enrolled college campuses. The program consists of either a two-year basic course or a six-week basic camp, follow by a two-year advanced course at ROTC locations throughout the United States and its territories. Normally between their junior and senior years, ROTC cadets attend an advanced camp where they receive military training under field conditions. After successful completion of the program, the cadets are commissioned as second lieutenants.

II. Description of Operations Financed

Funds provide for support of on-campus operations and training, scholarships for selected students, summer camp operations, and the operation of the four ROTC regional headquarters. On-campus support requires funds for civilian pay and allowances; temporary duty (travel and per diem); and the purchase and transportation of organizational clothing and equipment, textbooks, reference publications, and supplies. Scholarship funds provide for tuition costs, academic texts and laboratory fees for the 12,000 students who are awarded or continued on scholarships each year. Summer camp funds provide for the temporary hire of civilian personnel and the temporary duty (travel and per diem) of Active Army cadre for the camps. ROTC Regional Headquarters funds pay for civilian pay and allowances, TDY costs, and operating supplies and equipment.

III. Financial Summary (\$ in Thousands)

B. Reconciliation of Increases and Decreases (Continued):

Program Increases

(2) Enhanced Skill Training: Cadet Skills Development Program (Base: \$0) ... \$	2,424
Provides a skill development program to ROTC cadets attending the 21 Historically Black Colleges (HBC). It is intended to diagnose and treat those HBC students with deficiencies in reading, written and oral communications, mathematics, and cognitive skills as they relate to on-duty performance requirements in the Army. Program is vital to ensure HBC ROTC cadets will meet the certification standards required for commissioning during their MS IV year and provide high quality HBC officers for the Army.	

(3) DASE ROTC Co-op Program (Base: \$ 0)	\$ 1,000
The Department of Army Scientific and Engineering Co-op Program is designed to strengthen ROTC recruitment and retention of high quality scientific and engineering students. Resources will provide tuition assistance of \$5,000 per student for the 200 student hires forecast for FY 1987. Tuition assistance is a significant recruitment incentive but is also a retention aid due to the continued service obligation which is incurred. It is repaid hour for hour in active duty time or professional civil service after graduation. The program offers students who join ROTC, pre-professional work-study opportunities at Army scientific and engineering offices and laboratories. They receive salary, tuition, and employment benefits. Those students who graduate and go on active duty accrue additional benefits if they eventually seek civilian employment such as mandatory placement rights and reinstatement without examination. Students who go on reserve duty are offered professional civil service jobs with the Army.

The decrease of 94 end strength in FY 1987 results from civilian substitution (-90); and organizational effectiveness reduction (-4).

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: SPECIALIZED TRAINING

I. Narrative Description

This activity group provides for the operation and support of the Army's training centers and schools that conduct specialized skill training. Specialized Training programs provide officer and enlisted personnel with the skills and knowledge needed to perform specific jobs. Many duty positions in the Army structure have been analyzed to determine the skills necessary to insure that the job is done properly and efficiently. Specialized Training imparts these required skills to the proper number of individuals annually so that each position vacancy in the structure can be filled promptly with a qualified replacement. This grouping also includes training at the Defense Information School and Defense Language Institute Foreign Language Center. Resident Specialized Training includes initial, progression and functional training for both officer and enlisted members. Army Specialized Training can best be described in the following five categories.

Initial Skill Training (Enlisted). This includes all formal training normally given immediately following Recruit Training and leading to the award of a military occupational specialty (MOS) at the lowest level. One Station Unit Training (OSUT) satisfies this purpose but, since it combines skill training with recruit training in a single course, it is treated separately in its own activity group. The Army's Initial Skill Training Program includes 576 separate courses.

Skill Progression Training (Enlisted). This category of training is received by enlisted members subsequent to initial skill training. Through this training the student gains the knowledge to perform at a higher skill level or in a supervisory position. There are 280 skill progression courses available. This category includes training under the Non-commissioned Officer Education System at the mid and lower non-commissioned officer levels.

Initial Skill Training (Officer). This training is oriented toward the specific type duty the newly commissioned officer will be performing at the first duty assignment. With minor exceptions, all newly commissioned officers attend officer basic courses at their branch schools. These courses are generally 16-19 weeks in length.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: SPECIALIZED TRAINING

I. Narrative Description (Continued):

Skill Progression Training (Officer). In general, this training is aimed at officers with several years of practical experience and provides the knowledge needed to assume more advanced responsibilities. The advanced courses are structured to prepare the officer students for battalion and brigade staff duties in addition to command responsibilities at the company and battery level. Officer Skill Progression Training also includes on-going improvements in officer education and training to include the Combined Arms and Services Staff School.

Functional Training. This covers all other subject areas and cuts across the spectrum of military occupational specialties by providing additional required skills without changing the officer or enlisted member's primary MOS. Included in this category are airborne, ranger and special forces qualification courses.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: SPECIALIZED TRAINING

II. Description of Operations Financed

Costs charged to this account include civilian pay and benefits, trainee support, resident instruction, local preparation of training aids and training literature, consumer procurement of supplies and equipment, and contractual services. Also included are temporary duty (travel and per diem) for staff and faculty trips, and organizational clothing and equipment issued for use during the training period.

These associated costs are a combination of fixed, semi-fixed and variable costs. Fixed costs related to items such as minimum level of staffing, equipment and communications will be incurred as long as these functions are performed. Semi-fixed costs within certain ranges are not directly influenced by changes in training loads. Changes above or below these ranges necessitate the addition or deletion of items such as personnel staffing, equipment and communications. Program increases include manpower issues, Equipping the Force, and qualitative improvements and expansion of NCO and Officer courses.

|-----|---|----------|
| (6) | Commercial Activity Military Replacement (Base: \$3,219) | \$ 2,157 |
| | Resources support conversion of 80 military manpower spaces in TRADOC commercial activities whose cost studies finish in either FY 1985 or 1986. Conversion to either contract costs or, for in-house wins, to Federal civilian employees is costed at \$27K per military space replaced. Funds are linked to specific commercial activity cost studies, and are maintained at HQDA until cost studies final decisions are approved. Funds are provided only for studies where the military comprise at least 20% of the functions workforce. | |
| (7) | Civilian Substitution (Base: \$10,798) | \$ 2,287 |
| | The FY 1987 program supports increased workyears and funding to continue the civilian substitution program. The civilian substitution program converts appropriate military positions to civilian and assigns released military manpower to other high priority force structure initiatives. The program increases readiness and improves force structure without increasing military end strength. | |

III. Financial Summary (\$ in Thousands)

B. Reconciliation of Increases and Decreases (Continued):

Program Increases			
(8) Commercial Activities/Cost Analysis (Base: \$7,068)	\$	1,256	
Resources provide an additional 44 Commercial Activity (CA) Program operational staff (management analysts, cost analysts, procurement specialists) and support staff (civilian personnel specialists) at TRADOC installations to complete scheduled CA cost studies. No end strength is requested; manpower is to be generated by TRADOC through CA civilian spaces saved.			
(9) Manpower Standards Studies (Base: \$0)	\$	2,949	
This initiative will employ the latest industrial engineering/management techniques to provide workload driven manpower requirements in Table of Distribution and Allowance (TDA) units. Disciplines manpower documentation through better review and audit. Addresses Congressional and GAO criticism and complies with Defense Guidance.			
(10) Training Workload (Base: \$41,123)	\$	1,433	
Specialized Training workload increases from 59,140 in FY 1986 to 60,801 in FY 1987. (1,661 loads x \$863 cost factor = \$1,433)			
(11) Force Modernization sustainment (Base: \$23,910)	\$	1,401	
Provides the full year operating costs for sustainment of training for new or modernized equipment entering the inventory prior to FY 1987. Resources developer commands to provide new publications, training devices and course modifications.			
(12) Officer Training (Base: \$6,233)	\$	960	
Expands training of company grade officers at the Combined Arms and Services Staff School from 2400 in FY 86 to 4500 in FY 87.			
Total Program Increases	\$	27,626

JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: SPECIALIZED TRAINING

V. Personnel Summary (Continued):

CIVILIAN

The net increase of 251 US direct hire spaces in FY 1987 results from civilian substitution (+125); force modernization training (+37); functional course training to support force restructuring (+60); officer training (-5); increased NCO training (+51); increased security training (+5); foreign language training (-59); advanced individual training (+163); other training realignments (-78); and management efficiency initiatives (-48).

MILITARY

The decrease of 562 non student/trainee end strength in FY 1987 is associated with General Skills training (-383); General Intelligence Skills training (+3); Cryptologic and Signal Intelligence related skills training (-18); civilian substitution (-125); and organizational effectiveness reduction (-39).

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: FLIGHT TRAINING

I. Narrative Description

This activity group provides for the operation and support of the Army's Flight Training programs conducted at the US Army Aviation Center (USAAVNC), Ft. Rucker, Alabama. The courses included in the Army's Flight Training programs are categorized as either Undergraduate or Graduate Pilot Training. Undergraduate Helicopter Pilot Training qualifies both commissioned and warrant officer aviation students to perform duties and assume the responsibilities of Army pilots. Training through flying and in-flight simulators is augmented by flight-related ground training and officer development training to prepare the student for the responsibilities of a junior officer. Graduate Pilot Training includes courses for instructor pilots, instrument flight examiner, gunnery and specific pilot qualification courses in various aircraft. Most graduate courses are of short duration, two to seven weeks.

In addition to the flying program, non-flight courses are taught for officers, warrant officers, warrant officer candidates and enlisted personnel. Included in this training are the Aviation Commanders Readiness Course, Flight Simulator Specialist and various aviation maintenance courses.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: FLIGHT TRAINING

II. Description of Operations Financed

Costs charged to this activity group include student support, school preparation of training aids and training literature for resident and non-resident instruction, supplies and equipment, contractual services, civilian pay and allowances, maintenance of the aviation school libraries, and the training required to develop and maintain instructor proficiency. Also included are charges for temporary duty (travel and per diem) for staff, faculty and student trips in conjunction with the school curriculum; aircraft POL; and the operation of the aviation school airfields and airfield equipment.

Fixed, semi-fixed and variable costs are charged to this activity group. Fixed costs related to minimum staffing levels, equipment and communications support which will be incurred as long as the USAAVNC remains in operation. Semi-fixed costs within certain predetermined ranges are not directly influenced by changes in instructor and support staffing, equipment and communication levels. The variable costs in this activity group are determined by annual increases and decreases in aviation training workload requirements.

There are additional costs of Training Army aviators on the new aircraft being fully loaded into the flight training program; e.g., F4-69 Blackhawk, AH-1S Cobra, AH-64 Apache, and the C-119.

PROGRAM: TRAINING

ACTIVITY GROUP: PROFESSIONAL DEVELOPMENT EDUCATION

I. Narrative Description

This activity group provides for professional development education for selected military and civilian personnel of the Department of the Army, Department of Defense and other federal agencies to prepare them to perform the increasingly complex tasks which become their responsibilities as they progress in their military or government careers. Professional development education is conducted at military and civilian institutions in the United States as well as at military schools of other nations. Included in this activity group is the Army Sergeants Major Academy. Otherwise the Professional Development Education programs are for officers or government civilians.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING

ACTIVITY GROUP: PROFESSIONAL DEVELOPMENT EDUCATION

II. Description of Operations Financed

This activity group provides for the operation and support of the Army War College, Command and General Staff College, the Army Sergeants Major Academy and Department of Defense sponsored schools for which the Army has executive agent responsibility. Also provided are the tuition and fees for the fully-funded graduate education program and tuition, fees and temporary duty (travel and per diem) for the Army officers attending foreign military schools. The intermediate and senior service colleges included in this activity group are as follows:

Intermediate Service Schools

US Army Command and General Staff College (USAC&GSC), Ft. Leavenworth, Kansas. An Army college providing intermediate level military education to officers of the Active and Reserve Components world-wide, to prepare them for duty as field grade commanders and principal staff officers at brigade and higher echelons. It also provides students with a firm foundation for continued professional growth.

US Army War College (AWC), Carlisle, Pennsylvania. An Army college which provides senior level education in the art and science of land warfare; performs strategic studies on the nature and use of the US Army during peace and war; and formulates strategic concepts in order to assist in achieving US national objectives.

Defense Systems Management College (DSMC), Ft. Belvoir, Virginia. A Department of Defense college (the Army is executive agent for administration) which provides a curriculum uniquely designed to further the professional development of selected military officers of all services and civilian personnel in the field of program management and defense systems acquisition management.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING

ACTIVITY GROUP: PROFESSIONAL DEVELOPMENT EDUCATION

II. Description of Operations Financed (Continued)

Senior Service Colleges

National Defense University (NDU), Ft McNair, Washington, DC. A joint institution (the Army is executive agent for administration) under the direction of the Joint Chiefs of Staff chartered to insure excellence in professional military education in the essential elements of national security and their interrelationships. The National Defense University prepares selected personnel of the Department of Defense, the Department of State, and other agencies of the federal government for senior policy making positions, high level command and staff, and responsibilities for planning national security. Provides education in information research management for senior and intermediate level executive users of information systems in DOD. Conducts research and provides consulting services on information technology.

National War College (NWC). A joint college providing senior level courses of study and associated research on national security policy. Emphasis is on its formulation and future directions in order to prepare selected personnel of the Department of Defense, the Department of State, and other US Government departments and agencies for high level joint and combined policy making positions, command and staff, and functions in the planning and implementation of national strategy.

Armed Forces Staff College (AFSC), Norfolk, Virginia. The AFSC is a mid-level management college for officers of the rank of major, lieutenant colonel, lieutenant commander and commander with an average of 13 years service. It conducts two 23 week courses annually in joint and combined staff planning and operations.

Industrial College of the Armed Forces (ICAF). A joint college providing senior level courses of study and associated research in the management of resources in the interest of national security. The course prepares selected military officers and senior career civilian officials for positions of high trust in the Federal Government.

The net decrease of one non student end strength in FY 87 is due to civilian substitution (-2); Defense Systems Mmanagement College support (+1).

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: TRAINING SUPPORT

I. Narrative Description

This activity group includes the categories of training resources that support individual training conducted at the Army's training centers and schools, and individual training conducted at Active and Reserve Component Units and the development of training materials used Army-wide. Also included in this activity group are the resources required to operate the Headquarters, US Army Training and Doctrine Command (TRADOC), the TRADOC Installation Training and Audio-Visual Support Centers, to support temporary duty (travel and per diem) for training, and to evaluate training effectiveness, and to provide training developments, audio visual support, and training support to MACOMS, Training Centers and Schools (TCS), and Defense activities.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: TRAINING SUPPORT

II. Description of Operations Financed

Support of the Training Establishment. Training evaluation activities and student temporary duty (travel and per diem) costs for military personnel attending Army, DOD or schools of other services and nations, as well as civilian institutions.

Training Developments. The process of design, development, and validation of Army training materials. Army training development employs the System Approach to Training (SAT) methodology which involves needs analysis, detailed task analysis, the design of appropriate training strategies and the techniques to address the identified requirements, development of appropriate instruction, validation, testing and feedback in order to verify the effectiveness of the training package, and finally, the implementation of a complete performance-oriented training program. This account supports all Army approved resident and nonresident training programs including Soldiers Manuals (SM), Extension Training Materials (ETM), Army Training and Evaluation Programs (ARTEP), Job Books, How-to-Fight Manuals, and other training manuals and circulars. The introduction of new weapon systems and equipment into the Army inventory, recent major changes in the Army's divisional structure, and the resultant changes in tactical employment concepts have increased the requirements placed upon the Army's training development community.

Audio-Visual Activities (Training). Management, administration and operation of dedicated, regional, MACOM, and service-wide audiovisual activities. Provides audiovisual services and production to include in-house or contract operations pertaining to still and motion picture photography; television and audio recording; audiovisual production; replication and distribution (library activities; presentation system; graphic arts; visually based multi-media materials; and the fabrication, storage, loan/issue and organizational maintenance of audiovisual products and equipment, displays; training aids and training devices in support of assigned missions). Includes civilian personnel hire, temporary duty travel, contractual services, and procurement of supplies, materials, and expense items of equipment. Includes TRADOC schools and centers, ALMC, NDU, ICAF, AWC, USMA, CGSC, NWC, and USAAVC for support of Army-wide training audiovisual product production, replication and distribution.

Management Headquarters. The operation of Headquarters, US Army Training and Doctrine Command (TRADOC) at Ft. Monroe, Virginia.

B. Reconciliation of Increases and Decreases (Continued):

Program Increases

- | | | |
|-----|---|--------|
| (1) | FY 1987 Force Modernization Program (Base: \$31,611) \$
Provides mission operating funds to support the fielding of selected new or modernized equipment entering the active force inventory in FY 1987. (For details on specific systems see "Intensively Managed Systems" section.) | 6,538 |
| (2) | Special Operating Force Language Program (Base: \$0) \$
Resources the Defense Language Institute for development, production and distribution of exportable training packages for 28 foreign languages. These training packages will provide sustainment language training for Special Operating Forces. | 2,226 |
| (3) | Integrated Personnel Support (Base: \$0) \$
Provides resources for contract studies on new equipment using the HARDMAN Analysis Package. This analysis is designed to fully integrate consideration of human factors, personnel, manpower and training in the system acquisition process. Matches personnel to equipment (man/machine interface) to reduce later modification of overly complex equipment, provide personnel with proper skill levels as operators, and provide proper personnel training. | 1,774 |
| (4) | Force Modernization Sustainment (Base: \$8,177) \$
Provides the full year operating costs for sustainment of training for new or modernized equipment entering the inventory prior to FY 1987. Resources developer commands to provide new publications, training devices and course modifications. | 12,749 |

PROGRAM: TRAINING
ACTIVITY GROUP: TRAINING SUPPORT

III. Financial Summary (\$ in Thousands)

B. Reconciliation of Increases and Decreases (Continued):

Program Increases

(5) Reception Station Operational Evaluation (Base: \$0)	\$ 377
Resources the evaluation of the capability of two of the eleven USAR Reception Stations annually. Results will provide a basis for recommending changes to TDAs, policy and plans to allow the Army Training Base to better expand and meet its mission upon mobilization.	
(6) CENTCOM POL Support (Base: \$0)	\$ 1,339
Provides for development of new course and training manuals for training on an aluminum pipeline system. Will provide a self paced advanced individual training module of 6-7 weeks duration. Will provide realistic, hands-on training on new pumps, aluminum pipelines, new couplings and improved storage and distribution equipment.	
(7) Civilian Substitution (Base: \$11,350)	\$ 2,506
The FY 1987 program supports increased workyears and funding to continue the civilian substitution program. The civilian substitution program converts appropriate military positions to civilian and assigns released military manpower to other high priority force structure initiatives. The program increases readiness and improves force structure without increasing military end strength.	
Total Program Increases	\$ 27,509

OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: TRAINING SUPPORT

V. Personnel Summary (Continued):

CIVILIAN

The net increase of 178 US direct hire spaces in FY 87 results from civilian substitution (+75); management of retiree recall (+3); security training improvements (+16); training developments (+168); training support realignments (-74); force modernization training (+32); functional course training to support force restructuring (+6); and management efficiency initiatives (-48).

MILITARY

The net decrease of 213 end strength in FY 87 is due to support to training establishments (+193); training development (-354); training materials and devices (+17); civilian substitution (-75); and ADP Logistics Support (+6).

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: BASE OPERATIONS

I. Narrative Description: This budget activity provides for the operation and maintenance of installation support, less real property maintenance, for the Army Training Base at 18 installations/locations in CONUS. The FY 87 request totals \$752.7 million which includes inter-appropriation transfers of \$6.7 million and \$8.5 million in net program growth. Major areas of program growth include continued support of the force modernization program (\$1.6 million), the increased funding for the Army Family Program (\$4.2 million), continued replacement of military through the Commercial Activities Program (\$ 5.9 million), implementation of a drug suppression program (\$.7 million), and continuation of the civilian substitution program (\$2.7 million). Major program decreases include savings to be achieved as a result of reductions in TRADOC's travel program (\$.9 million) and Printing Program (\$6.0 million), plus an overall reduction in the Base Operating Support levels (\$.1 million).

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000):

- A. Supply Operations (\$62,187): Finances the operation of consolidated post supply. Includes the operation of self-service centers, clothing issue points, POL resale points and Office of the Director of Logistics (DOL). Finances pay and allowances for 1,960 civilian personnel.
- B. Maintenance of Materiel (\$128,118): Finances Direct and General Support Maintenance of Support Systems such as aircraft, vehicles, and installation equipment. Finances pay and allowances for 2,021 civilian personnel.
- C. Transportation Services (\$68,244): Finances the operation of local (installations) non-tactical motor transportation service to include government-owned vehicles and rented or leased commercially-owned vehicles; finances operation of rail equipment used for intra-installation transportation; finances pay and allowances for 1,484 civilian personnel.
- D. Laundry and Dry Cleaning Services (\$13,889): Finances operation of laundry and dry cleaning plants and contracting for such services where Army-owned plants are not operated. Finances pay and allowances for 168 civilian personnel.
- E. Army Food Service Program (\$99,382): Finances operation and administration of food supply and food preparation facilities, and dining facilities. Finances pay and allowances for 256 civilian personnel.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: TRAINING
ACTIVITY GROUP: BASE OPERATIONS

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000)
(Continued):

F. Personnel Support (\$60,544): Finances Director/Chief Personnel and Community Affairs, command information programs, alcohol and drug abuse program, military/civilian personnel activities, reenlistment activities, and safety functions. Finances pay and allowances for 2,507 civilian personnel.

G. Unaccompanied Personnel Housing Operation, Administration, and Furnishings (\$23,969): Finances the purchase, control, moving, and handling of bachelor housing furnishings for bachelor officer quarters and bachelor enlisted quarters, and the operation and administration of all unaccompanied personnel housing. Finances pay and allowances for 260 civilian personnel.

H. Administration (\$33,390): Finances activities concerned with the Installation Commander/Garrison Commander/Chief of Staff; and other installation-wide activities not otherwise provided for, such as Headquarters Commandant, Inspector General, Staff Judge Advocate, Chaplain, Public Affairs Office, Equal Employment Opportunity, and Internal Review activities. Finances pay and allowances for 1,354 civilian personnel.

I. Automation Activities (\$42,025): Finances Office, Director/Chief of Information Management and automation activities in support of base operations including data processing and office automation. Finances pay and allowances for 50 civilian personnel.

J. Community and Morale Support Activities (\$50,478): Finances the development, staffing, equipping, administering and operation of installation libraries, sports programs, Army Community Service Activities, Child Support Services and separate Army bands. Finances pay and allowances for 1,060 civilian personnel.

K. Preservation of Order (\$19,396): Finances police services at 18 installations to include military police operations, installation level confinement activities, physical security operation and operation of physical security equipment. Finances pay and allowances for 553 civilian personnel.

DEPARTMENT OF THE ARMY

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000)
(Continued):

L. Reserve Component Support (\$1,717): Finances administrative support for Reserve Component units and ROTC personnel participating in inactive duty training, annual training, or mobilization exercise at the installation. Finances pay and allowances for 56 civilian personnel.

M. Directorate of Resource Management (\$71,622): Finances Office of the Director and the administration of all resource management functions such as Finance and Accounting, Programming and Budgeting, Management Analysis, Productivity Analysis, Commercial Activities and Efficiency Review, Army Performance Oriented Review and Standards, and Internal Control Programs. Finances pay and allowances for 3,019 civilian personnel.

N. Directorate of Plans, Training and Mobilization (\$36,831): Finances the Office of the Director and management of training facilities, training aids, range operations, BASOPS Flying Hour Program, museum activities, and mobilization support. Finances pay and allowances for 859 civilian personnel.

O. Director of Contracting/Contracting Division (\$15,720): Finances the Office of the Director and administration of contracts and purchases for the installation. Included are functions such as preparation of performance work statements, quality assurance and the contract audit tracking program. Finances pay and allowances for 581 civilian personnel.

P. Security and Counterintelligence Operations (\$1,964): Finances the Office of the Director/Chief of Staff and management of security counterintelligence and planning functions at the installation. Finances pay and allowances for 76 civilian personnel.

Q. Records Management, Publications (\$23,240): Finances the operation of records management, records holding areas, mail distribution centers, printing plants, and printing and reproduction of publications. Finances pay and allowances for 739 civilian personnel.

strength and 158 work years.

b. Transfer From - Operations and Maintenance, Army Reserve.....\$ 1,717
Transfers the administration of the Director Reserve Component
Support (DRCS) established at installations having respon-
sibility for directly supporting reserve component units or
personnel. Transfer aligns budgeted level of resources to new
Standard Installation Organization (SIO) concept of managing
and organizing installations and adds 56 civilian end strength
and 55 work years.

Total Transfers In.....\$ 6,767

Transfer Out:

Transfer To - Program 2 Base Operations.....\$ -114
Transfers 7 civilian end strength and 7 workyears associated
with the realignment of Ft A. P. Hill as a Forces Command OMA
funded installation.

Total Transfers Out.....\$ -114

B. Reconciliation of Increases/Decreases (Continued)

Program Increases

- | | | |
|----|---|-------|
| a. | Army Community Service (ACS) (Base: \$2,548).....\$ | 2,434 |
| | Funding provides for fully implementing the exceptional family member, financial planning and assistance, and family member employment programs at all ACS Centers. ACS centers will implement a contract outreach program designed to export social services to family members residing off post, often in isolated locations. First term families will be the primary target for this program. ACS Centers have also been resourced for contract coordinators who will recruit and train volunteers to support the many ACS activities. Contract funding for TRADOC family action initiatives is also provided. These "family programs" will significantly improve the support provided by the ACS Centers. | |
| b. | Child Development (Base: \$2,552).....\$ | 1,780 |
| | Additional contract funding is provided for first line supervisors of care givers at all existing child development centers. For new child care centers being constructed, funds are provided for equipment, supply, and contract staff. Increases contract resources are provided to expand the quarters based child development program at all installations and to implement an after school program to supervise the activities of children who traditionally return from school to an empty home. These "family programs" will significantly improve the quality of child development services throughout the Army. | |

withdrawn by HQDA for reallocation and either civilians or contract staff are provided in their place. Conversions are programmed only for cost studies where the military comprise at least 20% or more of the studied functions workforce. These funds provide for converting 399 military spaces at TRADOC and adds 399 civilian end strength and 393 workyears.

f. Drug and Alcohol Testing (Base: \$0).....\$ 698

Funds state of the art technology to allow local commanders to conduct preliminary drug testing, with follow on confirmation at laboratories, for marijuana, cocaine and amphetamines. Current procedures require that soldiers be withheld from duty pending laboratory analysis of standard drug tests. With Unit Level Drug Testing commanders will use portable drug test kits to determine which soldiers can be immediately returned to duty and which soldiers require further testing and analysis by Army labs. The quick return of non drug users to duty stations will result in a direct increase in unit morale and a quantifiable increase in unit and combat readiness.

g. FY 1987 Force Modernization Program (Base: \$2,971).....\$ 1,576

Provides base operating funds to support the fielding of selected new or modernized equipment entering the active force inventory in FY 87 to include resources for the initial provisioning (Authorized Stockage List/Prescribed Load List - ASL/PLL) of repair parts and maintenance

PROGRAM: Army RPMA Activities
ACTIVITY GROUP: Training and Education

I. Narrative Description (Statement of Requirements and Mission)

This budget activity provides Real Property Maintenance Activities (RPMA) for eighteen Army installations in the Army's Training Base, including the US Army Military Academy.

II. Description of Operations Financed

A. Funds provide support in four functional areas of Real Property Maintenance Activities. These functional areas are:

1. Operation of Utilities (\$148,395). Finances expenses for procurement and distribution of utilities for US Army Training and Doctrine Command installations and The US Army Military Academy. Included are purchased utilities, purchased water, operation of water plants and distribution systems, and sewage and waste systems. Finances pay and allowances for 500 civilian personnel.
2. Maintenance and Repair of Real Property (\$337,096). Finances maintenance and repair of buildings, structures, grounds and utility systems at TRADOC installations and the US Army Military Academy. Includes pay and allowances for 3,124 civilian personnel.
3. Minor Construction (\$42,122). Finances the erection, installation or assembly of a new facility, or the addition, expansion, alteration or conversion of an existing real property facility when project costs do not exceed \$200 thousand.
4. Engineer Support (\$118,748). Finances other facilities engineering services such as fire protection, custodial services, pest control, refuse collection and disposal, snow removal and ice alleviation. Includes pay and allowances for 2,907 civilian personnel.

Program Changes

Program Increases

- | | | |
|----|---|----------|
| a. | Master Planning (Base: \$4,000) | \$ 2,866 |
| | This adjustment adds money for Architect-Engineering services for preparation and updating planning documents. Because of inadequate funding in this area in past years, an attempt is being made to accelerate master planning efforts to coincide with increased construction programs and this programmatic increase will contribute to that effort. | |
| b. | Force Protection (Base: \$120) | \$ 461 |
| | Provides resources to achieve adequate protection of personnel, equipment, training and facilities in the total force from attacks/incidents initiated by terrorist and other criminal elements. Erects fencing, lighting, concrete barriers and other protective systems at TRADOC installations. | |
| c. | Living/Working Conditions (Base: \$113,285) | \$ 399 |
| | Provides resources to improve the environment which soldiers and their families must live and work. | |

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: MEDICAL PROGRAMS

I. Description of Operations Financed:

This program provides health services in support of the United States Army. Major objectives of the program are to: maintain physically and mentally fit soldiers; assure timely availability of trained health manpower to deploy in support of Army combat, contingency and mobilization plans; provide hospitalization capabilities in the combat zone, the communications zone, and Continental United States for casualties evacuated from a combat zone; provide health services for dependents of soldiers, retired members and dependents, survivors of deceased soldiers, and other eligible beneficiaries; and provide a major incentive for soldiers and health professionals to select military service as a career.

Objectives are accomplished by operating a wide range of health programs and services. Involved are the sciences of preventive and curative medicine, dental, and veterinary services. These services are delivered through such activities as medical centers, Army community hospitals, and outpatient clinics. Supportive of the Direct Health Care System is the Medical Training Program. Graduate Medical Education programs based primarily in medical centers develop the needed specialists, foster professional excellence and attract health professionals to a military career. Care and treatment of eligible beneficiaries where and when available is a beneficial by-product of these training missions. The Academy of Health Sciences located at Fort Sam Houston, Texas provides systematic progressive education programs for Army Medical Department officers, enlisted personnel for both active and Reserve Components, and civilian employees in the field of health sciences. Other supportive activities to the Direct Care System include various medical laboratories and agencies.

The mission funds requested in FY 1987 are \$1,444.2 million, a net increase of \$ 48.9 million above the FY 1986 estimate. The increase supports increased operating costs, increased support of Family Programs, Health and Fitness Centers, and Light Infantry Divisions, and enhanced quality of patient care.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: MEDICAL PROGRAMS

I. Description of Operations Financed (Continued):

The primary health care function is delivered through the operation of 50 hospitals plus numerous separate dispensaries and health clinics. These facilities will support 2.6 million patient days of hospitalization, 22.8 million clinic visits, and 21.5 million dental procedures. In addition, 42 thousand patient days of hospitalization and 723 thousand clinic visits will be obtained from other sources, primarily from facilities operated by the Veterans Administration and contractor operated facilities formerly under the auspices of the Public Health Service.

OPERATION AND MAINTENANCE, ARMY

Program: MEDICAL PROGRAMS
Activity Group: Care in Regional Defense Facilities

I. Narrative Description (Statement of Requirements and Mission)

This program provides for medical services in the United States through the operation of specified medical centers as shown on pages 84-4 through 84-6 and the provision of specialty services; includes emergency and routine medical services; preventive and prophylactic measures for disease prevention; medical examinations and sick call service. Excludes the provision of medical and dental services by station hospitals, medical clinics, and dental clinics.

II. Description of Operations Financed

Resource requirements are based on health care operations in terms of inpatient and outpatient care taking into consideration health care demand experience, change in the beneficiary population and the number of available health professionals. The development of medical workload is based on inpatient and outpatient experience for the most current twelve month period, a trend analysis over a period of years, planning guidance for anticipated changes in major troop deployment, the nature of the Army population, and other pertinent factors such as physical facilities and health professional capabilities.

Program Changes

a. Program Increases

- | | | | |
|-----|--|----|-------|
| (1) | Family Program Medical Support (Base \$0) | \$ | 368 |
| | Provides resources to increase manpower at treatment facilities to alleviate the shortage of medical support personnel. This will increase the inpatient and outpatient care capability, improve physician productivity, and decrease clinic waiting time. Dollars support family action plan initiatives. | | |
| (2) | OB/GYN Care..... | \$ | 285 |
| | Provides funds to expand OB/GYN services through utilization of existing physical facilities thereby improving productivity and better satisfying patient demand at Ft Bragg. | | |
| (3) | Quality Assurance (Base \$730)..... | \$ | 260 |
| | Provides resources to improve the Quality Assurance program performance within the AMEDD and comply with DOD's recently published directives designed to enhance the quality of medical care at military medical treatment facilities. Medical Quality Assurance is designed to improve the medical services delivered; improve health care provider screening, selection, accession, and retention process; and increase service productivity and efficiency with which resources are used. | | |
| (4) | Commercial Activities Military Replacement..... | \$ | 1,282 |
| | Provides resources to replace military in Commercial Activities studies when military are at least 20% of the studied workforce. Military are replaced whether the study results are determined to be in-house support or commercial contract support. | | |

OPERATION AND MAINTENANCE, ARMY

Program: MEDICAL PROGRAMS
Activity Group: Care in Regional Defense Facilities

III. Financial Summary (\$ in Thousands) (Continued)

B. Reconciliation of Increases and Decreases (Continued)

(5) Civilian Substitution.....	\$ 23
Resources support program to convert military Table of Distribution and Allowances (TDA) positions to civilian positions. The reassignment of replaced military end strengths to higher priority force structure needs provides increased readiness and better utilization of available military authorizations.	
Total Program Increases.....	\$ 2,218
b. Program Decreases	
(1) Travel.....	\$ -92
Reduction to programs involving travel is a part of overall Army effort to reduce travel in low priority areas.	
(2) Deobligation Reduction.....	\$ -600
Reduction is due to improved efficiency in management of unliquidated obligations. Intensified efforts by installations throughout the Army have resulted in more accurate estimates of amounts to be deobligated after the close of the fiscal year.	
(3) Medical Operations Adjustment.....	\$ -2,963
Readiness Contingency resources were only available in FY 1986 to sustain patient care loads, to keep the medical staff trained, and to meet the Army's graduate medical education program that trains physicians to satisfy wartime requirements.	
(4) Personal Services Contracting.....	\$ -1,995
Transfer resources to contract for civilian dentists. Military dentists spaces have been converted to nurse spaces to offset critical shortfalls in deployable assets.	
Total Program Decreases.....	\$ -5,650

NARRATIVE EXPLANATION OF PERSONNEL END STRENGTH CHANGES:

MILITARY

The net increase of 187 in FY 87 is for improved care in regional defense medical facilities (+34); increased RDF combat service support medical requirements (+66); additional medical support to meet readiness posture requirements (+63); civilian substitution (-35); conversion of dental to nurse end strength (+59).

CIVILIAN

The net increase of 89 in FY 87 reflects civilian substitution (+35); the realignment of medical support for force structure changes (-10); specialized medical care for exceptional family members (+4); improved quality assurance initiatives (+14); and improved OB/GYN care in regional defense medical facilities (+46).

Program: MEDICAL PROGRAMS
Activity Group: Care in Station Hospitals and Medical Clinics

I. Narrative Description (Statement of Requirements and Mission)

This program provides inpatient and outpatient medical services through the world wide operation of community hospitals, medical clinics and the provisions of specialty service. This includes emergency and routine medical services, preventive and prophylactic measures for disease prevention, medical examination and sick call service. Excludes the provision of medical and dental services by units organic to Operating Forces Units (e.g., the Medical Battalion of a Division), medical or dental units operating in an active combat zone; medical centers and dental clinics.

II. Description of Operations Financed

Resource requirements are based on health care operations in terms of inpatient and clinical care taking into consideration health care demand experience, change in the beneficiary population and the available number of health professionals. The development of medical workload is based on inpatient and outpatient experience for the most current twelve month period, a trend analysis over a period of years, planning guidance for anticipated changes in major troop deployment, the nature of the Army population, and other pertinent factors such as physical facilities and health professional capabilities.

Program Changes

a. Program Increases

(1) Family Program Medical Support.....	\$ 2,462
Provides resources to increase manpower at treatment facilities to alleviate the shortage of medical support personnel. This will increase the inpatient and outpatient care capability, improve physician productivity, and decrease clinic waiting time. Dollars support family action plan initiatives.	
(2) OB/GYN Care.....	\$ 1,036
Provides funds to expand OB/GYN services through utilization of existing physical facilities thereby improving productivity and better satisfying patient demand at Ft Bragg.	
(3) Light Infantry Divisions (Base \$4,700).....	\$ 5,191
Provides resources for the medical support 10th ID(L) at Fort Drum, NY. and the 6th ID in state of Alaska.	
(4) Commercial Activities Military Replacement.....	\$ 1,092
Provides resources to replace military in Commercial Activities studies when military are at least 20% of the studied workforce. Military are replaced whether the study results are determined to be in-house support or commercial contract support.

Program: MEDICAL PROGRAMS
Activity Group: Care in Station Hospitals and Medical Clinics

III. Financial Summary (\$ in Thousands) (Continued)

B. Reconciliation of Increases and Decreases (Continued)	
(5) Civilian Conversion/Substitution.....\$	861
This program replaces active duty military authorizations in Table of Distribution and Allowances (TDA) units with civilian manpower authorizations. Released military authorizations are applied against force structure initiatives and reduction of operating strength deviations thereby improving readiness and better utilizing available military authorizations. The reassignment of replaced end strengths to higher priority force structure needs provides increased readiness and better utilization of available military authorizations.	
Total Program Increases.....	\$ 10,642
b. Program Decreases	
(1) Travel.....\$ -167	
Reduction to programs involving travel is a part of overall Army effort to reduce travel and is a part of overall Army effort to reduce travel in low priority areas.	
(2) Administration/ADP.....\$ -982	
Reduction is based on the anticipated economies and efficiencies.

Program: MEDICAL PROGRAMS
Activity Group: Care in Station Hospitals and Medical Clinics

III. Financial Summary (\$ in Thousands) (Continued)

B. Reconciliation of Increases and Decreases (Continued)

(3) Deobligation Decrement.....	\$	-250
Reduction is due to improved efficiency in management of unliquidated obligations. Intensified efforts by installations throughout the Army have resulted in more accurate estimates of amounts to be deobligated after the close of the fiscal year.		
(4) Personal Services Contracting.....	\$	-403
Transfer resources to contract for civilian dentists. Military dentists spaces have been converted to nurse spaces to offset critical shortfalls in deployable assets.		
(5) Medical Operations Adjustment.....	\$	-31,487
Readiness Contingency resources were only available in FY 1986 to sustain patient care loads, to keep the medical staff trained, and to meet the Army's graduate medical education program that trains physicians to satisfy wartime requirements.

Program: MEDICAL PROGRAMS
Activity Group: Dental Care Activities

I. Narrative Description (Statement of Requirements and Mission)

This program provides dental services to authorized personnel in fixed dental clinics and dental laboratories. Excludes the provision of dental services by units organic to Operating Forces Units, dental units operating in an active combat zone, and oral surgery functions integral to hospitals that primarily support inpatients.

II. Description of Operations Financed

Resource requirements are based on comprehensive dental care for eligible beneficiaries through the operation of hospital departments of dentistry, installation dental clinics, installation dental laboratories, and Regional Dental Activities. Requirements take into consideration dental demand experience, change in the beneficiary population, and the available number of dental personnel. Workload is based on experience for the most current twelve month period, a trend analysis over a period of years, planning guidance for anticipated changes in major troop deployments, the nature of the Army population, and other pertinent factors such as physical facilities capabilities and health professional capabilities.

Program: MEDICAL PROGRAMS
Activity Group: Care in Non Defense Facilities

I. Narrative Description (Statement of Requirements and Mission)

This program provides authorized medical and dental care of Army beneficiaries, including members of the Army reserve components in non-defense facilities and by civilian doctors and dentists in civilian facilities; physical examinations of Army Reserve personnel pursuant to Public Law 82-476; emergency care provided from civilian medical treatment facilities to active duty members, and services provided by the private sector which supplement the capability of the military treatment facility.

II. Description of Operations Financed

Resource requirements are developed on the basis of workload, rates and experience. Charges for subsistence which is collected locally from the individual or charged directly to the applicable appropriation are excluded. Included in this program are both inpatient and outpatient care in Veterans Administration and contractor operated facilities formerly under the auspices of the Public Health Service, PL 97-99. Funding in this element also supports emergency medical and dental care of active duty Army personnel and members of the Reserve Components; and physical examinations of Army Reserve personnel.

Program Changes

a. Program Increases

(1) Satellite Primary Care Centers.....\$ 3,321

Provides resources for primary care at a cost that is competitive with CHAMPUS and will facilitate and encourage the return of CHAMPUS users to the military system. New centers improve access to the Uniformed Service Health Care Delivery System by being located near the user population. Additionally, centers will reduce overutilization of primary outpatient services at military hospitals by providing the services to the users in a setting outside the hospital. This program will reduce overcrowding in existing fixed facilities (Medical Treatment Facilities); provide health care at a cost competitive with CHAMPUS; extend hours for primary care; walk-in/same day appointments and contractor-owned, contractor-operated facility.

Activity Group: Care in Non Defense Facilities

III. Financial Summary (\$ in Thousands) (Continued)

B. Reconciliation of Increases and Decreases

(2) PHS Reimbursements (Base \$58,200).....	\$ 2,475
Former Public Health Service Facilities (PL 97-35) eliminated the Public Health Service (PHS) as a source of care for Army beneficiaries. PL 97-99 reinstituted the former PHS facilities as sources of medical care and raised rates considerably beginning in FY 82. Resources will eliminate the deficit generated by rate and workload increases. Provides resources to support anticipated workload increases.	

(3) Care in Civilian Facilities (Base \$51,583).....	\$ 3,364
Support increasing costs and workload procured from civilian medical facilities in support of the following programs: (1) Supplemental care (\$1,500) funds pay for direct health care services required in patient management but available only from a civilian source. As medical diagnostic testing and equipment become more sophisticated, there is a growing need to obtain these services to benefit the patient and to preclude questions of quality assurance. The program allows Army facilities to maintain direct patient control and to retain workload in-house at reduced cost to the government and the patient. (2) Emergency care (\$1,864) provided to active duty military when they are at a location not near a military treatment facility.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

Program: MEDICAL PROGRAMS
Activity Group: Education and Training

I. Narrative Description (Statement of Requirements and Mission)

This program provides for the training of Army Medical Department (AMEDD) personnel through training programs in Army medical facilities, schools of other federal agencies, and in civilian institutions. These programs have as their objective the development of technically and professionally qualified officers, enlisted personnel, and civilians required to staff Army Medical Department units worldwide and provide trained health manpower to respond to wartime contingency requirements. The level of instruction which must be provided varies from the basic principle of emergency medical care, to post-graduate training in professional medical specialties.

II. Description of Operations Financed

Resources provide for tuition and other education expenses (school supplies, microscope rental, text books, etc.) incurred by the participants in the Armed Forces Health Professions Scholarship Program. The Army is currently authorized 1850 students in the Health Professions Scholarship Program. Students are enrolled in the disciplines of Medicine, Psychology and Optometry as authorized by Public Law 92-246. Resources are provided for other Army scholarship and subsidy programs and the use of consultants in health facilities.

Students input into training programs is based on authorized military strengths, anticipated accessions into the Army, past retention rates, and adjustments to compensate for attrition.

Program Changes

a. Program Increases

(1) Commercial Activities Military Replacement.....\$ 108
Provides resources to replace military in CA studies when military are at least 20% of the studied workforce. Military are replaced whether the study results are determined to be in-house support or commercial contract support.

(2) Medical Training.....\$ 1,459
Provides resources to upgrade specialty courses at the Academy of Health Sciences to furnish needed high technology medical training for effective medical operations in the nuclear, biological and chemical environment. Additionally, courses will be developed and tested to train medical personnel in the technical skills needed to use new medical equipment. Dollars will also fund studies which test courses, training methods and equipment to ensure they meet program objectives and Army medical mission requirements. As a result of these funds a well trained and educated medical corps will be attained to meet the Army Medical Training 1991 goals.

I. Narrative Description (Statement of Requirements and Mission)

This program provides for other related or ancillary medical activities that are not part of the direct medical care system, or professional training of medical personnel.

II. Description of Operations Financed

Resources are provided for:

- Specific health related programs and for the performance of those portions of military mission other than direct care or medical training.
- Army medical laboratories which serve as reference and consulting laboratories to medical treatment facilities of the Armed Forces, within a prescribed area.
- Optical fabrication and repair requirements to include fabrication of spectacles and optical assemblies, conduct training in the construction, installation, repair and general maintenance of optical equipment.
- Patient and attendant travel.
- Medical materiel activities which provide technical, logistical, and maintenance support for worldwide medical supply missions.
- Medical support of the Army Drug/Alcohol Program, less patient care associated with this program.
- Medical support of the Family and Child Advocacy Program.
- Operation of Tri-Service Defense Agencies (Armed Forces Institute of Pathology, Defense Medical Materiel Board, etc.)

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: MEDICAL

ACTIVITY GROUP: BASE OPERATIONS

- I. Narrative Description: This budget activity provides for the operation and maintenance of installation type support less Real Property Maintenance activities at the three Health Services Command (HSC) installations; Walter Reed Army Medical Center, Washington, DC, Fitzsimons Army Medical Center, Denver, CO, and Fort Detrick, MD. The FY 87 request totals \$27.5 million which includes \$1.9 million in net program growth. Major areas of program growth include expansion of the Army Family Program (\$.6 million), continuation of the Civilian Substitution program (\$.3 million), and implementation of a Drug Suppression program (\$.8 million). Major program decreases are Base Operations support (\$.02 million).
- II. Description of Operations Financed - Funds provide installation support in the following areas (\$000):
- A. Supply Operations (\$929): Finances the operation of consolidated post supply. Includes the operation of self-service centers, clothing issue points and Office of the Director of Logistics (DOL). Finances pay and allowances for 67 civilian personnel.
 - B. Maintenance of Materiel (\$1,879): Finances Direct and General Support Maintenance of Support Systems such as vehicles and installation equipment. Finances pay and allowances for 54 civilian personnel.
 - C. Transportation Services (\$2,103): Finances the operation of local (installations) non-tactical motor transportation service to include government-owned vehicles. Finances pay and allowances for 73 civilian personnel.
 - D. Laundry and Dry Cleaning Services (\$1,699): Finances operation of laundry and dry cleaning plants and contracting for such services where Army-owned plants are not operated in-house. Finances pay and allowances for one civilian personnel.
 - E. Army Food Service Program (\$24): Finances operation and administration of food supply. This function is performed by contractor and military personnel.

DEPARTMENT OF THE ARMY

OPERATION AND MAINTENANCE, ARMY

PROGRAM: MEDICAL
ACTIVITY GROUP: BASE OPERATIONS

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000)
(Continued):

- F. Personnel Support (\$2,928): Finances chaplain activities, command information program, alcohol and drug abuse program, reenlistment activities and pay and allowances for 93 civilian personnel.
- G. Unaccompanied Personnel Housing Operation, Administration, and Furnishings (\$552): Finances the purchase, control, moving, handling of housing furnishings for unaccompanied personnel officer quarters and bachelor enlisted quarters. Finances the operation and administration of all unaccompanied personnel housing. Finances pay and allowances for 23 civilian personnel.
- H. Administration (\$1,495): Finances all activities concerned with the headquarters command and administration of the installation; and other installation-wide activities not otherwise provided for, such as adjutant activities. Finances pay and allowances for 57 civilian personnel.
- I. Automation Activities (\$1,248): Finances automated processing activities in support of Base Operations. Finances pay and allowances for 30 civilian personnel.
- J. Community and Morale Support Activities (\$3,191): Finances the development, staffing, equipping, administering and operation of installation libraries, sports programs, Army Community Service Activities, Child Support Services. Finances pay and allowances for 65 civilian personnel.
- K. Preservation of Order (\$3,425): Finances police services at 3 installations to include military police operations, installation level confinement activities, physical security operation and operation of physical security equipment. Finances pay and allowances for 185 civilian personnel.
- L. Directorate of Resource Management (\$5,250): Finances the administration of all resource management functions such as Finance and Accounting, Programming and Budgeting, Management Analysis, Productivity Analysis, Commercial Activities and Efficiency Review Programs. Finances pay and allowances for 250 civilian personnel.

Program Increases

- | | | |
|----|--|-----|
| a. | Army Community Service (ACS) (Base: \$351).....\$ | 485 |
| | Additional contract funding is provided to fully implement the exceptional family member, financial planning and assistance and family member employment programs at all ACS Centers. ACS Centers will implement a contract outreach program designed to export social services to family members residing off post, often in isolated locations. First term families will be the primary target for this program. These "family programs" will significantly improve the support provided by the ACS Centers. | |
| b. | Child Development (Base: \$90).....\$ | 110 |
| | Additional contract funding is provided for first line supervisors of care givers at all existing child development centers. Increased contract resources are provided to expand the quarters based child development program at all installations and to implement an after school program to supervise the activities of children who traditionally return from school to an empty home. These "family programs" will significantly improve the quality of child development services throughout the Army. | |
| c. | Civilian Substitution (Base: \$0).....\$ | 330 |
| | Resources support program to convert Military Table of Distribution and Allowance (TDA) positions to civilian positions. The reassignment of replaced military end-strengths to higher priority force structure needs | |

B. Reconciliation of Increases/Decreases (Continued)

Program Increases (Continued)

provides increased readiness and better utilization of available military authorizations. The FY 87 program supports 19 civilian spaces and 17 work years.

- d. Civilian Personnel Offices (CPO) (Base: \$3,116).....\$ 46
Resources support increasing manning levels from 82% to 87% at civilian personnel offices as validated by the Army's Manpower Staffing Standards (MS-3). This increase will enable Army CPO's to meet workload levels which have expanded to support added requirements such as Commercial Activities/Army Performance Oriented Review (CA/APORS) studies, increased job grading accuracy, increased suggestion program etc. The increase provides funding to support three added end strength and two work years.

- e. Commercial Activities Military Replacement (Base: \$0).....\$ 89
Resources support conversion of military manpower now working in commercial functions being cost studied through the CA program. These commercial functions include administrative support, installation support, food and recreational services. At the end of any cost study, regardless of the competition outcome (in-house or contract) the military manpower are withdrawn by HQDA for reallocation and either civilians or contract staff are provided in their place. Conversions are programmed only for cost studies where the military comprise at least 20% or more of the studied functions workforce. These funds provide pay support for 6 civilians spaces converted from military spaces.

f. Drug and Alcohol Testing (Base: \$0).....\$ 826

Funds state of the art technology to allow local commanders to conduct preliminary drug testing, with follow on confirmation at laboratories, for marijuana, cocaine and amphetamines. Current procedures require that soldiers be withheld from duty pending laboratory analysis of standard drug tests. With Unit Level Drug Testing commanders will use portable drug test kits to determine which soldiers can be immediately returned to duty and which soldiers require further testing and analysis by Army labs. The quick return of non drug users to duty stations will result in a direct increase in unit morale and a quantifiable increase in unit and combat readiness.

I. Narrative Description (Statement of Requirements and Mission)

This budget activity provides Real Property Maintenance Activities (RPMA) support for the three Health Services Command (HSC) installations: Walter Reed Army Medical Center, Fitzsimons Army Medical Center and Fort Detrick, Maryland.

II. Description of Operations Financed

a. Funds provide support in four functional areas of Real Property Maintenance Activities. These functional areas are:

1. Operation of Utilities (\$17,526). Finances expenses for procurement and distribution of utilities for HSC installations. Included are purchased utilities, purchased water, operation of water plants and distribution systems and sewage, and waste systems. Finances pay and allowances for 86 civilian personnel.
2. Maintenance and Repair of Real Property (\$27,872). Finances maintenance and repair of buildings, structures, grounds and utility systems at HSC installations. Includes pay and allowances for 325 civilian personnel.
3. Minor Construction (\$3,446). Finances the erection, installation or assembly of a new facility, or the addition, expansion, alteration or conversion of an existing real property facility when project costs do not exceed \$200 thousand. Includes pay and allowances for 23 civilian personnel.
4. Engineer Support (\$10,703). Finances other facilities engineering services such as fire protection, custodial services, pest control, refuse collection and disposal, snow removal and ice alleviation. Includes pay and allowances for 237 civilian personnel.

Program Changes

Program Increases

- | | | | |
|----|---|----|-----|
| a. | Master Planning (Base: \$133) | \$ | 532 |
| | This adjustment adds money for Architect-Engineering services for preparation and updating planning documents. Because of inadequate funding in this area in past years, an attempt is being made to accelerate Master Planning efforts to coincide with increased repair and construction programs, this programmatic increase will contribute to that effort. | | |
| b. | Force Protection (Base: \$14) | \$ | 337 |
| | Provides resources to achieve adequate protection of personnel, equipment, training and facilities in the total force from attacks/incidents initiated by terrorists and other criminal elements. Erects fencing, lighting, concrete barriers and other protective systems at HSC installations. | | |
| c. | Living/Working Conditions (Base: \$10,445) | \$ | 53 |
| | Provides resources to improve the environment which soldiers and their families must live and work. | | |

SUMMARY INTRODUCTION

Program 8-Other funds Active Army recruiting, advertising and examining activities; operation of reception stations; welfare and morale activities; disposition of remains; operation of the US Army Disciplinary Barracks; Chaplains specialized activities; Civilian Training, Education and Development Program; the Army Continuing Education System (learning centers, counselors, and tuition assistance for military personnel); Veterans Educational Assistance Program; and the Junior ROTC program. The United States Military Entrance Processing Command (USMEPCOM), the Armed Forces Professional Entertainment Program Overseas (AFPEO) and the Armed Forces Radio and Television Service (AFRTS) are three programs for which the Army is the DOD Executive Agent and are included in this sub-program.

The FY 1987 budget estimate for 8-Other General Personnel Activities is \$678.6 million, a net program increase of \$41.5 million, including \$18.2 million for non-personnel price growth, over the FY 1986 estimate of \$637.1 million.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES

I. Description of Operations Financed:

A. Recruiting and Examining (\$293,322):

1. Recruiting (\$134,461): Provides funds for the US Army Recruiting Command (USAREC) organized with a headquarters and five Brigade Recruiting Commands, 56 Battalion Recruiting Commands and over 2,000 recruiting stations throughout the United States. Recruiting costs include those items essential to the operation of USAREC and support of Army recruiters in accomplishing the recruiting mission. These include meals, lodging and travel of applicants; recruiter expenses; travel and per diem; civilian pay; vehicle operation and maintenance; supplies and equipment; maintenance of equipment; professional development of recruiters; training of civilians; recruiter aides; operation of a Recruiting Support Center; ADP support; recruiter promotional items, and other incidental expenses necessary to support the Army recruiting mission.

2. Advertising (\$98,724): This program funds all active Army advertising programs designed to support the procurement and retention of Army enlisted and officer personnel. United States Military Academy advertising is directed at potential cadets through the printing of posters and pamphlets and the production of films. Reserve Officer Training Corps (ROTC) advertising is directed at potential ROTC cadets. Provides advertising support to the Chief of Chaplains office in the effort toward denominational balance. Funds provide local, regional and national advertising in support of rising enrollment demands.

3. Examining (\$60,137): Provides funds for the support and operation of Headquarters, US Military Entrance Processing Command (USMEPCOM), three sector headquarters and 68 Military Entrance Processing Stations (MEPS) essential to process personnel entering the armed services; the direct administration of MEPS operations; operating the central test agency which administers the Armed Services Vocational Aptitude Battery (ASVAB) Test for both the production and student testing programs; and Mobile Examining Teams (MET) operating under MEPS direction. The Office of Personnel Management (OPM) Examiners continue to administer the ASVAB in urban and rural areas. Funds also provide ADP capability for USMEPCOM and Selective Service System jointly operated computer system. USMEPCOM is a joint service organization for which the Army is the DOD Executive Agent and provides 49 percent of the military staff and the entire civilian staff. The other services contribute military personnel based on a pro-rata basis on total accession workloads.

I. Description of Operations Financed: (Continued)

B. Other Personnel Activities (\$38,657): Provides for disposition of remains; morale and welfare programs; religious leadership and self-development programs; confinement and rehabilitation of post trial military prisoners; specialized chaplain activities; centralized book procurement; operation of reception stations at Army Basic Training Centers to process incoming personnel; and other personnel related activities which support the Army mission.

C. Armed Forces Radio and Television Service (AFRTS) (\$14,879): Resources provide for operation of 286 AFRTS studio and transmitter facilities overseas and management of 139 mini-TV sites for service personnel at remote locations. Army AFRTS networks are located in Germany, Italy, Korea, Panama and the Marshall Islands.

D. Civilian Training, Education and Development (CTED) Program (\$115,061): Provides resources for the training, education and development of Army civilian employees in professional, scientific, administrative and technical career fields. The major components of the CTED are: (1) Intern Program; (2) Long-Term Training Program; (3) Executive and Managerial Development Program; and (4) Facility Engineering Apprenticeship Program. Included in these components are manpower spaces and fiscal resources necessary to cover: (a) salaries and related benefits, (tuition, books, fees, programmed instructional materials, and related expenses); (b) travel and per diem of students/participants while in or enroute to and from training, educational or developmental assignments (including interns and long-term training participants); and, (c) costs associated with the administration of the program. Interns are hired to meet critical staffing needs in mission related occupations unique to the Department of the Army and are trained to successfully perform at the journeyman level.

E. Junior Reserve Officer Training Corps (JROTC) (\$31,297): Funding supports operation of 896 JROTC units. This program is designed to foster good citizenship, patriotism, self-reliance, leadership, and appreciation of the role of the US Army in support of national objectives. Resources provide for partial pay of military instructors and for unit operating supplies and equipment.

JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES

I. Description of Operation Financed: (Continued)

F. Army Continuing Education System (ACES) (\$117,319): Resources for the Army Continuing Education System provide active component soldiers with educational opportunities similar to those available to all Americans. These are made available through a world-wide network of Army Education Centers which provide on-duty instruction in those basic skills needed to enable soldiers to perform Army jobs successfully and to support retention and career development. Off-duty high school completion programs and collegiate programs are available worldwide and soldiers are supported financially through tuition assistance. Funds provide for 100 percent of tuition for high school completion, 75 percent to 90 percent for off-duty courses taken from accredited schools, operation of education centers which include counseling, testing and related administrative functions.

G. The Veterans Educational Assistance Program (VEAP) (\$68,026): Funding is provided to support contractual obligations for educational incentive to enlistees as authorized by PL 94-502 and PL 96-342. Basic VEAP replaced the Vietnam Era GI Bill which terminated 31 December 1976. All service members, regardless of rank, who signed contracts 1 January 1977 to 1 July 1985, are eligible to participate in Basic VEAP. Service members' contributions are matched 2:1 by the Army. On 1 January 1979, the Army began testing the recruiting effects of offering additional "kickers" (up to \$6,000) to high school diploma graduates in the upper test score categories. During FY 1981, an educational test program was implemented to measure effects of enhanced "kickers" (up to \$12,000); a tuition-stipend program similar to the old GI Bill; and a non-contributory VEAP with "kickers" option. In FY 1982, the Army implemented the Ultra VEAP Program (Army College Fund) nationwide. This program mirrored the FY 1981 test cell and the maximum "kicker" was increased to \$18,300 during FY 1985.

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: RECRUITING AND EXAMINING

1. Narrative Description (Statement of Requirements and Mission):

Provides funding to recruit sufficient manpower to sustain the Active Army and manage USAR recruiting. USAR recruiting support costs are provided in the OMAR Appropriation. This funding request is directly related to the Active Army recruiting requirement and to the size of the recruiting work force. Recruiting costs funded in this activity include meals, lodging and travel for applicants and recruiters; vehicles; supplies; professional development of recruiters; and all other incidental expenses necessary to support the Active Army recruiting force. The demand for high quality personnel has received a great amount of emphasis. This demand will continue for the foreseeable future. The Army's goals for FY 1987 are at least 90 percent high school graduates, 59-63 percent test category I-III, and no more than 10 percent test category IV accessions. Quality requirements in the rapidly diminishing market of eligibles has driven the necessity for innovative incentives and methods of attracting and accessing quality recruits with the particular qualifications needed to man sophisticated, modern systems. By placing a special emphasis on the high school graduate market, readily trained prospects, who are also more retainable, are recruited. This results in increased force readiness and decreased first-term attrition. The Army cannot afford to sacrifice quality for quantity in its recruiting strategy. Manning the force is the foremost issue in maintaining a combat-ready posture; our forces must be trained and alert for any contingency. Accordingly, recruiting resources are vital in attracting sufficient numbers of high caliber personnel to perform in critical skills.

Requested advertising funds: to provide, within a minimum advertising program, the most effective media mix, to create and communicate awareness of Army opportunities and cause the flow of high quality prospects to recruiting stations. Advertising must be viewed as an investment over time and not as a fiscal year accounting entry because of the phenomenon called lag -- advertising lag -- which may take as long as three and one half years to impact on the market. The focus of advertising will be on Army initiatives such as education incentives, bonus options and skill training. Funds are required to support recruiting efforts directed at those High School Diploma Graduate (HSDG) prospects in the upper mental categories, (and particularly the growing proportion of those prospects who are in colleges and the workforce). The Army is in direct competition with the private sector and the academic community for these select, bright young men and women. Advertising is, however, the key marketing element, having direct and indirect effects on generating traffic to recruiters and increasing applications for enrollment into the Army ROTC program and the United States Military Academy.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: RECRUITING AND EXAMINING

I. Narrative Description: (Continued)

The Army, as DOD Executive Agent, provides funding and civilian personnel resources for the operation of the United States Military Entrance Processing Command (USMEPCOM). This combined service command processes personnel for entry into the active or reserve components for all of the armed services. During mobilization, the command processes persons called to active duty from the individual ready reserves as well as conscripts inducted via the Selective Service System (SSS). USMEPCOM is organized with a command headquarters, three sector headquarters and sixty-eight Military Entrance Processing Stations (MEPS). Within this activity group, the key function performed by the MEPS personnel is the administration of the Armed Services Vocational Aptitude Battery (ASVAB) for the purpose of qualifying applicants for enlistment or induction (production testing) and the testing of civilian school populations (student testing) for subsequent guidance counseling, and prospect identification. The majority of these tests are conducted by Mobile Examining Teams (MET) comprised of assigned military examiners and civilian examiners contracted by the Office of Personnel Management (OPM). Test sessions are conducted at the MEPS, in schools and at over 900 other sites (such as armories and reserve centers) throughout CONUS and in some OCONUS areas. Funds are also provided within this activity to support the ADP requirements of USMEPCOM and the SSS at their shared Joint Computer Center (JCC). This facility supports a network for automated information exchange among the MEPS, the headquarters elements of USMEPCOM and the SSS and subordinate headquarters. Because of this relationship peacetime administration is enhanced while mobilization preparedness is maintained. The Army, as the DOD Executive Agent for USMEPCOM, provides all funds and civilian staffing for its operation along with approximately 49 percent of the military staffing. The other military components contribute military personnel on a pro-rata basis based on projected workloads.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: RECRUITING AND EXAMINING

II. Description of Operations Financed:

A. Recruiting (\$134,461): Provides funds for the US Army Recruiting Command (USAREC) organized with a command headquarters and five Brigade Recruiting Commands, 56 Battalion Recruiting Commands and over 2,000 recruiting stations throughout the United States. Recruiting costs include those items essential to the operation of USAREC in accomplishing the recruiting mission. This support includes meals, lodging and travel of applicants; recruiter expenses; travel and per diem; civilian pay; vehicle operation and maintenance; consumable and other supplies and equipment; maintenance of equipment; professional development of recruiters; training of civilians; recruiter aides; operation of the Recruiting Support Center; ADP support; and recruiter promotional items.

1. Civilian Pay: Provides funds to pay civilians who work at all levels within the USAREC structure. They perform administrative and logistical functions in support of the recruiting mission.

2. Recruiter Aides: Provides funds to support recruiter aide workyears. Recruiter aides deploy from their parent unit to USAREC for a period of 30 to 90 days during which funds are required for their TDY, per diem and travel. This program allows the Army to send young men and women to their home towns to assist the recruiters in identifying and enlisting high school diploma graduates.

3. Recruiter Support: Provides funds to support the recruiting mission. These funds are used for vehicle support; applicant meals, lodging and travel; ADP support; printing; supplies; recruiter expense allowance; and other incidental expenses associated with recruiting.

B. Advertising (\$98,724): The program funds all Active Army advertising programs designed to support the procurement and retention of Army enlisted and officer personnel. United States Military Academy advertising is directed at potential cadets through the printing of posters and pamphlets and the production of films. ROTC advertising is directed at potential ROTC cadets. Enlisted advertising encourages persons to consider the Army rising enrollment and enlistment demands.

DEPARTMENT OF THE ARMY

OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: RECRUITING AND EXAMINING

11. Description of Operations Financed: (Continued)

1. USAREC (\$89,498): Creates awareness of Active Army enlistment opportunities for young people, primarily in the 17-24 year old age bracket. Funds advertising distribution and media, including television, radio, magazines, newspapers and direct mail to convey the recruiting message to the audience and their influencers.
2. ROTC (\$8,821): Emphasizes leadership and management experience, physical and intellectual challenges, financial assistance, scholarship opportunities and prestige of serving as an Army officer. Promotes service in Active and Reserve Components. Supports expansion of ROTC Programs on college campuses with special emphasis on attracting cadets within particular academic disciplines.
3. USMA (\$405): Emphasizes benefits of quality education leading to the award of a college degree combined with opportunity to earn a commission as a second lieutenant.
 - C. Examining (\$60,137): Provides funds for the support and operation of Headquarters, US Military Entrance Processing Command (USMEPCOM), three sector headquarters and 68 Military Entrance Processing Stations (MEPS) essential to process personnel entering the armed services; the direct administration of MEPS operations; operating the central test agency which administers the Armed Services Vocational Aptitude Battery (ASVAB) for both the production and student (High School) testing programs; and Mobile Examining Teams (MET) operating under MEPS direction. The Office of Personnel Management (OPM) examiners will continue to administer the ASVAB in urban and rural areas. Funds also provide ADP capability for USMEPCOM and Selective Service System.
 1. MEPS Operations (excludes medical costs displayed in Program 8-M): Operate 68 Military Entrance Processing Stations responsible for the processing of applicants and registrants and the preparation of initial reports and records relating to enlistees and inductees. Includes costs of civilian salaries, supplies, equipment, administration, travel, per diem, civilian training, facilities and vehicle support.
 2. Production ASVAB Testing: Provides for the administration of production ASVAB and classification testing at the MEPS and MET sites operated by Office of Personnel Management and assigned military testers.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: RECRUITING AND EXAMINING

II. Description of Operations Financed: (Continued)

These tests determine aptitude qualification of applicants for all services. Funds are also provided for compensation to OPM for MEPS sponsored special training sessions.

3. Student ASVAB Testing: Provides for the administration of student ASVAB testing to include testing at high schools, vocational schools, junior colleges and similar educational facilities. Tests are administered by OPM and MEPS personnel. Also provides for information materials distributed to students and educators.

4. Headquarters Activities: Provides for the resources associated with programs and activities administered centrally to support MEPS in the processing of applicants into the Armed Services, to include operation of HQ USMEPCOM and three sector headquarters (civilian salaries, supplies, equipment, administration, travel, per diem, civilian training, facilities and vehicle support).

5. Joint Computer Center: Provides for all automation activities of the Joint Computer Center at Great Lakes Naval Station, Illinois, supporting the joint requirements of USMEPCOM and the Selective Service System. Includes studies and services; lease of computer hardware; system and facility maintenance; systems software lease, production, and maintenance; all supplies; and civilian personnel costs.

Program Increases

1. Computer Adaptive Testing (CAT) (Base \$381).....\$ 3,650

This is an OSD-directed, joint program to field a system to administer the Armed Services Vocational Aptitude Battery (ASVAB) test given to all military applicants via interactive computer. The U.S. Military Entrance Processing Command administers the test at its Armed Forces Examining Stations to measure recruit mental ability and general aptitude. The Army is DOD executive agent; the Navy and Air Force provide significant support. The goal of CAT is to provide a better measurement of applicant ability, establish more discreet divisions of aptitude, and to better identify the high and low ends of the spectrum of these characteristics among applicants. Improved test security, reduced testing time, and fewer administrative (test supervision) resource requirements are additional benefits. FY 1986 funds provide for contractual services for economic analysis and terminal distribution studies. Concurrently, the Navy is performing initial research to equate the old test to the new and the Air Force is developing the question bank. FY 1987 funds continue the FY 1986 contracts and pay for additional contracts for training and installation of equipment. FY 1987 funds also provides funds for acquisition of equipment to be used in the various laboratories for development and testing of the system. Equipment includes test terminals and administrator consoles with associated peripherals.

III. Financial Summary (O&M: \$ in Thousands):

B. Reconciliation of Increases and Decreases: (Continued)

2. Advertising (Base \$85,830).....\$1,068
Additional funding is required to increase pressure against a prospect pool that is smaller because of an overall trend in the age composition of the population. These prospects will also be less susceptible to persuasion because they are, on average, older and more experienced and have other alternatives available to them because of continuing improvement in the civilian economy.
3. Recruiting Support (Base \$101,904).....\$4,364
Additional funds are required to maintain desired level of quality recruits in a shrinking market. Funds will increase vehicle mileage for recruiters, meals, lodging and travel for additional applicants, and more touring exhibits to acquaint quality applicants with benefits the Army can offer them.
4. Recruiter Training (Base \$1,900).....\$ 600
This increase supports training for recruits. The training provides these recruiters with job skills necessary to fulfill accession mission requirements.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: RECRUITING AND EXAMINING

III. Financial Summary (O&M: \$ in Thousands):

<u>B. Reconciliation of Increases and Decreases: (Continued)</u>		
5. OPM Testing Rate Increase (Base \$5,775).....	\$	770
This increase is necessary to pay the increased cost per OPM test session from \$75 to \$85 effective 1 April 1985.		
6. Michigan MEPS (Base \$0).....	\$	610
Funding is for the establishment and operation of a second MEPS in Michigan. Successful recruiting in Michigan caused over-saturation of workload in the Detroit MEPS. During the past six years, the average daily accessions increased from 40 to 78. Overcrowding causes bottlenecks in processing flow and deterioration in quality of service for applicants. The second MEPS will reduce travel time and travel/meals, lodging costs, and will also provide a "safety valve" for any overflow from Detroit and Chicago (the second largest MEPS) and Indianapolis.		
7. Civilian Substitution Phase II (Base \$2,746).....	\$	592
Converts Military Table of Distribution and Allowance positions to civilian positions. Retains the programmed Military End Strength while increasing readiness through assignment of released military personnel to higher priority force structure needs. Supports increase of 16 spaces.		
8. Commercial Activities/Military Replacement	\$	545
Increased funding provides resources for contracting out operations currently performed in-house. Civilian spaces are reduced by 16 and military spaces by 10.

9. Army Recruiting and Accession Data System (ARADS) (Base \$4,942).....\$ 6,464
ARADS is a distributed processing and command and control system designed to meet the functional requirements of the U.S. Army Recruiting Command Headquarters and its subordinate commands. These requirements include personnel action processing (Training, awards, promotions, recruiting trend analysis, and malpractice tracking), financial and logistics applications (informal funds control, budget development, force structure, vehicle and facility management), and applications directly related to the recruiting mission. These mission-related applications include maintenance of the Recruiting Management Data Base, data retrieval and analysis, publicity and advertising, event scheduling, promotional item inventory and distribution, as well as production reporting and other applications. ARADS also provides the headquarters, brigades, and battalions office automation capability and will interface with the Joint Optical Information Network (JOIN). FY 1986 funds pay for lease of equipment (13 month ASA-approved Lease to Ownership Plan), software license, hardware maintenance, software development, facilities preparation, and project manager expenses. FY 1987 increases are for equipment lease (\$4,700), maintenance (\$1,059), and project management expenses (\$705).

III. Financial Summary (O&M: \$ in Thousands):

B. Reconciliation of Increases and Decreases: (Continued)

10. Reserve Officer Training Corps Advertising (Base: \$7,854).....\$	1,207
This increase supports a strong advertising thrust to assist in recruitment of cadets for the Reserve Officer Training Corps.	
11. HTLV-III Antibody Testing (Base \$0).....\$	2,000
These funds will provide administrative support for the HTLV-III Antibody Testing Program.	
12. One Time Increase for Project 80X.....\$	6,300
One time increase to purchase peripheral equipment associated with Project 80X.	
Total Program Increases.....\$	28,170

Program Decreases

1. Joint Optical Information Network Expansion (JOIN) (Base \$13,516).....\$	-5,594
JOIN is a micro-computer based system comprising a 64 thousand dual drive computer, video-disc player, color monitor, printer, and periph- erals. It is used by the recruiter to provide potential applicants a visual presentation of Army programs and to administer a computer- assisted screening test used to predict mental qualification and to influence applicant expectations. The JOIN Expansion program provides JOIN devices for multi-man recruiting stations and also for USAREC recruiters working at the Military Entrance Processing Stations. FY 1986 funds are for procurement of equipment, maintenance, and supplies

and contractor costs associated with the installation of new equipment. FY 1987 funds pay for maintenance, supplies, and contracts for installation of equipment purchased with investment funds.

- | | |
|--|-----------|
| 2. U. S. Military Entrance Processing Command Joint Computer Center Equipment Upgrade (Base \$1,200)..... | \$ -1,200 |
| Decrease is due to expiration of a Federal Lease to Ownership program to upgrade the mainframe computer at the Joint Computer Center. The government takes title to the equipment in FY 1986; further lease payments are required. | |
| 3. Automatic Data Processing Lease Reduction | \$ -966 |
| Decrease is associated with the Congressional requirement to procure ADPE by direct purchase rather than lease. The 1984 Joint Conference Report requires purchase of ADPE in the vast majority of cases and required the Army to develop plans to buy out most current leases prior to FY 1988. | |
| 4. Counterterrorism (Base \$500)..... | \$ - 500 |
| Decrease is a result of one time resources in FY 1986 for improvements in intelligence, personal protection, physical security and training which are aimed at countering the terrorist threat. | |

CIVILIAN

No end strength change for FY 87.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: OTHER PERSONNEL ACTIVITIES

I. Narrative Description (Statement of Requirements and Mission):

This budget activity provides for disposition of remains, morale support programs, religious leadership and self-development programs, confinement and rehabilitation of post trial military prisoners, specialized chaplain activities, centralized book procurement, operation of reception stations at Army Basic Training Centers to process incoming personnel and other personnel related activities which support the Army mission.

II. Description of Operations Financed:

A. Disposition of Remains (\$7,265): Provides for recovery, transportation, preparation and disposition of remains of DOD military (and certain civilian) personnel and their dependents. Funds will also support the transportation of remains of military retirees dying in military hospitals as authorized by Public Law 98-94.

B. US Army Disciplinary Barracks (USDB) and US Army Correctional Activity (USACA) (\$9,696): Provides resources for administration and operation of the USDB, Fort Leavenworth, KS and USACA, Fort Riley, KS. USDB is the third tier of the three tier Army correctional system and confines prisoners with sentences over two years. USACA is the second tier and confines prisoners with sentences of four months to two years. Both confinement facilities maintain custody, control and discipline of prisoners. Each facility also provides correctional treatment programs, vocational training opportunities, civilian and military education and constructive employment.

C. Chaplains Activities (\$2,010): Provides funds for programs such as Family Life Ministry, Minority/Multi-Cultural Ministries, ethics and personal effectiveness training, innovative worship opportunities in an environment of changing life styles, moral leadership training, analysis and development of programs to meet the needs of female soldiers, lay leadership development, refurbishment and replacement of unserviceable chapel items, clinical pastoral education, a program of parish development and religious education, training programs at installations for military personnel, their dependents and authorized DOD civilians, chaplains and chapel activities specialists. Provides funds for ecclesiastical relations with official representatives of American religious organizations since the Army is completely dependent upon civilian religious bodies of all faiths, denominations and sects to supply qualified clergy to serve as Army Chaplains. Travel funds will assist

II. Description of Operations Financed (Continued):

the Army Chaplaincy in its efforts to eliminate the shortage in Roman Catholic and minority chaplains which currently exists. Funding also provides for initial issue of chaplains' kits; honoraria fees to professional resource speakers; and continuation of "Family Life" centers which improve the quality of life within the military community. Activities include premarital counseling and education, marriage enrichment workshops, communication skills development seminars, personal growth seminars, parent-child relationship classes, marriage and family counseling, group counseling and individual counseling.

D. Other Activities (\$7,992): Provides funds for centralized procurement of library books for 278 libraries operated Army-wide. Provides paperback book kits for issue monthly to isolated units, hospitals, confinement centers, and other personnel not having access to a library. Provides start-up costs for libraries entering the Federal Library and Information Network for online cataloging and interlibrary loan. Books purchased support education programs, current events, special interest issues such as leadership, alcohol and substance abuse, physical fitness, family issues and military topics, as well as leisure reading for military and family members. Provides support of Army, Armed Forces, national and international sports competitions. Conducts sports programs in team and individual sports. Provides resources for Armed Forces Professional Entertainment and USO celebrity shows for soldiers overseas, talent contests and other miscellaneous personnel activities.

E. Reception Stations (\$11,624): Provides funds for operation of reception stations at Army Basic Training Centers to process incoming personnel including station equipment, civilian pay, organizational supplies and other variable costs related to individual processing.

Program Increases

U.S. Army Correctional Activity (Base \$4,311).....\$	350
As a result of the change of mission for the U.S. Army Correctional Activity (USACA) from retraining to confinement, additional funds were required. With emphasis on incarceration of prisoners, development of work programs were mandated. Beginning such work programs as furniture repair, electrical repair, plumbing, carpentry requires the outlay for equipment. With prisoners spending longer terms in confinement, contract modification was required to provide a wider variety of educational programs to inmates. Includes support for 18 spaces.

NARRATIVE EXPLANATION OF PERSONNEL END STRENGTH CHANGES:

MILITARY

The decrease of 31 in FY 87 is due to civilian substitution (-20); morale, welfare and recreation activities (-8); and support for force modernization (-3).

CIVILIAN

The increase of eighteen in FY 87 results from civilian substitution (+20); realignments of personnel processing activities (+1); and management efficiency initiatives (-3).

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: ARMED FORCES RADIO AND TELEVISION SERVICE (AFRTS)

I. Narrative Description (Statement of Requirements and Mission):

This budget activity provides the resources necessary to support Armed Forces Radio and Television Service (AFRTS) operations outside the Continental United States. Functions performed include: (1) the production and presenting radio and television command information announcements, news, sports, public affairs and entertainment programming; and (2) operating and maintaining of radio/TV program production facilities and inside and outside distribution systems.

II. Description of Operations Financed:

Provides for the manning, operation and maintenance of 298 AFRTS studio and transmitters and management of 131 mini-TV sites. This service includes presenting essential command information and emergency announcements, as well as news, sports, and entertainment television and radio programs for over one-half million U.S. military and civilian personnel and their families stationed overseas. The operations financed includes U. S. civilian personnel salaries and benefits, local national personnel, TDY and PCS costs, rentals for new and wire services, mini-TV costs, leased communication costs (including satellites), organizational maintenance (including contract services), equipment, material, supplies, (services including contract services) and leased facilities and furnishings. Funds for the continued operation of the Army portion of the DOD Satellite Network (SATNET) which provides "real-time" news, information and public affairs programming to AFRTS networks in Germany, Italy, Panama and South Korea. SATNET provides up-to-the-minute live coverage of events in the United States and around the world which was previously not available to U.S. service personnel overseas. Commanders world-wide have identified SATNET as the single most important morale booster in their commands. Expansion of the SATNET system is planned for six isolated Army locations in Turkey, where servicemembers do not currently enjoy the benefits of AFRTS. In support of these missions, Army AFRTS facilities worldwide, on a daily basis, produce, record, edit and broadcast radio and television programs; store program media (to include video tape, audio tape, 16mm film, 36mm slides and record discs); produce graphic art visuals to be integrated into television programs and spot announcements; process 36mm slides for integration into news and information programs; operate and maintain local broadcast transmission and distribution systems; and manage the Army mini-TV distribution system.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: CIVILIAN TRAINING, EDUCATION AND DEVELOPMENT (CTED) PROGRAM

I. Narrative Description (Statement of Requirements and Mission):

Provides resources for the training, education and development of Army civilian employees in professional, scientific, administrative and technical career fields. The training is specifically designed to develop entry level interns into a cadre of future managers, to train new personnel to immediately assume key positions, to improve the executive and managerial capabilities of the current workforce and to develop apprentices for specialized facility engineering positions. The major components of the CTED program are: (1) Intern Program; (2) Long-Term Training and Developmental Program; (3) Executive and Managerial Development Program; and, (4) Facility Engineering Apprenticeship Program (FEAP). Funds provide for salaries, related benefits and supporting costs necessary to cover: (a) tuition, books, fees, programmed instructional materials and related expenses; (b) travel and per diem of student/participants while enroute or in training, educational, or developmental assignments including intern travel and per diem during intern training period; (c) transportation and/or storage of household goods for participants in long-term training, education, and/or developmental assignments which are in excess of 120 calendar days (including interns, apprentices and career program fellows); and (d) administrative costs associated with the administration and management of these programs. The CTED Program is essential to assure a "pipeline" of competent employees who are abreast of new developments in technology and who have full understanding of the current knowledge, skills, and abilities required to meet the Army's current and future civilian staffing needs at both the journeyworker and managerial levels.

II. Description of Operations Financed:

A. Intern Program (\$91,486): This program provides for salaries/benefits, travel and training of interns for placement into highly specialized occupations which are not available through normal labor market sources. Those selected for this highly competitive program are normally hired at the GS5/7 level. Interns undergo an intensive structured 2-year program comprising both on-the-job and formal classroom training at the end of which they will be fully prepared to perform successfully at the journeyworker level. Interns are required to sign a mobility agreement so they can be placed where Army's needs dictate.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: CIVILIAN TRAINING, EDUCATION AND DEVELOPMENT (CTED) PROGRAM

II. Description of Operations Financed (Continued):

B. Long Term Training (\$8,217): This program provides for salaries/benefits, tuition and travel of carefully selected employees to receive training and development to assure knowledges and skills of employees in executive and managerial leadership positions within the Army; and to receive functional training essential to maintain currency with the state-of-the-art in engineering, science, and specialized technology skills. This training is provided at various military colleges and civilian colleges and universities, and developmental assignments in the public and private sectors.

C. Executive and Management Development Program (\$8,963): This program provides minimum support required for a variety of intensive short-term courses for new managers, high potential managers, and incumbent executives and managers who require updating in managerial skills and knowledge. The Executive and Management Development Program is critical in developing a cadre of highly qualified employees to fill vacancies in the executive/managerial ranks that are created by retirements, transfers, and deaths.

D. Facility Engineering Apprenticeship Program (FEAP) (\$5,126): This program provides for salaries/benefits, travel and training of apprentices for specialized wage grade facility engineer positions. Individuals selected for this program are progressively promoted as they acquire the requisite knowledge and skills for the area to which they are assigned.

E. Administration (\$1,269). Provides salaries/benefits for 30 civilians and necessary supplies and equipment to manage the programs described above.

III. Financial Summary (O&M: \$ in Thousands):

B. Reconciliation of Increases and Decreases: (Continued)

coupled with high quality training must be provided to meet Army's readiness requirements in the 90's. Deployment of new and more complex weapons systems and advanced state-of-the-art technology demand additional support resources attendant to development and fielding. The need for sufficient numbers of trained civilian personnel is already acute. The intern program is currently operating from a deficit. We can only meet 78% of Commanders' stated intern requirements for FY 1986. With the 111 additional spaces and supporting funds, an additional three percent of Commanders' requirements can be met in FY 1987. The flow through the intern pipeline must be sufficient to meet Army's world-wide staffing needs in both near and long term. Our ability to fill highly technical/professional positions with specialized, trained personnel must be assured if we are to adequately meet Army's readiness requirements.

2. FY 1987 ACTEDS Program Increase (Base \$5,995).....\$ 2,957
Army Civilian Training, Education, and Development System (ACTEDS)---
Effective management of Army Programs required that managers be trained in an appropriate and timely manner. ACTEDS provides the improved systematic plan needed to assure the Army has an immediate and future cadre of trained civilian managers to attain mission and leadership objectives and sustain operational efficiency. This growth is 12% of that required to implement ACTEDS as planned during the second year of the five-year implementation schedule. It will nonetheless enable fundamental job analyses to continue and will permit competitive selections for key long-term training and developmental assignments to occur as planned.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: JUNIOR RESERVE OFFICER TRAINING CORPS (JROTC)

I. Narrative Description (Statement of Requirements and Mission):

The objectives of the Army Junior Reserve Officer Training Corps (JROTC) program are to acquaint secondary school students with the technical requirements of the modern age, to develop leadership, to develop informed and responsible citizens, to strengthen character, to promote an understanding of the basic elements and requirements for national security, and to develop an interest in the military services as a possible career.

II. Description of Operations Financed:

JROTC (OMA) funds are expended for the government's share (50 percent) of salary expenses for over 2,000 retired military employed as ROTC instructors in 896 secondary schools and for unit operating supplies and equipment. JROTC Cadet uniforms are funded in the Reserve Personnel Army appropriation.

JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: JUNIOR RESERVE OFFICER TRAINING CORPS (JROTC)

III. Financial Summary (O&M: \$ in Thousands):

B. Reconciliation of Increases and Decreases:

2. Junior ROTC Program of Instruction (POI) (Base \$700).....\$ 1,120

This increase funds the revision of the JROTC POI and student manuals. These materials are outdated and not technologically current. The POI was last updated in 1980 while the student manuals date from May 1971 to August 1981. Also the student manuals are not hardbound textbooks. These problems cause the Army JROTC program, the largest of the services, to be seen in an unfavorable light when compared to the Air Force, Marines, and Navy programs. The revision will modernize all materials associated with the JROTC program, from the instructor guides to the student texts and workbooks. The funding includes the research, development, printing and distribution of the revised materials. Total update of these materials will be completed over a four year period.

3. Junior ROTC Operations (Base \$6,343).....\$ 304
This increase funds additional support costs for JROTC for the increase in JROTC cadets and increased unit inspections.

Total Program Increases.....\$ 2,491

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: ARMY CONTINUING EDUCATION SYSTEM (ACES)

I. Narrative Description (Statement of Requirements and Mission):

ACES programs further Army readiness, retention and morale by improving individual professionalism and military skill proficiency. This program also provides the resources necessary to enable soldiers to fulfill their aspirations for educational growth through on-duty remedial and off-duty voluntary programs. ACES strives for closer coordination/integration with federal and state educational systems and with programs of the Veterans Administration. ACES is integrated primarily with recruiting, retention and training but supports all other aspects of Army personnel management. Advertised educational opportunities attract quality Army personnel and supplement individual enhancement programs, thereby improving professionalism and contributing to the Army readiness goal. ACES programs also improve the soldiers' quality of life in support of the Army human goal.

II. Descriptions of Operations Financed:

A. Secondary Education Program (\$46,664): Secondary programs include Basic Skills Education, Career Soldier Education, English as Second Language and the High School Completion Program. The Basic Skills Education Program (BSEP) is delivered in two phases. BSEP I is the commander's remedial program provided in the training base for soldier trainees who need basic competencies necessary to complete Advanced Individual Training successfully. BSEP II provides soldiers in grades E1 through E5 job-related academic competencies necessary for proficiency in military duties. The Career Soldier Education Program (CSEP) is designed for more senior enlisted personnel and is also delivered in two phases. CSEP I is the commander's education program for those personnel scheduled to attend courses in the Army's Noncommissioned Officer Education System but found to have academic deficiencies which would preclude them from successfully completing the course of instruction. CSEP II is the commander's program for NCO's who show specific educational deficiencies which prevent them from being qualified to successfully continue their military careers. English as Second Language provides instruction in English for non-native speaking soldiers. The High School Completion Program provides off-duty hours instruction to enable soldiers to earn a high school diploma or pass state high school equivalency examinations. The High School Completion Program is fully funded and no cost to the soldier. FY 1987 projections indicate that there remain more than 19,000 non-high school graduates Army-wide. Costs associated with secondary education programs include instructional costs, workyear costs associated with testing, counseling and administration, costs of supplies and equipment and costs of ADP support including computer based or computer managed instruction.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: ARMY CONTINUING EDUCATION SYSTEM (ACES)

II. Description of Operations Financed: (Continued)

B. Postsecondary Education Programs (\$43,410): These include all collegiate-level programs. They include associate, baccalaureate and graduate study conducted off-duty both on and off Army installations. These are supported by tuition assistance (TA) of either 75 or 90 percent. The Army's tuition assistance provides financial assistance to soldiers, aiding career and professional development and achievement of individual educational objectives and skill development. Through tuition assistance, Army attracts enlistees and insures that recruiting promises are honored Army-wide. In-service TA is reflected as a line item in the Total Military Compensation Presentation prepared annually at Congress' direction and provided to all soldiers. Costs associated with postsecondary education programs include not only tuition assistance but also workyear costs associated with testing, counseling and administration of the programs, supplies and equipment necessary for program operation and ADP support including computer based instruction. This category also includes tuition reimbursement for independent study (correspondence) courses taken by soldiers through the Defense Activity for Non-traditional Education Support (DANTES).

C. Management (\$15,655): This category provides funding for management of the Army Continuing Education System. There are presently 386 Education Centers staffed with 1,365 full time personnel. Management costs include supervisory salaries, supplies and equipment not associated with education program operation and costs for travel and professional development and PCS of staff.

D. Army Learning Centers (\$11,590): An Army Learning Center (ALC) is a facility dedicated as a delivery point for individualized or small group multi-media instruction. This category integrates existing Learning Center functions which have separately furnished services to support military training, education opportunities or civilian employee training and development. This Army initiative provides commanders the training and educational support resources to meet validated training development and educational needs. It also provides a standardized managerial method for operations and fiscal control.

NARRATIVE EXPLANATION OF PERSONNEL END STRENGTH CHANGES:

MILITARY

The decrease of one in FY 87 reflects minor manpower adjustments.

CIVILIAN

The increase of 40 in FY 87 results from realignments accompanying force restructuring (+43) and management efficiency initiatives (-3).

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: VETERANS EDUCATIONAL ASSISTANCE PROGRAM (VEAP)

I. Narrative Description (Statement of Requirements and Mission):

The Veterans Educational Assistance Program (VEAP) as authorized by PL 94-502 and PL 96-342 provides funds to support contract obligations for educational incentives from 1 January 1977 to 1 July 1985. Basic VEAP replaced the Vietnam Era GI Bill which terminated 31 December 1976. All service members, regardless of rank, who signed contracts 1 January 1977 to 1 July 1985 are eligible to participate in Basic VEAP. Service members contributions are matched 2:1 by the Army. On 1 January 1979, the Army began testing the recruiting effects of offering additional "kickers" (up to \$6,000) to high school diploma graduates in the upper test score categories. During FY 1981, an educational test program was implemented to measure effects of enhanced "kickers" (up to \$12,000); a tuition-stipend program similar to the old GI Bill; and a non-contributory VEAP with "kickers" option. In FY 1982, the Army implemented the Ultra VEAP Program (Army College Fund) nationwide. This program mirrored the FY 1981 test cell and the maximum "kicker" was increased to \$18,300 during FY 1985. Effective 1 July 1985, because of the new All Volunteer Educational Assistance Program (GI Bill), no new enrollments are authorized in this program. Funding requirements will continue to grow as prior year cohorts leave the Army and draw benefits.

II. Description of Operations Financed:

Veterans Educational Assistance Program (\$68,026): The Army is obligated by Law (PL 94-502) to match service members' contributions 2:1 (up to \$5,400 per person). Multiple cohorts from January 1977 to 1 July 1985 are included in programed resources.

- a. The Army is also contractually obligated to contribute additional educational benefits (VEAP "Kickers") to qualified individuals from January 1979 to 1 October 1981. Amounts vary from \$2,000 to \$12,000 depending on year and geographical location of Military Entrance Processing Station through which individual processed.
- b. Under the Army College Fund the Army is also contractually obligated to contribute up to \$18,300 for individuals signing contracts during FY 1982 to 1 July 1985. A two-year enlistee may receive up to \$8,000 and a four-year enlistee may receive up to \$18,300. Total benefits that may be used are the 2:1 matching contribution, the Army College Fund kickers and the soldiers's contribution.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: OTHER GENERAL PERSONNEL ACTIVITIES
ACTIVITY GROUP: VETTRANS EDUCATIONAL ASSISTANCE PROGRAM (VEAP)

II. Description of Operations Financed (Continued):

c. The Educational Assistance Test Program: Obligates the Army to provide funds for enlistees who signed contracts during FY 1981 for the tuition-stipend program (up to \$3,900 per year of service); the noncontributory VEAP program (up to \$8,100); Loan Repayment Program which offers repayment of certain federally insured loans for individuals enlisting for this option. Loan repayment was suspended in FY 1982 and reinstated in FY 1983.

Price Growth:

Private Sector Price Increase.....\$ 2,531

Total Price Growth.....\$ 2,531

Program Increases

VEAP Matching and Kicker Requirements (Base \$63,270).....\$ 2,225

The increase in VEAP funding is required to cover "must-pay" contractual obligations on the part of the Army, offered as an incentive to enlistment. The first major impact on the use of these funds was felt in FY 1985 with corresponding growth expected in FY 1986 and FY 1987. The increase in FY 1986 and FY 1987 is generated by multiple accession cohorts who are eligible to separate and use educational benefits which include "Kickers" from \$2,000 to \$18,300. Approximately eight percent of the VEAP eligibles will use their benefits while in service. Included are VEAP "two for one" matching funds which the Army is obligated to pay for cohorts enlisted from 1 January 1977 to 1 July 1985. The Veterans Administration paid the matching fund pay ments, but these obligations were transferred to the Army retroactive to 1 January 1977, effective 1 January 1982.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: ADMINISTRATION AND ASSOCIATED ACTIVITIES

I. Description of Operations Financed:

The Administration and Associated Activities Program finances the Department of the Army Headquarters, Personnel Administration, Public Affairs, Criminal Investigation, Audiovisual Support, and a variety of world-wide support activities. Several functions and activities are funded in this program because the efforts benefit Department of Defense (DOD) or the Army as a whole, or are better managed through consolidation in one area. This program is the Army's administrative management account which covers a wide range of activities necessary to effectively manage military and civilian personnel, logistics, financial resources, and various fiscal functions required by Public Law or DOD direction.

A. Mission Activities:

Approximately 40% of the funds requested for the mission budget activity groups are required to pay personnel or to support regulatory or statutory activities. Some of the Army's obligations under Public Law include payments to: the Federal Employee Disability Compensation Fund for civilian employee injury and death benefit costs; the US Postal Service for US Army official mail; the State Department for the US Army's portion of the foreign affairs administrative support costs, and Overseas Banking. Some of the organizations and the regulatory/statutory services for which funds are being requested are:

1. The Armed Forces Courier Stations which provide secure and expeditious handling of classified material;
2. The Institute of Heraldry which provides official seals and other distinctive insignia for the US Government;
3. The DOD Wage Fixing Authority which executes authorized wage fixing policy for DOD;
4. The Per Diem Travel and Transportation Allowance Committee which prescribes uniform regulations for travel and transportation allowances for uniformed and civilian personnel of DOD;

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: ADMINISTRATION AND ASSOCIATED ACTIVITIES

I. Description of Operations Financed: (Continued)

5. The Armed Services Board of Contract Appeals which administers contractual disputes in accordance with the disputes clause in all DOD procurement contracts;
6. The LOD Explosives Safety Board which provides impartial and objective advice on ammunition and explosives;
7. The US Army Nuclear Agency which supervises the nuclear and chemical surety program;
8. The US Army Claims Service Agency which ensures settlement of claims for personal property;
9. Defense Supply Service which provides contract procurement services for headquarters elements of the Army and other headquarters elements of the Department of Defense;
10. Personnel and Employment Service which provides civilian personnel support functions for Department of the Army agencies and those joint DOD agencies assigned to the Secretary of the Army for administration and support.

B. Base Operations:

1. Base Operations funding provides for operating and maintaining three principal posts for Military District of Washington (MDW); Fort McNair, Fort Myer and Cameron Station. Base Operations funding for tenants and satellites situated on MDW installations is also included. Other payments included are for the Real Estate Leasing Program which funds the Standard Level User Charges and Excess User Charges that are paid to the General Services Administration (GSA). Funding for all DOD commercial recruiting leases is also included.
2. The Real Property Maintenance Activity (RPMA) portion of Base Operations provides engineering support for MDW. These funds are for operations of utility systems, purchase of utilities, maintenance of real property, major construction, and other engineer support, such as fire protection, custodial services, pest control, refuse collection and disposal, and master planning.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: ADMINISTRATION AND ASSOCIATED ACTIVITIES
ACTIVITY GROUP: DEPARTMENT HEADQUARTERS SUPPORT

I. Narrative Description (Statement of Requirements and Mission):

This activity group includes the operating costs for the Department of the Army executive management offices located in the Washington, DC area and engaged in the formulation of plans, policies, programs, resource allocation and the supervision and direction of subordinate offices, agencies and commands. Included is civilian personnel compensation for the Offices of the Secretary of the Army and Army Staff, Office of the Chief of Engineers, and the Military District of Washington.

II. Description of Operations Financed (\$ in Thousands):

Office of the Secretary of the Army (OSA) provides for the day to day operations of the Offices of the Secretary of the Army, Under Secretary of the Army and the four assistant secretaries: Civil Works, Financial Management, Manpower and Reserve Affairs, Research Development and Acquisition, and Installations and Logistics. Also provides support to the Office of the General Counsel; Office of the Chief, Legislative Liaison; Office of the Administrative Assistant, and Management Office.

Army Staff (ARSTAF) provides for the day to day operations of the Office, Chief of Staff and the General Staff Agencies of the Comptroller of the Army, Deputy Chief of Staff for Personnel, Deputy Chief of Staff for Operations and Plans, Deputy Chief of Staff for Logistics, Deputy Chief of Staff Research, Development and Acquisition, and the Assistant Chief of Staff for Intelligence. Also provides support to the Offices of the Inspector General, Auditor General, Judge Advocate General, Adjutant General, Chief of Chaplains, Surgeon General, and Chief of Engineers.

Military District of Washington (MDW) provides for the day to day operations of MDW which has the mission to provide support to the Department of the Army in the National Capitol Region.

Office, Chief of Engineers (OCE) provides for the pay and support of the headquarters element of OCE.

III. Financial Summary (O&M: \$ in Thousands):

B. Reconciliation of Increases and Decreases: (Continued)

Program Decreases

1. Automation Data Processing Lease Reduction (Base \$-389).....\$ -102

Decrease is directly associated with the Congressional requirement to procure Automated Data Processing Equipment (ADPE) by direct purchase rather than lease. The FY 1984 Joint Conference Report requires purchase of ADPE in the vast majority of cases and also requires the Army to develop plans to buy out most current leases. The Army began to do this in FY 1984. This decrease represents a fixed annual reduction (FY85-89) attributable to continuing the process of changing from lease to purchase using Procurement instead of Operation and Maintenance funds.

2. Intelligence Operation Detachment (IOD).....\$ -17
Transfer to Program 3I to align manpower and dollar resources properly within Office of the Assistant Chief of Staff for Intelligence.

3. Deobligation Reduction.....\$ -133
Reduction is due to improved efficiency in management of unliquidated obligations. Intensified efforts by installations throughout the Army have resulted in more accurate estimates of amounts to be deobligated after the close of the fiscal year.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: ADMINISTRATION AND ASSOCIATED ACTIVITIES
ACTIVITY GROUP: PERSONNEL ADMINISTRATION SUPPORT

I. Narrative Description (Statement of Requirements and Mission):

This activity group provides the Army the capability to handle the large volume of workload associated with records and information required to manage the active force and be responsive to mobilization requirements. Funds requested provide for the operation and support of the personnel activities described below.

II. Description of Operations Financed:

US Army Military Personnel Center (MILPERCEN) - The primary mission of MILPERCEN is to execute and recommend military personnel policies, systems, and programs; to operate all Department of the Army selection and promotion boards; and to develop procedures applicable to military personnel management, to include personnel information systems. Broad functions include world-wide assignment of officers, warrant officers, and enlisted personnel; development of professional capacities through schooling and progressive assignment; direction of world-wide personnel information systems required to support planning, programming, policy determination and personnel operations; determination of eligibility for enlistment or reenlistment; maintenance of the service official active military personnel records; and providing personnel and transportation assistance and emergency administration to transient DOD personnel.

US Army Central Personnel Security Clearance Facility - This organization implements Army-wide policies, systems, and programs related to security clearances for active duty Army, Army Reserve, Army National Guard, and Department of the Army civilian employees. Also adjudicates results of all personnel security investigations related to Army affiliated personnel and advises commanders world-wide of security clearances and any changes thereto of assigned or employed personnel.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: ADMINISTRATION AND ASSOCIATED ACTIVITIES
ACTIVITY GROUP: PERSONNEL ADMINISTRATION SUPPORT

II. Description of Operations Financed: (Continued)

US Army Civilian Personnel Center (CIVPERCEN) - CIVPERCEN evaluates the effectiveness of civilian personnel management; administers and provides guidance on Army's civilian career programs; plans, develops, executes and evaluates the Army-wide program for the design and maintenance of civilian personnel management information systems; and provides interpretation of the application of laws, executive orders and regulations pertaining to civilian personnel management.

Other financed operations are the US Army Reserve Components Personnel and Administration Center which provides a myriad of functions required by Public Law in support of Retired and Reserve Personnel and Veterans and the Alcohol and Drug Abuse Program which is the Army's principal method of dealing with alcohol and other drug abuse and their impact on individuals and combat readiness. It also includes the US Army Physical Disability Agency which manages the Army's physical disability evaluation system under the authority of Chapter 61, Title 10, United States Code and the US Army Civilian Appellate Review Agency which investigates complaints of discrimination, grievances, and certain appeals.

PROGRAM: ADMINISTRATION AND ASSOCIATED ACTIVITIES
ACTIVITY GROUP: PERSONNEL ADMINISTRATION SUPPORT

III. Financial Summary (O&M: \$ in Thousands):

B. Reconciliation of Increases and Decreases: (Continued)

2. Drug Suppression (Base \$0).....\$ 68

Funds state of the art technology to allow local commanders to conduct preliminary drug testing, with follow on confirmation at laboratories, for marijuana, cocaine and amphetamines. Current procedures require that soldiers be withheld from duty pending laboratory analysis of standard drug tests. With Unit Level Drug Testing commanders will use portable drug test kits to determine which soldiers can be immediately returned to duty and which soldiers require further testing and analysis by Army labs. The quick return of non-drug users to duty stations will result in a direct increase in unit morale and a quantifiable increase in unit and combat readiness.

3. Manpower Authorizations Criteria (MACRIT) Improvement (Base \$182).....\$ 244

Current data and factors used in MACRIT are questionable or invalid. MACRIT supports 58% of all Table of Organization and Equipment (TOE) spaces, majority being logistical. MACRIT factor overstated by as little as one workday per month can cost the Army \$77 million per year according to the General Accounting Office. Objective is to develop a new MACRIT methodology for accurate and auditable manpower standards. This will improve the cost effectiveness of manning the force by ensuring all TOEs are based upon sound factual data.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: ADMINISTRATION AND ASSOCIATED ACTIVITIES
ACTIVITY GROUP: PUBLIC AFFAIRS

I. Narrative Description (Statement of Requirements and Mission):

This activity group provides support for all public information and community relations activities at Army installations world-wide. Public information includes all functions and activities which are performed primarily for the purpose of providing official information about the military departments and defense agencies to the public and public media, such as press, radio and television, magazines and books, motion pictures, or other outlets. Public information products are generated in response to requests for information and initiatives of the Department of Defense to fulfill its obligation of informing the public within the bounds of security.

Community relations includes all functions and activities which are performed primarily for the purpose of contributing to good relations between the military departments and defense agencies and all segments of the civilian population at home and abroad.

II. Description of Operations Financed:

Included are civilian compensation and personnel support costs and the incremental costs of tours associated with the operations of the Army Public Affairs Program.

Funding supports public affairs at the management headquarters level under the direction of the following Army commands (\$000):

- Office, Secretary of the Army	150
- US Army Materiel Command	870
- US Army Japan	198
- Eighth US Army	241
- US Army Information Systems Command	191

OPERATION AND MAINTENANCE, ARMY

PROGRAM: ADMINISTRATION AND ASSOCIATED ACTIVITIES
ACTIVITY GROUP: CRIMINAL INVESTIGATION ACTIVITIES

I. Narrative Description (Statement of Requirements and Mission):

This activity group supports the operation of the Headquarters, US Army Criminal Investigation Command (USACIDC) and its world-wide activities. The estimate includes civilian personnel compensation and other costs such as supplies, equipment, travel and contractual services.

II. Description of Operations Financed:

The primary mission of USACIDC involves the detection, investigation and reporting of crime, support of the Army Crime Prevention Program and providing protective service support to DOD and Department of the Army officials. Criminal Investigation Activities include the following:

- A. Drug Operations - These operations identify and apprehend high level traffickers of controlled substances to prevent illegal drugs from reaching US Forces. This vital drug suppression program seeks to prevent the occurrence of multiple criminal offenses through the elimination of the source of drugs.
- B. White Collar Crime Operations - These operations identify and apprehend criminals who defraud the US Government. This vital program is essential to the Army's fraud and waste prevention program.
- C. Crime Prevention Surveys - Surveys examine all aspects of management, property and fiscal accountability in which malfeasance may occur, as well as criminal activities, either engaged in or directed against Army personnel which may affect group health, discipline and welfare, both on and off military installations.
- D. Investigations - Investigations cover crimes against persons and property.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: ADMINISTRATION AND ASSOCIATED ACTIVITIES
ACTIVITY GROUP: CRIMINAL INVESTIGATION ACTIVITIES

II. Description of Operations Financed: (Continued)

E. Criminal Information Program - This program involves the collection, collation, analysis and dissemination of information regarding criminal suspects. In addition to assisting in crime solving, this program has a major goal of crime prevention. This activity finances the collection -- through informants, other agents, military police, outside police, outside police agencies, unit commanders, IG inspections etc. -- of information which identifies criminal suspects for targeting in an effort to terminate their illegal activities or crime conducive conditions which justify initiation of a crime survey or other preventive action.

F. Criminal Laboratories - Laboratories examine various types of evidence gathered during investigation from field elements. Three crime laboratories support not only USACIDC but all DOD agencies world-wide.

PROGRAM: ADMINISTRATION AND ASSOCIATED ACTIVITIES
ACTIVITY GROUP: CRIMINAL INVESTIGATION ACTIVITIES

III. Financial Summary (O&M: \$ in Thousands):

B. Reconciliation of Increases and Decreases: (Continued)

Program Decreases

1. Automation Data Processing Lease Reduction (Base \$-84).....\$ -54

Decrease is directly associated with the Congressional requirement to procure Automated Data Processing Equipment (ADPE) by direct purchase rather than lease. The FY 1984 Joint Conference Report requires the Army to develop plans to buy out most current leases. The Army began to do this in FY 1984. This decrease represents a fixed annual reduction (FY85-89) attributable to continuing the process of changing from lease to purchase using Procurement instead of Operation and Maintenance funds.

2. Deobligation Reduction.....\$ -498

Reduction is due to improved efficiency in management of unliquidated obligations. Intensified efforts by installations throughout the Army have resulted in more accurate estimates of amounts to be deobligated after the close of the fiscal year.

3. Travel Reduction.....\$ -769

Reduction for travel is a part of overall Army effort to reduce travel in low priority areas.

Total Program Decrease.....\$ -1,321

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: ADMINISTRATION AND ASSOCIATED ACTIVITIES
ACTIVITY GROUP: SERVICE-WIDE SUPPORT

I. Narrative Description (Statement of Requirements and Mission):

This activity group provides a variety of world-wide support functions that are necessary to enable the Army to comply with provisions of Public Laws or DOD Directives. Several functions and activities are funded in this activity group because the effort benefits DOD or the Army as a whole or are better managed through consolidation in one area, i.e., disability compensation, indicia mail, etc.

Some of the Army's obligations under Public Law include payment to the Federal Employee Disability Compensation Fund for civilian employee injury and death benefits; payment to the US Postal Service for US Army official (indicia) mail; payment to the State Department for the US Army's portion of the Foreign Affairs Administrative Support costs; and support for overseas banking. Some of the organizations and the regulatory/statutory services for which funds are being requested are:

- A. The Armed Forces Courier Stations provide secure and expeditious handling of classified material.
- B. The Institute of Heraldry provides official seals and other distinctive insignia for the US Government.
- C. The DOD Wage Fixing Authority executes authorized wage fixing policy for DOD.
- D. The Per Diem Travel and Transportation Allowance Committee prescribes uniform regulations for travel and transportation allowances for uniformed and civilian personnel of DOD.
- E. The Armed Services Board of Contract Appeals administers contractual disputes in accordance with the disputes clause in all DOD procurement contracts.

wartime, and demobilization. It is the Army's response to the GAO requirement the each service have one civilian personnel system and will replace the several command-unique systems currently in use. ACPERS will interface with the pay and financial systems, be an integral part of the Total Army Personnel Data Base (and, therefore, of the Corporate Data Base), and will provide baseline data needed to determine outyear personnel requirements. ACPERS will run on Vertical Installation Automation Baseline (VIABLE) hardware. FY 1986 funds pay for software development for the Headquarters, Department of the Army and Major Command modules of the system. FY 1987 funds continue software development (\$2,600), pay for communications between and among civilian personnel offices and the VIABLE Regional Data Centers (\$1,700), and pay for the contracts for training system users (\$600).

- | | |
|---|-------|
| 2. Total Army Personnel Data Base (TAPDB) (Base \$1,000).....\$ | 4,717 |
| TAPDB is an initiative to design and implement a personnel data base architecture which, from a single source fed by the various personnel systems, will provide Army managers at all levels the information required to man the force. TAPDB will access data from the Military and Civilian Personnel Centers, the National Guard Bureau, and from the Reserve Component Personnel Administration Center and will, through the logical design structure, be able to provide these data, organized and displayed as required, to planners and managers throughout the Army. TAPDB will be the personnel community's contribution | |

to the Corporate Data Base. FY 1986 funds pay for contracts to develop the functional description and the logical data base design. FY 1987 funds will be used to purchase commercially available software for a distributed data base management system, complete the physical design effort, and pay for contracts to integrate hardware and communications support.

- | | |
|---|-------|
| 3. Standard Installation/Division Personnel System - 3 (SIDPERS-3) Improvements (Base \$1,510).....\$ | 5,088 |
|---|-------|

SIDPERS-3 is a complete redesign of the 20-year old personnel system currently used at virtually all Army installations. Included are funds for SIDPERS-RC, an interim system to provide the Reserve Components an automated light infantry divisions. SIDPERS-3 will support the Total Army Personnel Data Base (TAPDB) through an inter-active, integrated system designed for peace and wartime use and during mobilization and demobilization. It will eliminate several separate modules, being used by Active and Reserve Components, and eliminate inefficient batch processing currently in use. SIDPERS-3 is being designed to run on all major Army computer systems and will provide strength and personnel accounting, casualty reporting, personnel action processing, document control and management, and replacement administration. FY 1986 funds pay contract costs for specification development and to convert current SIDPERS files to a data base management system. FY 1987 funds continue specification development, pay for definition and design work, complete the data base conversion, and initiate the training program for personnel administrators who will use the system. FY 87 also provides funds (\$4,132) to bring

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: ADMINISTRATION AND ASSOCIATED ACTIVITIES
ACTIVITY GROUP: BASE OPERATIONS

- I. Narrative Description: This budget activity provides for the operation and maintenance of installation support, less real property maintenance activities, at Fort Lesley McNair, Washington, DC, Fort Myer, VA and Cameron Station, VA. The FY 1987 request totals \$44.4 million, which includes an increase of \$.3 million in price growth and \$.4 million in program growth over the FY 1986 level. Major areas of program growth are in Commercial Activities Military Replacement (\$.1 million), expansion of Army Community Service and Child Development Operations (\$.2 million), and continuation of the Civilian Substitution program (\$1.0 million). Major program decreases include reductions in Travel (\$.05 million) and an overall reduction in the Base Operating Support levels (\$.9 million).
- II. Description of Operations Financed - Funds provide installation support in the following areas (\$000):
- A. Supply Operations (\$2,045): Finances the Office of the Director of Logistics and the operation of consolidated post supply. Includes the operation of self-service centers, clothing issue points and POL resale points. Finances pay and allowances for 87 civilian personnel.
 - B. Maintenance of Materiel (\$3,189): Finances Direct and General Support Maintenance of Support Systems such as aircraft, vehicles, and installation equipment. Finances pay and allowances for 91 civilian personnel.
 - C. Transportation Services (\$7,418): Finances the operation of local (installations) non-tactical motor transportation service to include government-owned vehicles and rented or leased commercially-owned vehicles; finances operation of rail equipment used for intra-installation transportation; finances pay and allowances for 312 civilian personnel.
 - D. Laundry and Dry Cleaning Services (\$249): Finances operation of laundry and dry cleaning plants and contracting for such services where Army-owned plants are not operated. Finances pay and allowances for 8 civilian personnel.
 - E. Army Food Service Program (\$1,633): Finances operation and administration of food supply and food preparation facilities, dining facilities, and ration processing and distribution points. All operations are contractor/military operated.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: ADMINISTRATION AND ASSOCIATED ACTIVITIES
ACTIVITY GROUP: BASE OPERATIONS

II. Description of Operations Financed - Funds provide installation support in the following areas (\$000)
(Continued):

F. Personnel Support (\$6,369): Finances Administration for the Office, Director of Personnel and Community Activities, installation civilian/military activities, command information program, alcohol and drug abuse program, reenlistment activities and pay and allowances for 207 civilian personnel.

G. Unaccompanied Personnel Housing Operation, Administration, and Furnishings (\$1,291): Finances the purchase, control, moving, and handling of housing furnishings for unaccompanied personnel officer quarters and unaccompanied personnel enlisted quarters; and finances the operation and administration of all unaccompanied personnel housing. All operations are contractor/military operated.

H. Administration (\$3,108): Finances Installation Commander/Garrison Commander/Chief of Staff and functions such as Headquarters Commandant, Inspector General, Staff Judge Advocate, Chaplain, Public Affairs Office, Equal Employment Opportunity Office, and Internal Review. Finances pay and allowances for 49 civilian personnel.

I. Automation Activities (\$1,879): Finances Office Director/Chief of Information Management and automation activities in support of base operations including data processing and office automation. Finances pay and allowances for 13 civilian personnel.

J. Community and Morale Support Activities (\$2,788): Finances the development, staffing, equipping, administering and operation of installation libraries, sports programs, Army Community Service activities, Child Support Services and separate Army bands. Finances pay and allowances for 39 civilian personnel.

K. Preservation of Order (\$1,223): Finances Director of Provost Marshall Office, police services at three installations to include military police operations, installation level confinement activities, physical security operation and operation of physical security equipment. Finances pay and allowances for 48 civilian personnel.

B. Reconciliation of Increases/Decreases (Continued)

Program Increases

- | | |
|--|-----|
| a. Army Community Service (ACS) (Base: \$63).....\$ | 142 |
| Funding provides for fully implementing the exceptional family member, financial planning and assistance, and family member employment programs at all ACS Centers. ACS Centers have also been resourced for contract coordinators who will recruit and train volunteers to support the many ACS activities. These "family programs" will significantly improve the support provided by the ACS Centers. | |
| b. Child Development (Base: \$35).....\$ | 24 |
| Additional contract funding is provided for first line supervisors of care givers at all existing child development centers. Increased contract resources are provided to expand the quarters based child development program at all installations and to implement an after school program to supervise the activities of children who traditionally return from school to an empty home. These "family programs" will significantly improve the quality of child development services throughout the Army. | |
| c. Civilian Substitution (Base: \$0).....\$ | 978 |
| Resources support program to convert Military Table of Distribution and Allowance (TDA) positions to civilian positions. The reassignment of replaced military end-strengths to higher priority force structure needs provides increased readiness and better utilization of available military authorizations. This FY 87 program supports 59 civilian spaces and 46 workyears. | |

B. Reconciliation of Increases/Decreases (Continued)

Program Increases (Continued)

- | | |
|---|-----|
| d. Commercial Activities: Military Replacement (Base: \$0).....\$ | 119 |
| Funds are required to support conversion of military manpower now working in commercial functions being cost studies through the CA Program. These commercial functions include administrative support, aircraft, installation support, audiovisual, food, and recreational services, etc. At the end of any cost study, regardless of the competition outcome (in-house or contract), the military manpower are withdrawn by HQDA for reallocation, and either Federal civilians or contract staff are provided in their place. Conversion funds are costed at \$27K per military space replaced, and are programmed only for cost studies where the military comprise at least 20% or more of the studies function's workforce. The funds support the conversion of 8 military manpower spaces and 8 workyears for the Military District of Washington. | |
| e. Civilian Personnel Offices (CPO) (Base: \$5,489).....\$ | 22 |
| Resources support increasing Manning levels from 82% to 87% at civilian personnel offices as validated by the Army's Manpower Standards standards. This increase will enable Army CPO's to meet workload levels which have expanded to support added requirements such as Commercial Activities/Army Performance Oriented Review System (CA/APORS) studies, increased job grading accuracy, increased suggestion program etc.. The increase provides for funding to support two added end strength and one workyear. | |

III. Financial Summary (\$ in Thousands) (Continued):

B. Reconciliation of Increases/Decreases (Continued)

Program Increases (Continued)

f. Drug and Alcohol Testing (Base: \$0).....\$ 44

Funds state of the art technology to allow local commanders to conduct preliminary drug testing, with follow on confirmation at laboratories, for marijuana, cocaine and amphetamines. Current procedures require that soldiers be withheld from duty pending laboratory analysis of standard drug tests. With Unit Level Drug Testing commanders will use portable drug test kits to determine which soldiers can be immediately returned to duty and which soldiers require further testing and analysis by Army labs. The quick return of non drug users to duty stations will result in a direct increase in unit morale and a quantifiable increase in unit and combat readiness.

PROGRAM: Army RPMA Activities
ACTIVITY GROUP: Administration & Associated Activities

I. Narrative Description (Statement of Requirements and Mission)

This budget activity provides Real Property Maintenance Activities (RPMA) support for the Military District of Washington. The US Army Military District of Washington exercises a dual role in execution of its mission. It is both a Major Command (MACOM) and an area support activity for DA and DoD activities in the National Capital Region.

II. Description of Operations Financed

Funds provide support in four functional areas of Real Property Maintenance Activities. These functional areas are:

1. Operation of Utilities (\$6,983). Finances expenses for procurement and distribution of utilities for MDW. Included are purchased utilities, purchased water, operation of water plants and distribution systems, and sewage and waste systems.
2. Maintenance and Repair of Real Property (\$23,499). Finances maintenance and repair of buildings, structures, grounds and utility systems in the National Capital Region.
3. Minor Construction (\$1,181). Finances the erection, installation or assembly of a new facility, or the addition, expansion, alteration or conversion of an existing real property facility when projects costs do not exceed \$200 thousand. A total of 25 projects are planned.
4. Engineer Support (\$6,400). Finances other facilities engineering services such as fire protection, custodial services, pest control, refuse collection and disposal, snow removal and ice alleviation. Includes pay and allowances for 4 personnel.

Program Changes

Program Increases

a. Real Property Maintenance (Base: \$17,767) \$ 6,108

Programatic increase to support one-time priority maintenance and repair and minor construction projects to meet the safety standards and to improve the soldiers' living conditions. Major projects scheduled to be accomplished are barracks repair, utilities system repair, repair of roof of Commissary, road surfacing repair, and curbs/gutters repair, and more. The average age of facilities at Military District of Washington (MDW) is approximately 80 years; i.e. some utility systems at Ft McNair and Ft Myer were constructed in early 1900, and these systems have deteriorated badly; thus require major repair/replacement to maintain effective sewer drainage and waterline systems.

Total Program Increases \$ 6,108

FY 1987 Budget Request \$ 38,063

OPERATION AND MAINTENANCE, ARMY

PROGRAM: REAL ESTATE LEASES
ACTIVITY GROUP: BASE OPERATIONS

I. Narrative Description: The Department of the Army Real Estate Leasing Program consists of all direct costs associated with commercial real estate leases and General Services Administration (GSA) managed leases for those Army activities that cannot accomplish their assigned mission at an Army installation. The Corps of Engineers has been delegated responsibility for acquiring and paying for space needed by DOD recruiting services and for all other GSA furnished space for the Army outside of the National Capital Region (NCR). The Office of the Secretary of the Army has the responsibility for all GSA furnished space for the Army within the NCR. The FY 87 request totals \$213.3 million, an increase of \$12.0 million in price growth and \$6.1 million in program growth over the FY 1986 level.

II. Description of Operations Financed - Funds provide support in the following areas (\$000):

A. GSA - National Capital Region (\$61,697): Finances the GSA furnished space for the Army managed by the Office of the Secretary of the Army.

B. GSA - Outside National Capital Region (\$83,153): Finances the GSA furnished space for the Army, including that portion of GSA furnished space in support of the Department of Defense Recruiting Program. This program is managed by the Corps of Engineers.

C. Non-GSA Leases (\$68,474): Finances the direct cost of leased space for which the Corps of Engineers is the Executive Agent, including a portion of leased space in support of the Department of Defense Recruiting Program. This program is managed by the Corps of Engineers.

B. Reconciliation of Increases/Decreases (Continued)

Program Increases

- | | |
|--|-------|
| a. National Capital Region (Base: \$48,320).....\$ | 2,085 |
| Funding is required for new space acquisitions within the National Capital Region (NCR). The House and Senate Armed Services Committees have authorized the leasing of 107,000 sq ft of new space in the NCR and additional requirements totaling 153,000 sq ft are currently pending with OSD and GSA. Current space planning anticipates partial occupation of this additional space in FY 86 and full utilization in FY 87. | |
| b. Excess User Charge and Service Contracts (Base: \$22,114).....\$ | 923 |
| Funds are required to fund GSA excess user charges and contractual maintenance and repair requested by tenants. Excess user charges include costs of non-standard items such as keeping buildings open longer than normal business hours, air conditioning, guards, and tenant requested modifications. | |
| c. Major Command Leased Space (Base: \$124,732).....\$ | 3,142 |
| Space is required for the Army Materiel Command to improve an unsatisfactory, counter productive situation in which some of the functional elements at Communications Electronic Command are located in WWII buildings on the main post, Ft Monmouth. This causes a reduction in organizational effectiveness. No increase in administration space per person will result (\$455). Space expansion for the US Military Entrance Processing Command (MEPCOM) is | |

necessary to provide sufficient space for processing the current and projected applicant workload. The Army National Guard will soon start processing of applicants at the MEPS. Also, increased processing workload is projected for other services. The addition of a typing test for individuals applying for career fields with typing requirements and changes in entrance requirements and counseling procedures increase the need for space. The space expansions are predominately special purpose space as opposed to office space (\$2,000). Additional funding is also required to support expansion of the Judge Advocate General (JAG) School at Charlottesville, VA. The JAG School's mission has increased to include legal orientation courses for all officers selected for senior commissions regardless of their branch. With student daily increasing 60%, additional funds will provide an additional 51,210 square feet (\$687).

PROGRAM: SUPPORT TO OTHER NATIONS

I. Description of Operations Financed

Program 10, Support to Other Nations, provides resources to fulfill Army responsibilities for US financial contributions to international activities for which the Army has been designated the Department of Defense Executive Agent; to support US personnel assigned to international organizations; to fund programs which further Army to Army Cooperation with allied and friendly nations; and to support authorized US Army personnel engaged in reimbursable Security Assistance Activities. Authority for such Army Activities is contained in the Foreign Assistance Act of 1961 as amended, 10 USC 1050, and pertinent Executive Orders and Department of Defense directives. For FY 1987, Program 10 resources are \$225.2 million, 3,892 military and 434 civilian personnel, a net increase of \$49.2 million over FY86. Of this amount, \$61.1 million is related to price growth, and \$-11.9 million is program growth.

The activities financed by Program 10 - Support to Other Nations resources include:

- Financial contributions to international organizations (includes NATO Military Budget, NATO Airborne Early Warning and Control System (AEM&CS) operating and support costs, Central European Operating Agency (CEOA), LIVE OAK (a classified project), and the Combined Forces Command (CFC) Korea.
- Travel, per diem, supplies and equipment for US personnel assigned to international organizations and expenses associated with Non-Military Assistance Program (MAP) activities of Military Assistance Advisory Group (MAAGs), Missions and Military Groups, Army to Army cooperation with allied/friendly nations, and other DOD directed missions.
- Civilian pay for US civilian personnel assigned to international activities.
- Miscellaneous expenses of US programs such as contracts, utilities, communications, printing and reproduction.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: SUPPORT TO OTHER NATIONS

II. Financial Summary (\$ in Thousands)

C. Reconciliation of Increases and Decreases (Continued):

Program Decreases

(1) NATO Budget Contribution.....\$ -11,755

Reflects a decrease to FY 87 NATO Military Budget of which the U.S. is obligated to pay approximately 28%. Also, includes a decrease in the operation and support costs of the NATO Airborne Early Warning and Control System (AEW&CS) of which the U.S. pays approximately 41.5%. Resources provide for: new and continuing NATO military exercises; new/replacement equipment procurement; remaining day-to-day operational expense of the NATO Military Commands and Agencies; operation and maintenance of 18 AEW&CS aircraft; facility program administration; communication; and the Force Commander's Headquarters operations. This reduction represents a recosting of the FY 87 NATO budget contribution requirements.

(2) Army Tactical Command and Control Information System (ATOCIS) Study.....\$ -146

Reflects a reduction in contractual support for a Common Army Tactical Command and Control Information Study effort. This study effort provides guidance and direction for nations in the development of a common ATOCIS post 1995. Also, provides a basis to develop NATO Standardization Agreement to achieve interoperability among allied tactical command and control systems.

OPERATION AND MAINTENANCE, ARMY

PROGRAM: SUPPORT TO OTHER NATIONS

ACTIVITY GROUP: INTERNATIONAL MILITARY HEADQUARTERS AND AGENCIES

I. Narrative Description

This activity group, International Military Headquarters and Agencies, includes resources which permit the payment of US financial contributions to International Military Organizations and provides support for US personnel assigned to positions in international military headquarters. Personnel and funds are provided to meet estimated US obligations to the North Atlantic Treaty Organization (NATO), and the Combined Forces Command (CFC) Korea.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: SUPPORT TO OTHER NATIONS
ACTIVITY GROUP: INTERNATIONAL MILITARY HEADQUARTERS AND AGENCIES

II. Description of Operations Financed

Financial Contribution to NATO. The Army has been designated as the DOD Executive Agent for payment of various US financial contributions to NATO. Those included in this program package are the US share of the NATO Military Budget, the US share of the NATO Airborne Early Warning and Control System (AEW&CS) operating and support costs, the US share of the Central European Operating Agency Budget, and LIVE OAK which is a classified NATO project.

The NATO Military Budget includes funds necessary to finance day-to-day operational costs of the NATO International Military Staff and subordinate NATO Military Commands and Agencies. Each command and agency submits its annual budget to the NATO Military Budget Committee for review and approval. The Military Budget Committee whose membership includes representatives from all member nations screens, adjusts if necessary, and recommends an approved operating budget to the North Atlantic Council/Defense Planning Committee (NAC/DPC) for ambassador level approval. Upon NAC/DPC approval of the budget, member nations are assessed contributions based on agreed cost sharing formulas.

Activities covered by the Military Budget are financed in terms of either fourteen or fifteen nation participation. This is due to nonparticipation by France in many of the military projects of NATO. The US contribution is 25% for fifteen nation projects and 30.16% for fourteen nation projects. Each nation's percentage is fixed and therefore the annual US requirement is a function of the total NATO cost of its military commands and agencies plus the impact of inflation and currency fluctuations.

Member nation contributions are requested three times annually during the NATO budget year through a process known as a "Call-Up of Funds." These calls are made in terms of the NATO Accounting Unit (NAU), a budgetary device which adjusts national currency fluctuations in terms of the Belgian Franc, the currency used for NATO budgeting processes.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: SUPPORT TO OTHER NATIONS

ACTIVITY GROUP: INTERNATIONAL MILITARY HEADQUARTERS AND AGENCIES

II. Description of Operations Financed (Continued)

Due to the extensive Military Budget Committee screening process and the NATO fiscal year running concurrent with the calendar year, the FY 1987 NATO budget will not be finalized until late in calendar year 1986. Therefore, the final requirement for the 1987 US contribution is developed based on the latest Long Range Financial Forecast (March 1985).

NATO Airborne Early Warning and Control System (AEW&CS). Prior to FY 1985, the NATO AEW&CS program's primary focus was acquisition. The executive agent for the acquisition phase of the NATO AEW&CS program is the US Air Force. Beginning in FY 1985, funding and budgeting responsibility for operating and support costs for the NATO AEW&CS program was transferred from the Air Force to the Army. Costs include: operation and maintenance of aircraft, facility maintenance, program administration, communication, and the Force Commander's Headquarters Operations. Activities covered by the NATO AEW&C system are financed in terms of either twelve or thirteen nations participation. The United Kingdom, which also provides in-kind mission support, participates in the NATO AEW&CS program only in the funding of the Force Commander's Headquarters. The US contribution is 32.6% for thirteen nation expenditures and 41.5% for twelve nation expenditures.

Central European Operating Agency (CEOA) Contribution. As the DOD appointed Executive Agency for NATO contributions, the Army is also responsible for the annual CEOA contribution. CEOA is the central coordinating and controlling body of the Central European Pipeline System (CEPS) and serves as the fiscal agency for the pipeline. Based on a standing cost-sharing agreement among the eight member nations, expenses for maintenance and operation of the system over and above revenues collected for movement and storage of fuels are funded by the member nations.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: SUPPORT TO OTHER NATIONS
ACTIVITY GROUP: INTERNATIONAL MILITARY HEADQUARTERS AND AGENCIES

II. Description of Operations Financed (Continued)

LIVE OAK is a classified international project to which the US contributes annually based on a set costing sharing formula.

International Military Headquarters (IMH) Support (NATO). IMH funds provide for support of US elements of the NATO International Military Headquarters and subordinate commands. There are over twenty US elements and activities located throughout the NATO geographical area. Due to US law, the US pays civilian salaries of US personnel who are employed as NATO employees. Credit is received for these salaries as an offset to the NATO Military Budget contribution. Travel costs associated with NATO missions are funded in the NATO Military Budget, but US personnel receive the US per diem rates. Additionally, travel for US missions (annual physicals, US military training, military justice, etc.) are funded within this category.

US Support to United Nations Command/Combined Forces Command (UNC/CFC) Korea. Funds within this activity provide support for Armistice Activities as set forth in the Armistice Agreement of July 27, 1953; Administrative and logistical support for US personnel assigned to the UNC/CFC Korea; and US participation in UNC/CFC activities.

PROGRAM: SUPPORT TO OTHER NATIONS
ACTIVITY GROUP: MISCELLANEOUS SUPPORT TO OTHER NATIONS

I. Narrative Description

The resources provided in this activity group satisfy the Army's responsibility for administrative and logistical support of Non-Military Assistance Program (MAP) activities performed by Military Assistance Advisory Groups (MAAGs), Missions and Military Groups; US participation on international military boards and commissions; US participation in the United Nations Truce Supervision Organization (UNTSO); Army to Army cooperation program, other personnel exchange programs, and DoD directed missions in support of other nations when US national security interests are affected.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: SUPPORT TO OTHER NATIONS

ACTIVITY GROUP: MISCELLANEOUS SUPPORT TO OTHER NATIONS

II. Description of Operations Financed

Non-Military Assistance Program (MAP) support of Military Assistance Advisory Groups (MAAGs), Missions and Military Groups (Europe) funds are required to support Army to Army cooperation with allied and friendly nations in Europe as well as support of US Army personnel assigned to and non-security assistance functions performed by MAAGs in Spain and Turkey. Primary cost areas include travel for non-MAP activities, travel, salaries, and a percentage share of contract expenses for administrative expenses of Joint United States Military Mission for Aid Turkey (JUSMAT).

Resources to support Latin American Cooperation activities as authorized by 10 USC 1050. Included are programs for officer and student visits and exchanges; translation and printing of documents to include publication of the Latin American editions of the Military Review; joint US-Mexican defense activities; participation in the Inter-American Defense Board and College and other Army to Army cooperation projects aimed at improvement of relations with Latin American Armies. Cost areas include: travel and per diem, civilian salaries; printing and reproduction; and contributions to Latin American international military organizations.

United Nations Truce Supervision Organization (UNTSO). Funds for supplies and equipment and travel by US personnel assigned to or responsible for UNTSO.

Pacific Armies Cooperation Programs. Initiatives developed to improve cooperation and exchanges between US Army and Pacific Armies aimed at expanding US interests with Pacific nations to include Australia, New Zealand, Japan and other allied/friendly nations. Expenses are largely for supplies and travel.

Personnel Exchange Program (PEP). The Personnel Exchange Program provides for an exchange of personnel with armies of other countries. Personnel participating in this program are assigned to authorized positions in US organizations with duty stations in a foreign Army. Each position has a reciprocal position within the other Army. The exchanges permit not only a sharing of experience, professional knowledge and doctrine/training of respective armies, but also permit the development of continuing military relationships with present and potential foreign leaders. Expenses are largely for supplies and travel.

III. Financial Summary (\$ in thousands)

C. Reconciliation Of Increases and Decreases (Continued):

Program Decrease

Army Tactical Command and Control Information System (ATOCIS)
Study (Base \$755).....\$ -146

Reflects a reduction in contractual support for a Common Army Tactical Command and Control Information Study effort. This study effort provides guidance and direction for nations in the development of a common ATOCIS post 1995. Also, provides a basis to develop NATO Standardization Agreements to achieve interoperability among allied tactical command and control systems.

Total Program Decrease.....\$ -146

FY 1987 Budget Request.....\$ 6,322

No end strength change in FY 87.

CIVILIAN

No end strength change in FY 87.

DEPARTMENT OF THE ARMY
JUSTIFICATION OF BUDGET ESTIMATES FOR FY 1987
OPERATION AND MAINTENANCE, ARMY

PROGRAM: SUPPORT TO OTHER NATIONS
ACTIVITY GROUP: SERVICE SUPPORT TO MILITARY ASSISTANCE AND FOREIGN MILITARY SALES PROGRAMS

I. Narrative Description

No direct funds are associated with this activity group. Personnel accounted for in this group perform duties associated with the Security Assistance program, i.e., Foreign Military Sales (FMS) or Military Assistance Program (MAP) and the Army is reimbursed for their salaries. Assignment of personnel and the duties they perform are directed and controlled in the Office of the Secretary of Defense.

II. Description of Operations Financed

Personnel in this aggregation are engaged in foreign military sales activities or assigned to military assistance groups, military missions or military groups worldwide. The difference in end strength and workyears shown for military and civilian personnel in this activity group results from FMS cases in which workyears are reported but end strength is not required as cases are manned by personnel on temporary duty.
